

**VICROADS PRE-QUALIFICATION SCHEME
LEVEL 2 BRIDGE INSPECTION
OPERATIONAL MANAGEMENT SYSTEM REQUIREMENTS**

Further to the requirements of Clause 1.3 in "Management System Guidelines" in Part B of the VicRoads Pre-qualification Scheme application forms, operational management systems for Bridge Inspection Level 2 pre-qualification must be documented systems but not necessarily have been subjected to an independent audit.

Operational Quality Management and operational Occupational Health and Safety management systems must, in addition to the requirements of Clause 1.3, address the following points:

Quality

The Quality Management System must document items 1 to 36 of the checklist which are relevant to Level 2 bridge inspection with the exclusion of:

- Items 12, 13, 14 and 15 relating to Design
- Items 18, 19, and 20 relating to Purchasing
- Item 23 relating to Production and Service Provision

Safety

The Occupational Health and Safety System must document all of the items in the OHS checklist.

Applicants must comply with clause 1.3 of Part B of the VicRoads Pre-qualification Scheme application forms regarding the statement and commitment.
