(iii) 20 Business Days, prior to the date upon which it reasonably expects to achieve Commercial Acceptance and a notice 20 Business Days prior to the date on which it reasonably expects to achieve Milestone Completion.

(b) (Revised date): If, after Project Co gives the State and the Independent Reviewer a notice in accordance with clause 24.2(a), the date upon which Project Co reasonably expects to achieve Commercial Acceptance, or Milestone Completion changes, Project Co must notify the State and the Independent Reviewer promptly of the revised date.

24.3 Commercial Acceptance and Milestone Completion

(ii) request the Independent Reviewer to issue a Certificate of Commercial Acceptance or Certificate of Milestone Completion (as applicable);
(iii) in relation to Commercial Acceptance only, provide the State and the Independent Reviewer with a detailed list of any Commercial Acceptance Outstanding Items and any Remaining Works remaining to be undertaken, in its opinion, to achieve Final Acceptance; and
(iv) in relation to Milestone Completion only, provide the State and the Independent Reviewer with a detailed list of the work (including Minor Defect correction) remaining to be undertaken, in its opinion, to complete that Milestone.

(b) (Notice by State): Notwithstanding that Project Co may not have issued a notice under clause 24.3(a), when the State considers that Project Co has achieved Commercial Acceptance or Milestone Completion, the State may:

(i) notify Project Co and the Independent Reviewer of its opinion; and
(ii) request the Independent Reviewer to issue a Certificate of Commercial Acceptance or Certificate of Milestone Completion (as applicable).

(c) (Independent Reviewer to make determination): As soon as reasonably practicable and, in any event, within 10 Business Days after Project Co complying
with clause 24.3(a) or the State giving notice under clause 24.3(b) (as the case may be), the Independent Reviewer is required to determine whether Commercial Acceptance or Milestone Completion (as applicable) has been achieved and either:

(i) if Commercial Acceptance or Milestone Completion has been achieved, or the State and Project Co require the Independent Reviewer to issue a Certificate of Commercial Acceptance or Certificate of Milestone Completion, issue a Certificate of Commercial Acceptance or Certificate of Milestone Completion (as applicable) to the State and Project Co:

(D) attaching a list of any Remaining Works;

(E) listing any Minor Defects (including any Minor Defects in a Returned Asset);

(A) listing the work remaining to be undertaken by Project Co to achieve Commercial Acceptance or Milestone Completion (as applicable); or

(B) stating that Commercial Acceptance or Milestone Completion (as applicable) is so far from being achieved that it is not practicable to provide a list of the type referred to in clause 24.3(c)(ii)(A), after which Project Co must continue to expeditiously and diligently progress the Development Activities to achieve Commercial Acceptance or Milestone Completion (as applicable).

(d) (Where Commercial Acceptance or Milestone Completion not achieved):
Project Co must give notice to the State and the Independent Reviewer when the work listed in a notice issued by the Independent Reviewer under clause 24.3(c)(ii)(A) has been completed.
(e) **(Resubmission):** Clauses 24.3(c) will apply in connection with Project Co's notice under clause 24.3(d) in the same way as if it were the original notice given under clause 24.3(a).

(f) **(No restriction on Independent Reviewer):** Subject to clause 24.3(h), the Independent Reviewer, in making its determination as to whether Commercial Acceptance or Milestone Completion (as applicable) has been achieved, will:

(i) not be restricted by any notice, list or opinion which it previously provided to Project Co under clause 24.3(c)(ii); and

(ii) be entitled to raise any other items of work which are required to be completed in accordance with this Deed in order to achieve Commercial Acceptance or Milestone Completion (as applicable) which have not been so completed (other than any Commercial Acceptance Outstanding Items or Remaining Works) as a ground for determining that Commercial Acceptance or Milestone Completion (as applicable) has not been achieved.

(g) **(Certificate of Commercial Acceptance):** The issue of a Certificate of Commercial Acceptance in accordance with clause 24.3(c)(i) does not constitute:

(i) evidence that Project Co has satisfied the relevant FFP Warranty;

(ii) an approval by the State of the completion or acceptance of the relevant Works under this Deed; or

(iii) evidence that all or any other obligations under this Deed have been satisfied.

(h) **(Other Works or Returned Assets):** Without limiting any other rights which the State has under the Project Documents, when assessing whether Commercial Acceptance or Milestone Completion (as applicable) has been achieved, the Independent Reviewer is not entitled to raise issues which relate to:

(i) any Works including Returned Assets which Project Co is obliged to complete to achieve any other Commercial Acceptance or Milestone Completion (as applicable) nor any Final Acceptance related to that other Commercial Acceptance or Milestone Completion (as applicable); or

(ii) any Milestone which forms part of the Commercial Acceptance under assessment for which a Certificate of Milestone Completion has been issued or work which has previously achieved Returned Assets Acceptance.

### 24.4 Returned Asset Acceptance

(a) **(Consultation):** Project Co must:

(i) fully consult with the relevant Returned Asset Owners a reasonable time prior to undertaking any work in connection with the relevant Returned Assets which will be returned to that owner and while undertaking any work in connection with the Returned Asset so as to ensure that:

(A) Project Co identifies the usual requirements of the Returned Asset Owners for works of the nature of the relevant Returned Assets which, in the case of a Direct Interface Party, must be
consistent with any corresponding obligations in any relevant Direct Interface Deed; and

(B) the requirements of clause 24.4(b) are satisfied;

(ii) complete each Returned Asset in accordance with the requirements of this Deed and any relevant Direct Interface Deed; and

(iii) carry out all tests required in order to determine the relevant Returned Asset Acceptance in accordance with the PSDR.

(b) **(General obligations):** Project Co must progressively complete the Returned Asset to achieve Returned Asset Acceptance of each Returned Asset as soon as possible:

(i) so as to ensure that any loss of amenity and inconvenience to the relevant Returned Asset Owner is minimised, unless such loss of amenity or inconvenience is consistent with any relevant Direct Interface Deed;

(ii) so as to ensure that the completion of each Returned Asset occurs in a smooth and orderly manner (rather than in a compressed period immediately prior to Commercial Acceptance or any Milestone Completion as applicable) which:

(A) is consistent with the Initial Phase Program; and

(B) in any event will provide the Independent Reviewer and the relevant Returned Asset Owner with sufficient time to progressively inspect the relevant Returned Asset, consider whether the relevant Returned Asset has been completed in accordance with the State Project Documents and any relevant Direct Interface Deed and carry out any reinspection or other activities required by this Deed or the Independent Reviewer Deed of Appointment to be carried out by the Independent Reviewer, in respect of the Returned Asset, in a smooth and orderly manner; and

(iii) in order to achieve completion of the Returned Assets in respect of the Dohertys Road Bridge Works by the Dohertys Road Bridge Works Completion Date.

(c) **(Reasonable endeavours):** Project Co must use reasonable endeavours to achieve completion of the Returned Assets in relation to a Milestone (other than the Key Milestones) by the Milestone Date.

(d) **(Acceptance of Returned Assets):** Returned Asset Acceptance for a Returned Asset will not be achieved until:

(i) the relevant Returned Asset has been completed in accordance with the State Project Documents subject only to Minor Defects;

(ii) Project Co has issued a notice in the form required by the Schedule of Certificates and Notices to the State, the Independent Reviewer and the relevant Returned Asset Owner which:

(A) states that it considers that the relevant Returned Asset has been completed in accordance with the State Project Documents; and
(B) lists any Minor Defects;

(iii) Project Co, the Independent Reviewer, the State and the relevant Returned Asset Owner have had the opportunity to jointly inspect the Returned Asset at a time agreed (or in the absence of agreement, determined by the Independent Reviewer) which will be no more than 5 Business Days after receipt of Project Co’s notice under clause 24.4(d)(ii); and

(iv) the Independent Reviewer has issued to the State and Project Co a notice under clause 24.4(f)(i).

(e) \textbf{(Independent Reviewer to consider comments of Returned Asset Owner):} In determining whether or not to issue a notice under clause 24.4(f), the Independent Reviewer will consider any reasonable comments of the relevant Returned Asset Owner provided within 5 Business Days after the time of the inspection under clause 24.4(d)(iii).

(f) \textbf{(Independent Reviewer to make determination):} As soon as reasonably practicable following the inspection under clause 24.4(d)(iii), the Independent Reviewer is required to determine whether the Returned Asset has been completed in accordance with the State Project Documents (subject only to Minor Defects) and issue to the State and Project Co either:

(i) a notice in the form required by the Schedule of Certificates and Notices confirming that the relevant Returned Asset has been completed (subject only to Minor Defects); or

(ii) a notice either:

(A) listing the work remaining to be undertaken in order to complete the relevant Returned Asset in accordance with the State Project Documents (subject only to Minor Defects); or

(B) stating that the relevant Returned Asset is so far from being completed in accordance with the State Project Documents that it is not practicable to provide a list of the type referred to in clause 24.4(f)(ii)(A), after which Project Co must continue to expeditiously and diligently progress the Development Activities to complete the relevant Returned Assets in accordance with the State Project Documents.

(g) \[\text{Not used}\].

(h) \textbf{(Further notice by Project Co):} Project Co must give notice to the State, the relevant Returned Asset Owner and the Independent Reviewer when the work listed in a notice issued by the Independent Reviewer under clause 24.4(f)(ii)(A) has been completed.

(i) \textbf{(Resubmission):} Clause 24.4(e) will apply in connection with Project Co’s notice under clause 24.4(h) in the same way as if it were the original notice given under clause 24.4(d)(iii).

(j) \textbf{(No restriction on Independent Reviewer):} The Independent Reviewer, in making its determination as to whether any Returned Asset has been completed in accordance with the State Project Documents and any relevant Direct Interface Deed (subject only to Minor Defects), will:
not be restricted by any notice, list or opinion which it previously provided to Project Co under clause 24.4(d)(ii); and

(ii) be entitled to raise any other items of work applicable to the relevant Returned Asset (other than the Minor Defects) as a ground for determining that the relevant Returned Asset has not been completed in accordance with the State Project Documents.

(k) **(Project Co’s Acceptance obligations):** Upon receipt of a notice from the Independent Reviewer under clause 24.4(f)(i), Project Co must:

(i) notify the relevant Returned Asset Owner of the date upon which Returned Asset Acceptance for that Returned Asset will occur (which date must not be fewer than 5 Business Days after issue of the notice under this clause 24.4(k)(i)) (**Date of Returned Asset Acceptance**);

(ii) continue to maintain and repair that Returned Asset until the relevant Returned Asset Acceptance; and

(iii) provide the State and the relevant Returned Asset Owner with all such assistance as may be reasonably required in relation to achieving Returned Asset Acceptance of the relevant Returned Asset.

(l) **(Correction of Defects which did not prevent Returned Asset Acceptance):** Subject to clause 27.1(g), Project Co must immediately upon receipt of the Independent Reviewer’s notice under clause 24.4(f)(i), expeditiously and diligently correct all of the Defects specified in the Independent Reviewer’s notice.

(m) **(Determination under Road Management Act):** For the avoidance of any doubt, a determination of the Project as a ‘designated road project' under section 16 of the Road Management Act does not change the status of any local council as a Returned Asset Owner under this Deed.

### 24.5 Commercial Acceptance Outstanding Items

(a) **(Commercial Acceptance Outstanding Items list):** The Independent Reviewer may issue its determination that Commercial Acceptance has been achieved with:

(i) an attached list of Commercial Acceptance Outstanding Items which have been determined by the Independent Reviewer or agreed by the State and Project Co; and

(ii) a timeframe within which each Commercial Acceptance Outstanding Item must be rectified.

(b) **(Submit plan):** Project Co must submit to the State and the Independent Reviewer for review in accordance with the Review Procedures a program for the completion of the Commercial Acceptance Outstanding Items that complies with the time periods determined in accordance with clause 24.5(a)(ii) within 5 Business Days after the issue of a certificate of Commercial Acceptance.

   (ii) request the Independent Reviewer to issue a Certificate of Final Acceptance.

(d) **(Notice by State):** Notwithstanding that Project Co may not have issued a notice under clause 25.1(c), when the State considers that Project Co has achieved Final Acceptance, the State may:

   (i) notify Project Co and the Independent Reviewer of its opinion; and
   
   (ii) request the Independent Reviewer to issue a Certificate of Final Acceptance.

(e) **(Independent Reviewer to make determination):** Within 15 Business Days after Project Co’s notice under clause 25.1(c) or the State’s notice under clause 25.1(d), the Independent Reviewer is required to inspect the Project Assets to determine whether Final Acceptance has been achieved and either:

   (i) if Final Acceptance has been achieved or the State requests the Independent Reviewer to issue a Certificate of Final Acceptance in accordance with clause 25.1(d), issue a Certificate of Final Acceptance to the State and Project Co:

      (A) certifying that Final Acceptance has been achieved; and
      
      (B) stating the Date of Final Acceptance (being the date of the Certificate of Final Acceptance); or

   (ii) if Final Acceptance has not been achieved in accordance with clause 25.1(e)(i), unless the State and Project Co have required the Independent Reviewer to issue a Certificate of Final Acceptance, issue a notice to the State and Project Co listing the work remaining to be undertaken to achieve Final Acceptance, including any relevant Commercial Acceptance Outstanding Items and Remaining Works.

(f) **(Project Co to complete work specified in notice):** Immediately upon receipt of a notice under clause 25.1(e)(ii), Project Co must expeditiously and diligently progress performance of the work specified in the notice.

(g) **(Further notice by Project Co):** Project Co must give notice to the State and the Independent Reviewer when the work listed in the Independent Reviewer’s notice under clause 25.1(e)(ii) has been completed.
(h) **(Resubmission):** Clauses 25.1(e) and 25.1(f) will apply in connection with Project Co's notice under clause 25.1(g) in the same way as if it were the original notice under clause 25.1(c).

(i) **(No restriction by Independent Reviewer):** Subject to clause 25.1(k), the Independent Reviewer, in making a determination as to whether Final Acceptance has been achieved, will:

(i) not be restricted by any:

(A) Certificate of Commercial Acceptance issued in relation to the relevant Works, notice, list or opinion already provided in accordance with the requirements of this Deed; or

(B) obligation of Project Co under this Deed to correct any Defects; or

(ii) be entitled to raise any other items of work which are required to be completed in accordance with this Deed in order to achieve Final Acceptance which have not been so completed as a ground for determining that Final Acceptance has not been achieved.

(j) **(Certificate of Final Acceptance):** The issue of a Certificate of Final Acceptance in accordance with clause 25.1(e)(i) does not constitute:

(i) evidence that Project Co has satisfied the relevant FFP Warranty;

(ii) an approval by the State of the completion or acceptance of the relevant Works under this Deed; or

(iii) evidence that all or any other obligations under this Deed have been satisfied.

(k) **(Other Works or Returned Assets):** Without limiting any other rights which the State has under the Project Documents, when assessing whether Final Acceptance has been achieved, the Independent Reviewer is not entitled to raise issues which relate to any Works which form part of the Final Acceptance under assessment for which a Certificate of Milestone Completion has been issued or which has previously achieved Returned Asset Acceptance.

### 25.2 Late Final Acceptance

(a) **(Retention):** If:

(i) Project Co does not achieve Final Acceptance by the Date for Final Acceptance; or

(ii) at any time after the Date of Commercial Acceptance, the State considers (acting reasonably) that Final Acceptance will not be achieved by the Date for Final Acceptance,

then:

(iii) the State may issue a notice to the Independent Reviewer and Project Co requiring the Independent Reviewer to:

(A) identify the work remaining to be undertaken to achieve Final Acceptance; and
(B) determine the cost of performing such work;

(iv) within 5 Business Days after the State's notice under clause 25.2(a)(iii), the Independent Reviewer must issue a notice to the State and Project Co:

(A) listing the work remaining to be undertaken to achieve Final Acceptance; and

(B) setting out the cost of performing such work;

(v) if Final Acceptance does not occur (or has not already occurred) by the Date for Final Acceptance, the State may retain from any amount due to Project Co (including Service Payments):

(A) an amount equal to [not disclosed]% of the amount set out in the Independent Reviewer's notice under clause 25.2(a)(iv)(B); or

(B) such lesser amount as the State may determine,

until Final Acceptance is achieved (Retention Amount); and

(vi) within 20 Business Days after the Date of Final Acceptance, Project Co will be entitled to payment of the Retention Amount less:

(A) any amount to be reimbursed to the State under clause 25.2(b)(iv)(B); and

(B) any other amount the State may set-off or deduct under clause 34.7.

(b) (State’s Rights): The State:

(i) is not obliged to pay Project Co interest on any Retention Amount;

(ii) does not hold any Retention Amount on trust;

(iii) if Final Acceptance is not achieved before this Deed is terminated, will be absolutely entitled to the Retention Amount subject to paying any Termination Payment payable to Project Co; and

(iv) at any time after the Date for Final Acceptance and subject to giving Project Co prior notice of its intention to do so, may:

(A) undertake any work remaining to be undertaken to achieve Final Acceptance itself or engage others to do so; or

(B) elect to:

1) determine that Final Acceptance has been achieved without all or any part of the work remaining to be undertaken to achieve Final Acceptance having been undertaken by Project Co;

2) direct the Independent Reviewer to issue a Certificate of Final Acceptance in accordance with clause 25.1(d);
3) undertake any such remaining work itself or engage others to do so; and
4) use that Retention Amount to reimburse it for the costs (including any Liability) incurred in undertaking that work.

26. Time

26.1 Primary obligation

Project Co must:

(a) (commence): promptly commence performance of the Development Activities on the relevant Development Area following Financial Close;

(b) (progress): regularly, expeditiously and diligently carry out and progress the Development Activities to achieve Acceptance or Milestone Completion (as applicable);

(c) (achieve Acceptance): achieve Acceptance by the relevant Date for Acceptance;

(d) (achieve Milestone Completion): use reasonable endeavours to achieve Milestone Completion of each Milestone (other than the Key Milestones) by the Milestone Date; and

(e) (achieve Milestone Completion in relation to Key Milestones): achieve Milestone Completion in relation to the Key Milestones by the relevant Key Milestone Completion Date.

26.2 Initial Phase Program

(a) (Submission): Project Co must amend the Bid Initial Phase Program in accordance with Part F2 of the PSDR and otherwise in accordance with this Deed and submit it to the State and the Independent Reviewer for review in accordance with the Review Procedures.

(b) (Resubmission): The parties acknowledge and agree that the Bid Initial Phase Program submitted and amended in accordance with Part F2 of the PSDR and the Review Procedures (as relevant) will become the Initial Phase Program.

(c) (Further submission) If Project Co amends the Initial Phase Program in accordance with this Deed, it must submit the amended Initial Phase Program for review by the State and the Independent Reviewer in accordance with the Review Procedures.

(d) (Accuracy): The Initial Phase Program must accurately reflect the status and progress of the Development Activities.

(e) (Departure): Project Co:

(i) acknowledges and agrees that the Initial Phase Program does not form part of this Deed; and

(ii) subject to complying with its obligations under clause 26.2(f), and without limiting its obligations under this clause 26, may depart from the Initial Phase Program if it is necessary to do so to comply with the requirements of this Deed, except that any such departure will not relieve
Project Co from its obligations under this Deed to achieve Acceptance by the relevant Date for Acceptance.

(f) (Notice of departure): Project Co must give notice to the State and the Independent Reviewer promptly upon becoming aware of any proposed or likely departure from the critical path in the Initial Phase Program, together with the reasons why it is necessary to do so to comply with the requirements of this Deed.

(g) (Updated Initial Phase Program): A notice under clause 26.2(f) must include an Initial Phase Program updated to reflect the departure in accordance with the requirements of Part F2 of the PSDR for review by the State and the Independent Reviewer in accordance with the Review Procedures.

(h) (Warranty): Project Co warrants that each update of the Initial Phase Program accurately reflects the status and progress of the Works and the date by which Project Co will achieve Acceptance.

(i) (Assessing Claims): Neither the State nor the Independent Reviewer is required to use the Initial Phase Program for any purpose, including for the purpose of assessing the impact of any delay event or any extension of time, or any Claim made by Project Co, but may do so in their sole and absolute discretion.

(j) (No liability): Project Co agrees that to the extent that the Initial Phase Program seeks to impose any obligation on the State, Project Co will not be entitled to make any Claim against the State in respect of that obligation (unless that same obligation is expressly imposed on the State in a clause or Schedule of this Deed).

26.3 Sole remedy for late Acceptance

(a) (Sole remedy): Subject to clause 46 and clause 26.3(b), the State acknowledges and agrees that the State's sole financial remedy, and Project Co's sole financial Liability, for a failure to achieve Commercial Acceptance by the Date for Commercial Acceptance, is limited to the amount of the Service Payment not required to be paid by the State in those circumstances.

(b) (Preservation of rights and Liabilities): Project Co acknowledges and agrees that clause 26.3(a) does not limit the State's rights and Project Co's Liability in respect of an event giving rise to the delay or the consequences of such event, other than the delay itself.

26.4 Independent Reviewer's review of progress

(a) (Review of Development Activities): Project Co acknowledges that the Independent Reviewer will continually review (including by general overview, reasonable checking and Site visits) (including if requested to do so by the State) the carrying out of the Development Activities to ensure that:

(i) Commercial Acceptance will be achieved by the Date for Commercial Acceptance and Project Co is using reasonable endeavours to achieve Milestone Completion by the relevant Milestone Date; and

(ii) the Initial Phase Program accurately reflects the actual progress of the Works in all material respects.

(b) (Notice of non-compliance by Independent Reviewer): If, at any time after the date that is 6 Months after Financial Close, the Independent Reviewer believes that:

(i) subject to clause 26.4(m), Commercial Acceptance will not be achieved by the Date for Commercial Acceptance; or
(ii) the Initial Phase Program does not accurately reflect the actual progress of the Works in all material respects,

the Independent Reviewer may make a determination to that effect and give notice to the State and Project Co of that determination, together with its reasons for making that determination.

(c) **(Frequency of review):** The Independent Reviewer must not make a determination under clause 26.4(b) more frequently than once every 3 Months.

(d) **(Project Co’s response):** Within 10 Business Days after receipt of the Independent Reviewer’s notice referred to in clause 26.4(b), Project Co must:

(i) notify the State and the Independent Reviewer of any matters in connection with that notice with which it disagrees with the Independent Reviewer’s opinion, together with its reasons for doing so (**Explanation**); and

(ii) to the extent it does not disagree, provide to the State and the Independent Reviewer a plan and a program for the rectification of any non-compliance in accordance with the requirements set out in clause 26.4(f) (**Remediation Plan**), for review in accordance with the Review Procedures.

(e) **(Explanation):** The Independent Reviewer must, within 10 Business Days after receipt of the Explanation from Project Co under clause 26.4(d)(i), give notice to the State and Project Co whether the Explanation:

(i) has adequately addressed its concerns such that it will withdraw the determination under clause 26.4(b), in which case, no further action is required from Project Co in connection with the notice issued by the Independent Reviewer under clause 26.4(b); or

(ii) does not adequately address its concerns (and the reasons for this) such that it is not prepared to withdraw the determination under clause 26.4(b), in which case, if the notice that was provided by the Independent Reviewer in accordance with clause 26.4(b) was that:

(A) the Initial Phase Program does not accurately reflect the actual progress of the Works in all material respects; or

(B) Commercial Acceptance will not be achieved by the Date for Commercial Acceptance,

Project Co will have 10 Business Days from the date it receives notification from the Independent Reviewer under clause 26.4(e)(ii) within which to provide a Remediation Plan (which complies with the requirements set out in clause 26.4(f)), for review in accordance with the Review Procedures.

(f) **(Remediation Plan requirements):** To the extent that a Remediation Plan has been prepared by Project Co in response to a notice under clause 26.4(b) or clause 26.4(e)(ii), a Remediation Plan will not be considered to be satisfactory unless at a minimum:

(i) it sets out the date by which Commercial Acceptance will be achieved, which date may be later than the Date for Commercial Acceptance, but
cannot be later than 24 Months after the Date for Commercial Acceptance;

(ii) it contains a program for Curing the issues set out in the Independent Reviewer's notice referred to in clause 26.4(b) or clause 26.4(e)(ii) (as applicable), which must include:

(A) each task to be undertaken, the date by which each task is to be completed and the additional resources and personnel (if applicable) to be applied to the remediation; and

(B) any temporary measures that will be undertaken to ameliorate the impact of the delay;

(iii) if it sets out a date by which Commercial Acceptance will be achieved that is after the Date for Commercial Acceptance, it contains evidence satisfactory to the Independent Reviewer (acting reasonably) that the date is the earliest date by which Commercial Acceptance can be achieved if Project Co takes those steps a prudent, experienced and competent person in the position of Project Co exercising Best Industry Practices would reasonably be expected to undertake to satisfy all requirements for Commercial Acceptance as expeditiously as possible (including a reasonable expenditure of amounts); and

(iv) it contains any further information reasonably required by the Independent Reviewer.

(g) (Review of Remediation Plan): The Independent Reviewer and the State must review any Remediation Plan submitted by Project Co in accordance with the Review Procedures.

(h) (Progress): If the Independent Reviewer notifies the State and Project Co that, in its opinion, a Remediation Plan satisfactorily addresses the requirements of clause 26.4(f), Project Co must:

(i) diligently pursue that Remediation Plan; and

(ii) update that Remediation Plan Monthly to reflect actual progress of the Remediation and submit it to the Independent Reviewer and the State for review in accordance with the Review Procedures.

(i) (Amended Remediation Plan): If the Independent Reviewer notifies the State and Project Co that, in its opinion, a Remediation Plan does not satisfactorily address the requirements of clause 26.4(f), Project Co may, within 5 Business Days after the date of the Independent Reviewer’s notice, submit an amended Remediation Plan to the Independent Reviewer for review in accordance with the Review Procedures (Amended Remediation Plan).

(j) (Outcome of Amended Remediation Plan): If the Independent Reviewer notifies the State and Project Co that, in its opinion, an Amended Remediation Plan satisfactorily addresses the requirements of clause 26.4(f), Project Co must:

(i) diligently pursue the Amended Remediation Plan; and

(ii) update the Amended Remediation Plan monthly to reflect actual progress and submit it to the Independent Reviewer and the State for review in accordance with the Review Procedures.
(k) **Deemed Major Default**: If the Independent Reviewer notifies the State and Project Co:

(i) that, in its opinion:

(A) an Amended Remediation Plan does not satisfactorily address the requirements of clause 26.4(f); or

(B) Project Co is not diligently pursuing or updating the Remediation Plan or the Amended Remediation Plan (as applicable);

(ii) after it has received any Remediation Plan or Amended Remediation Plan (including any update), that, in its opinion, Project Co will not be able to achieve Commercial Acceptance by the date that is 24 Months after the Date for Commercial Acceptance; or

(iii) that Project Co has not provided any Explanation, Remediation Plan or Amended Remediation Plan when it is obliged to do so under this clause 26.4,

then a Major Default will be deemed to have occurred.

(l) **Dispute**: If either party does not agree with a determination of the Independent Reviewer under this clause 26.4 either party may refer the matter by notice to the other party to expert determination in accordance with clause 48.1(d)(i) within 20 Business Days after the Independent Reviewer's determination save that neither party can refer a determination made by the Independent Reviewer under clause 26.4(b) to expert determination unless Project Co has first provided the Independent Reviewer and the State with an Explanation under clause 26.4(d)(i).

(m) **Subsequent reviews**: While Project Co is diligently pursuing a Remediation Plan in accordance with clause 26.4(h) or an Amended Remediation Plan in accordance with clause 26.4(j), any subsequent review under clause 26.4(a) must take into consideration that Remediation Plan or Amended Remediation Plan (as applicable).

26.5 **Delay to Acceptance and Key Milestone Completion**

If Project Co becomes aware of any matter which will, or is likely to, give rise to a delay in achieving Acceptance or Key Milestone Completion (as applicable), it must promptly give the State and the Independent Reviewer notice of the matter and the delay it is likely to cause.

26.6 **Delays entitling Claim**

Subject to this clause 26, if Project Co has been or will be delayed by an Extension Event in a manner which will, or has delayed Project Co in achieving Acceptance or Key Milestone Completion (as applicable), Project Co will be entitled to claim an extension of time to the relevant Date for Acceptance or Key Milestone Completion Date (as applicable) for the period of the delay.

26.7 **Change Notice**

To claim an extension of time to the relevant Date for Acceptance or Key Milestone Completion Date (as applicable) under this Deed, Project Co must submit a Change Notice for that Extension Event to the State and the Independent Reviewer in accordance with the Change Compensation Principles and must continue to update the State and the Independent Reviewer in respect of the Extension Event in accordance with the Change Compensation Principles.
26.8 Conditions precedent to extension

(a) **(Conditions precedent):** Subject to clause 26.10, it is a condition precedent to Project Co's entitlement to an extension of time that:

(i) **(submission of Change Notice):** Project Co complies with clause 26.7;

(ii) **(submission of updated Change Notice):** Project Co submits any updated Change Notice it is required to submit in accordance with section 9.1(e) of the Change Compensation Principles;

(iii) **(effect of delay):** Project Co can demonstrate that it has been or will be delayed from carrying out the Development Activities by the relevant Extension Event;

(A) in a manner which will delay the achievement of Acceptance or Key Milestone Completion (as applicable); and

(B) the relevant Extension Event has caused or will cause activities on the critical path contained in the then current Initial Phase Program to be delayed; and

(iv) **(updated program):** subject to clauses 26.8(c) to 26.8(f), Project Co, at the time it submits the relevant Change Notice referred to in clause 26.7 and section 9.1(e) of the Change Compensation Principles, submits an updated Initial Phase Program to the State and the Independent Reviewer which:

(A) complies with all the relevant requirements of this Deed;

(B) takes into account the impact of the relevant Extension Event; and

(C) contains a level of detail which is sufficient to enable the Independent Reviewer to determine Project Co's entitlement to an extension of time.

(b) **(Independent Reviewer determines):** The Independent Reviewer will determine whether or not the requirements of this clause 26.8 have been satisfied.

(c) **(determination of non-compliance):** If the Independent Reviewer determines that the updated Initial Phase Program submitted in accordance with clause 26.8(a)(iv) does not comply with the requirements in clause 26.8(a)(iv), it must notify Project Co of that determination together with detailed reasons of the non-compliance, within 5 Business Days after receipt of the relevant Change Notice in accordance with clause 26.7.

(d) **(updated Initial Phase Program):** Project Co may submit an updated Initial Phase Program, within 10 Business Days after the notification from the Independent Reviewer under clause 26.8(c).

addresses the non-compliances previously notified by the Independent Reviewer to Project Co in accordance with clause 26.8(c), Project Co will be deemed to have met the requirements in clause 26.8(a)(iv); or

(ii) does not address the non-compliances previously notified by the Independent Reviewer to Project Co under clause 26.8(c), Project Co will be deemed not to have met the requirements in clause 26.8(a)(iv).

26.9 Extension of Time determined by Independent Reviewer

(a) (Extension of time): If the conditions precedent in clause 26.8(a) have been satisfied, unless the parties otherwise agree an extension to the relevant Date for Acceptance or Key Milestone Completion Date (as applicable), or the State issues a direction under clause 26.16 beforehand, either party may ask the Independent Reviewer to extend the relevant Date for Acceptance or Key Milestone Completion Date (as applicable) by a reasonable period determined by the Independent Reviewer in accordance with the Independent Reviewer Deed of Appointment.

(b) (Interim determinations): In the circumstances contemplated by clause 26.9(a), the Independent Reviewer may, in its absolute discretion, give interim determinations of Project Co's entitlement to an extension of time notwithstanding that the effects of the relevant Extension Event are continuing.

(c) (Independent Reviewer may consider): In dealing with an extension of time claim, the Independent Reviewer (without limiting clause 26.9(a)) must take into account all relevant evidence presented by the parties (but is not bound by any of that evidence).

26.10 Unilateral extensions

(a) (Unilateral extensions): Whether or not Project Co has made, or is entitled to make, a claim for, or is entitled to, an extension of time under this clause 26 or under clause 35.7 for a State Initiated Modification, the State may at any time and from time to time, by notice to Project Co, unilaterally extend the Date for Acceptance or Key Milestone Completion Date (as applicable).

(b) (Acknowledgements): The parties acknowledge that:

(i) the State is not required to exercise the State's discretion under clause 26.10(a) for the benefit of Project Co;

(ii) other than in accordance with clause 26.10(d), Project Co shall not be entitled to make any Claim against the State as a consequence of the State exercising its discretion under clause 26.10(a); and

(iii) other than in accordance with clause 26.10(c), the exercise or failure to exercise the State's discretion under clause 26.10(a) is not capable of being the subject of a Dispute or otherwise subject to review.

(c) (Right to dispute): If the State exercises its power under clause 26.10(a) in respect of an Extension Event or in respect of a State Initiated Modification for which, but for the exercise by the State of its powers under clause 26.10(a), Project Co would otherwise be entitled to an extension of time to a Date for Acceptance or Key Milestone Completion Date (as applicable), if Project Co disputes the determination made by the State under clause 26.10(a) in respect of that extension of time, Project Co may refer the State's determination under clause 26.10(a) to expert determination in accordance with clause 48.1(d)(i) provided that Project Co refers such determination to expert determination within 20 Business Days after the State's exercise of its discretion under clause 26.
(d)  **Compensation**: If the State exercises its power under clause 26.10(a) in respect of a Compensable Extension Event, Force Majeure Event or a State Initiated Event for which, but for the exercise by the State of its powers under clause 26.10(a), Project Co would otherwise be entitled to an extension of time to the Date for Acceptance, Project Co will be entitled to compensation for that Compensable Extension Event or Force Majeure Event in accordance with clause 26.12 or clause 35.7(b) as the case may be.

### 26.11 Force Majeure

If a Force Majeure Event, prevents:

(a)  **prevention of Project Co**: Project Co from carrying out all or a material part of the Development Activities; or

(b)  **prevention of State**: the State from carrying out all or a material part of its obligations under the State Project Documents,

the obligations of each party under this Deed which are affected by the Force Majeure Event, will be suspended to the extent of such prevention, and the failure to perform such suspended obligations will not be a breach of this Deed by Project Co, a Project Co Act or Omission, a Major Default or a Default Termination Event.

### 26.12 Entitlement to financial compensation for delay

To the extent that Project Co is granted an extension of time to a Date for Acceptance under clause 26.9(a) or 26.10(a) (and clause 26.10(d) applies) then, if the Extension Event is a Compensable Extension Event or Force Majeure Event, subject to clause 26.14(b), Project Co will be entitled to claim compensation in accordance with the Change Compensation Principles except to the extent the Compensable Extension Event or Force Majeure Event has given rise to loss or damage to the Project Assets and clause 42.4(a)(iii) or clause 42.5 applies, in which case, Project Co's entitlement to claim any compensation in respect of that loss or damage to the Project Assets will be as set out in clause 42.4 and clause 42.5.

### 26.12A Entitlement to compensation for extended Term

To the extent that Project Co is granted an extension of time to the Date for Commercial Acceptance under clause 26.9(a) or 26.10(a) or as a result of a State Initiated Modification and achieves Commercial Acceptance after the Original Date for Commercial Acceptance, Project Co will be entitled to claim Extended Term Compensation in accordance with the Change Compensation Principles.

### 26.13 Share of Savings

If Project Co achieves Commercial Acceptance earlier than the Date for Commercial Acceptance but after the Original Date for Commercial Acceptance and Project Co has been granted an extension of time for an Extension Event and has been compensated or is entitled to compensation under clause 26.12 for the period until the Date for Commercial Acceptance, this will be deemed to be a Change Compensation Event and the Change Compensation Principles will apply.

### 26.14 Concurrent delays

(a)  **No entitlement**: Subject to clause 26.14(b), if:

(i)  there are two or more events each of which by itself, if the other event(s) had not occurred, would cause a delay to Acceptance, and at least one
event is an Extension Event and at least one event is not an Extension Event or a State Initiated Modification; and

(ii) any period of delay caused by the Extension Event(s) referred to in clause 26.14(a)(i) is occurring at the same time as a period of delay caused by an event referred to in clause 26.14(a)(i) that is not an Extension Event or a State Initiated Modification (Concurrent Delay),

Project Co is not entitled to an extension of time in accordance with clause 26.9 or compensation in accordance with clause 26.12 (if applicable) for the period of that Concurrent Delay.

(b) (Entitlement for breach): Project Co’s rights under clause 26.9 or clause 26.12 are not limited by clause 26.14(a) if:

(i) an Extension Event as referred to in clause 26.14(a)(i) is an event contemplated by paragraph (a) of the definition of Compensable Extension Event; and

(ii) that Extension Event occurs before any of the events referred to in paragraph 26.14(a)(i) that are not Extension Events or State Initiated Modifications.

26.15 Acceleration by Project Co

If Project Co chooses to compress the Development Activities or otherwise accelerate progress other than in accordance with a direction of the State under clause 26.19:

(a) (no State action): the State will not be obliged to take any action to assist or enable Project Co to achieve any particular sequencing or rate of progress of the Project Activities; and

(b) (State obligations not affected): the time for the carrying out of the State's obligations will not be affected.

26.16 Acceleration Notice

If:

(a) (delay by an Extension Event): any part or the whole of the Development Activities are delayed by an Extension Event; and

(b) (entitlement to extension of time): Project Co is or would have been entitled to an extension of time to a Date for Acceptance or a Key Milestone Completion Date (as applicable) for that Extension Event under this clause 26, whether or not the Independent Reviewer has made a determination in accordance with clause 26.9, the State may direct Project Co to submit a Change Notice setting out the estimated time and cost consequences of accelerating any part or the whole of the Development Activities to overcome or minimise the extent and effect of some or all of the delay including, if required, in order to achieve Acceptance by the relevant Date for Acceptance, or Milestone Completion in relation to a Key Milestone by the relevant Key Milestone Completion Date (as applicable) and Project Co must submit a Change Notice within 10 Business Days after the State's direction and the Change Compensation Principles will apply.
26.17 Reasonably achievable

(a) (Acceleration reasonably achievable): In any Change Notice submitted under clause 26.7 in respect of a compression or acceleration of the Development Activities or in response to a direction under clause 26.16, Project Co must identify whether and to what extent the acceleration is reasonably achievable in the circumstances.

(b) (Consequences if not reasonably achievable): If some or all of the acceleration is not reasonably achievable in the circumstances, then the State must not direct the acceleration to the extent that it is not reasonably achievable.

26.18 Partial acceleration

If the State gives Project Co a Change Response, in response to a Change Notice submitted by Project Co under clause 26.7 or clause 26.16 (as applicable), to accelerate and it only applies to part of the delay, any entitlement to an extension of time Project Co would have had but for the acceleration will only be reduced to the extent to which the instruction to accelerate requires Project Co to accelerate the relevant part or the whole of the Development Activities to overcome the delay.

26.19 Acceleration

If the State gives Project Co a Change Response to accelerate in response to a Change Notice submitted by Project Co under clause 26.7 or clause 26.16 (as applicable) in accordance with the Change Compensation Principles:

(a) (Project Co must accelerate): Project Co must accelerate the relevant part, or the whole, of the Development Activities to overcome or minimise the extent and effect of some or all of the delay as instructed including Milestone Completion in relation to the Key Milestones by the relevant Key Milestone Date (as applicable) if required, in order to achieve Acceptance by the relevant Date for Acceptance; and

(b) (entitlement to actual costs): if Project Co would, but for the instruction, have been entitled to an extension of time to the relevant Date for Acceptance or a Key Milestone Completion Date (as applicable) for the cause of the delay, the State must pay Project Co the extra actual costs properly and reasonably incurred by Project Co and directly attributable to accelerating the relevant part or the whole of the Development Activities calculated in accordance with the Change Compensation Principles.

26.20 State's rights and Project Co's obligations and liabilities not affected and time not at large

The State's rights and Project Co's liabilities for any failure by Project Co to achieve Acceptance by the relevant Date for Acceptance are not limited or affected by:

(i) that Defect; and

(ii) subject to clause 27.1(g), the reasonable period of time within which Project Co must rectify that Defect which, if the Defect will also give rise to an Abatement Event other than in accordance with clause 27.1(k), must not be less than the rectification period for that Abatement Event under the Payment Schedule,

and Project Co must comply with that notice.

(f) (Dispute): If Project Co disagrees with:

(a) (State’s right to extend): The State may, by notice in writing to Project Co not later than two months prior to the WGT Heavy Haulage Routes Date for Completion or the Dynon Road Bridge Date for Completion (as applicable), extend the WGT Heavy Haulage Routes Date for Completion or the Dynon Road Bridge Date for Completion (as applicable) to such other future date as determined by the State in its discretion.

(b) (Submission of updated Forecast Maintenance and Refurbishment Plan): Within 20 Business Days after the State’s notice given under clause 29(a), Project Co must submit an updated Forecast Maintenance and Refurbishment Plan in accordance with clause 28.4(a) which may provide for the deferral (as applicable) of:

(i) the Planned Lifecycle Activities in respect of the WGT Heavy Haulage Routes to reflect the extended WGT Heavy Haulage Routes Date for Completion as set out in the State’s notice given under clause 29(a); or

(ii) the Planned Lifecycle Activities in respect of the Dynon Road Bridge Rehabilitation Works to reflect the extended Dynon Road Bridge Date for Completion as set out in the State’s notice given under clause 29(a).

(c) (State must not reject updated Forecast Maintenance and Refurbishment Plan): The State must not reject the updated Forecast Maintenance and Refurbishment Plan to the extent that the only change or update to the Forecast Maintenance and Refurbishment Plan is the deferral of either or both of:
(i) the Planned Lifecycle Activities in respect of the WGT Heavy Haulage Routes to reflect the extended WGT Heavy Haulage Routes Date for Completion; or

(ii) the Planned Lifecycle Activities in respect of the Dynon Road Bridge Rehabilitation Works to reflect the extended Dynon Road Bridge Date for Completion.

(d) (Acknowledgement): The parties acknowledge that Project Co shall not be entitled to make any Claim against the State as a consequence of the State exercising or not exercising its discretion under clause 29(a).

30. [Not used]

31. [Not used]

32. Intervening Events

32.1 Intervening Events entitling Change Notice

(a) (Definition): For the purposes of this clause 32 a reference to “prevent” or any form of that term includes preventing the relevant party from being able to perform its obligations under this Deed within the timeframes (if any) specified in this Deed.

(b) (Notification): If Project Co becomes aware of an Intervening Event or any other matter that has occurred during the Maintenance Phase, which has prevented or will prevent its performance of the Services or other obligations under this Deed in accordance with the requirements of this Deed (which are not Development Activities), Project Co must promptly notify the State of the relevant Intervening Event or other matter and its then current effect and likely further effect.

(c) (Relief): Subject to this clause 32, if, during the Maintenance Phase, the performance by Project Co of the Services or any of its other obligations under this Deed (which are not Development Activities) is prevented by an Intervening Event or the consequences of that Intervening Event, Project Co will be entitled to relief in accordance with clause 32.2.

(d) (Claim for relief): To claim relief under clause 32.1(c), Project Co must submit a Change Notice to the State for that Intervening Event and its consequences, in accordance with the Change Compensation Principles and must continue to update the State in respect of the Intervening Event and its consequences in accordance with the Change Compensation Principles.

(e) (Conditions precedent): Subject to clause 32.3, it is a condition precedent to Project Co’s entitlement to relief under clause 32.2 that:

(i) Project Co complies with clause 32.1(d);

(ii) Project Co can demonstrate that it has actually been or will be prevented from performing the Services or other obligations under this Deed in
each case during the Maintenance Phase by the relevant Intervening Event or its consequences; and

(iii) Project Co, at the time it submits the relevant Change Notice, submits to the State such other information reasonably required by the State to enable the State to determine Project Co’s entitlement to relief.

32.2 Obligations suspended and no breach

(a) (Obligations suspended): To the extent that an Intervening Event or its consequences prevent Project Co from performing the Services or other obligations under this Deed in each case during the Maintenance Phase (which are not Development Activities) and the conditions precedent in clause 32.1(e) have been satisfied, then:

(i) (suspension): the relevant obligations of Project Co will be suspended, but only until the earlier of the date the Intervening Event and its consequences cease to prevent Project Co from performing the Services or otherwise meeting those obligations under this Deed, or would have ceased to prevent Project Co from performing the Services or otherwise meeting those obligations under this Deed had Project Co or any Project Co Associate not failed to do any of the things contemplated by clause 43.10(a)(ii); and

(ii) (no breach): the failure to perform such suspended obligations will not be a breach of this Deed by Project Co, a Project Co Act or Omission, a Major Default, a Default Termination Event or an Abatement Event.

(b) (Obligation to keep Project Assets open): Without limiting clause 32.3, in the case of a Force Majeure Event, Project Co may only close a Road in the Project Area affected by that Force Majeure Event to the extent that the Force Majeure Event prevents or delays the safe, efficient and continuous passage of vehicles.

32.3 Unilateral right

(a) (Unilateral relief): The State may at any time and from time to time, and whether or not Project Co has made, or is entitled to make, a claim for, or is entitled to, relief under clause 32.1, by notice to Project Co, unilaterally grant relief in respect of an Intervening Event and its consequences or any other matter that has prevented, or will prevent, Project Co's performance of the Services or other obligations under this Deed during the Maintenance Phase.

(b) (Acknowledgements): The parties acknowledge that:

(i) the State is not required to exercise the State’s discretion under this clause 32.3(a) for the benefit of Project Co;

(ii) other than in accordance with clause 32.3(c), Project Co must not be entitled to make any Claim against the State as a consequence of the State exercising its discretion under clause 32.3(a); and

(iii) other than in accordance with clause 32.3(c), the exercise or failure to exercise the State’s discretion under clause 32.3(a) is not capable of being the subject of a Dispute or otherwise subject to review.

(c) (Right to dispute): If the State exercises its power under clause 32.3(a) in respect of an Intervening Event for which, but for the exercise by the State of its powers under clause 32.3(a), Project Co would otherwise be entitled to relief under clause 32.2, if Project Co disputes the determination made by the State under clause...
32.3(a) in respect of that relief, Project Co may refer the State's determination under clause 32.3(a) to expert determination in accordance with clause 48.1(d)(i).

(d) **Compensation**: If the State exercises its power under clause 32.3(a) in respect of a Compensable Intervening Event or a Force Majeure Event for which, but for the exercise by the State of its powers under clause 32.3(a), Project Co would otherwise be entitled to compensation in accordance with clause 32.5, Project Co will be entitled to claim compensation for the Compensable Intervening Event or Force Majeure Event in accordance with clause 32.5.

### 32.4 Service Payments when there is an Intervening Event

To the extent that Project Co is granted relief under clause 32.2 or clause 32.3 in respect of an Intervening Event, notwithstanding that Project Co's obligations to perform the Services or other obligations under this Deed (which are not Development Activities) affected by the relevant Intervening Event or its consequences are suspended in accordance with clause 32.2 or clause 32.3, then:

(a) **(State pays Service Payments for suspended Services)** subject to clause 32.4(b):

(i) the State must continue to pay Project Co the Service Payment for the Services or other obligations suspended due to the Intervening Event or its consequences for the period of suspension under clause 32.2 or clause 32.3;

(ii) the Service Payment will not be subject to Abatement in accordance with the Payment Schedule in respect of the Services that have been suspended in accordance with clause 32.2 or clause 32.3 for the period of such suspension; and

(iii) the State will deduct from the Service Payment the amounts of any recurrent and other costs of Project Co which are not being incurred by Project Co during the period of suspension of the relevant Services under clause 32.2 or clause 32.3,

(iv) provided that Project Co has complied and continues to comply with the requirements under clause 32.1(e); or

(b) **(where Abatement will apply to payments for suspended Services)** if the Intervening Event is:

(i) the consequence of Direct Interface Works;

(ii) a Force Majeure Event; or

(iii) an Insured Risk (other than an Insured Risk (which is not a Force Majeure Event) for which Project Co is unable to recover insurance proceeds in respect of that Insured Risk under any Insurances or Insurances (State) as a result of a State Insurance Breach),

or Project Co fails to comply with the requirements under clause 32.1(e), the Service Payment will be subject to Abatement in accordance with the Payment Schedule for the period of the suspension of the Services due to the Intervening Event for period of suspension under clause 32.2 or clause 32.3.
32.5 **Compensation for Compensable Intervening Events and Force Majeure Events**

To the extent that Project Co is granted relief under clause 32.2 or clause 32.3 in respect of an Intervening Event that is a Compensable Intervening Event or a Force Majeure Event and without limiting clause 32.4(b), Project Co will be entitled to claim compensation in accordance with the Change Compensation Principles except to the extent that the Compensable Intervening Event or Force Majeure Event has given rise to loss or damage to the Project Assets and clause 42.4(a)(iii) or clause 42.5 applies, in which case, Project Co's entitlement to claim any compensation in respect of that loss or damage to the Project Assets will be as set out in clause 42.4 or clause 42.5 (as the case may be).

32.6 **Abatement not to constitute Major Default or Default Termination Event**

Any Abatement of the Service Payment in accordance with clause 32.4(b) will not be a breach of this Deed and will not be included in the calculation of any Abatement Event for a Major Default under paragraph (s) of the definition of "Major Default" or any Abatement Event for a Default Termination Event under paragraph (h) of the definition of "Default Termination Event".

32.7 **Alternative arrangements**

(a) **(Alternative arrangements or method):** Without limiting clause 38, if an Intervening Event occurs during the Maintenance Phase, the State may as a consequence of and for the duration of the Intervening Event or its consequences:

(i) make alternative arrangements for the performance of those Services or other obligations under this Deed (which are not Development Activities) at no cost to Project Co and without the State incurring any Liability to Project Co in respect of those alternative arrangements; or

(ii) direct Project Co to:

(A) deliver those Services or those other obligations by an alternative method or "work around" from that contemplated in the then current Maintenance Phase Plans and the PSDR to the extent that it is reasonably possible for Project Co to do so; or

(B) require Project Co to undertake additional Services, ("Work Around").

(b) **(Payment):** If the State Representative requires Project Co to perform a Work Around this will constitute a Change Compensation Event and the State must pay Project Co an amount calculated in accordance with the Change Compensation Principles in respect of such Work Around.

32.8 **Cessation of Intervening Event**

Project Co must:

(a) **(notice to the State):** notify the State; and

(b) **(recommence all obligations):** recommence carrying out all obligations suspended as a result of the Intervening Event,
immediately after it ceases to be prevented from carrying out the Services or any of its other obligations under this Deed (which are not Development Activities) as a result of an Intervening Event or its consequences.

32.9 **Force Majeure**

If a Force Majeure Event prevents the State from carrying out all or a material part of its obligations under the State Project Documents during the Maintenance Phase, the obligations of the State under this Deed which are affected by the Force Majeure Event will be suspended to the extent of such prevention.
PART G - PAYMENT

33. Options in relation to Option Receivables

(a) (State option): At any time prior to the State Option Notification Date, the State may notify Project Co that it will pay the Option Amount on the Option Repayment Date to Finance Co to repurchase the Option Receivables.

(b) (Project Co option): If Project Co has not received a notice from the State that the State will pay the Option Amount in accordance with clause 33(a) on or before the State Option Notification Date, at any time prior to the Project Co Option Notification Date, Project Co may request the State to pay the Option Amount on the Option Repayment Date to Finance Co to repurchase the Option Receivables.

(i) the amount of the Option Amount;

(ii) a draft Financial Model updated:

(A) to reflect the Option Amount;

(B) to reflect an updated capital component of the Base Quarterly Service Payment and an updated 'Option Amount Affected Licence Fee' which are determined in order keep the Equity IRR calculated in this draft Financial Model equal to the Equity IRR calculated in the Financial Model immediately prior to this update, in accordance with the steps set out in Schedule 29; and

(C) to identify the 'Option Amount Affected Licence Fee' in the Model Output Schedule;

(iii) a draft Licence Fee Schedule for the Maintenance Phase Licence (Full) showing the Maintenance Phase Licence (Full) Fee A and Maintenance Phase Licence (Full) Fee B as updated to reflect the draft Financial Model submitted pursuant to clause 33(c)(ii);

(v) details of any changes required to the Project Documents as a result of changes to the work sheets in the draft Financial Model identified as the 'Model Output Schedule',

/the Option Receivables Notice/).

(d) (State payment obligation triggers): Following approval by the State of an Option Receivables Notice in accordance with clause 33(c) and the State payment obligation being triggered in accordance with clause 33(e):

(i) Project Co must promptly and no later than 2 Business Days prior to the Option Repayment Date:
(A) provide to the State a final Tax Invoice which reflects the approved Option Receivables Notice; and

(B) vary the Financial Model, the Licence Fee Schedule for the Maintenance Phase Licence (Full) and the Payment Schedule to reflect the approved Option Receivables Notice;

(ii) variation of the Financial Model will be undertaken and agreed in accordance with clause 53;

(iv) any conformed Project Documents prepared in accordance with 33(c)(ii) will be effective from the Option Repayment Date.

(e) (Payment): The State must pay the Option Amount on the Option Repayment Date to Finance Co in accordance with the Receivables Purchase Deed, only if:

(i) either the State has provided a notice to Project Co under clause 33(a) or Project Co has issued a request to the State which complies with clause 33(b);

(ii) the Certificate of Commercial Acceptance has been issued on or before the date which is 5 Business Days prior to the Option Repayment Date; and

(iii) no Default Termination Event is subsisting as at the date which is 5 Business Days prior to the Option Repayment Date.

(f) (Outstanding Debt): Project Co must apply or procure the application of the Option Amount towards:

(i) repayment of amounts owing to Bank Lenders, and ensure that the repaid amount is not available to be redrawn at any time under the Finance Documents; and

(ii) if the Option Amount exceeds amounts owing to Bank Lenders, to the Operating Account (as defined in the Security Trust and Intercreditor Deed).

(iii) any equity capital contributed to, or ownership interest in, Project Co by the State.

(i) **(Interest):** If the State fails to pay an amount of the Option Amount which is due and payable within the time required under clause 33(e), the State must pay interest on the unpaid amount at the overdue rate applicable under the Syndicated Facilities Agreement calculated daily from the Option Repayment Date until the amount is paid. The amount of interest specified in this clause 33(i) will be Project Co’s sole entitlement in respect of the late payment of all or part of the Option Amount, including interest or damages for loss of use of, or the cost of borrowing, money.

(j) **(Calculation):** Interest under clause 33(i) must be calculated on and from the day after payment of the relevant amount is due or determined to have been due.

### 34. Payments and Abatements

#### 34.1 Service Payments and other payments

(a) **(Payment for Services):** In consideration of Project Co providing the Services, the State must pay Project Co the Service Payments:

(i) calculated in accordance with the Payment Schedule; and

(ii) in arrears,

during the period from the Date for Maintenance Commencement to the end of the Term from the end of the first Quarter of that period.

(b) **(Calculation of Service Payment):** The Service Payment will be calculated in accordance with the Payment Schedule.

(c) **(Other payments):** Other than the Service Payments, the State must pay any payment that is due and payable to Project Co, and Project Co must pay any payment that is due and payable to the State, at the time specified in this Deed or the relevant State Project Documents for the particular payment.

(d) **(Time for payment):** If no time is specified for the payment of the relevant amount under clause 34.1(c), the payment will be made:

(i) in the case of a payment to Project Co:

(A) up to the Maintenance Phase (Full) Commencement Date, within 20 Business Days after a demand is made for payment of the amount; and

(B) at any time after the Maintenance Phase (Full) Commencement Date, at the time the next Service Payment is made by the State to Project Co after the occurrence of the circumstances giving rise to the Liability (unless the next Service Payment is within 10 Business Days after the occurrence of the circumstances giving rise to the Liability, in which case the relevant payment will be made at the time of the Service Payment immediately following that Service Payment); and

(ii) in the case of a payment to the State, within 20 Business Days after a demand being made by the State for payment of the relevant amount.
34.2 Abatements

(a) (Payment Schedule applies): The Service Payments may be Abated by the State to the extent and in the manner described in the Payment Schedule to reflect the agreed principle that the State must only pay for the quantum, quality and availability of the Services actually provided.

(b) (Not to affect other rights): Subject to clauses 34.2(c) and 34.2(e), adjustment of the Service Payments by application of the Payment Schedule under clause 34.2(a) will be the only financial liability that Project Co will have to the State for an Abatement Event.

(c) (No limit): Clause 34.2(b) does not limit or affect:

(i) Project Co's Liability under clause 27.1(i) for any cost or expenses incurred by the State in engaging a party to rectify a Defect under clause 27.1(i)(v);

(ii) the State's rights under this Deed or any other State Project Document in respect of the event that caused or contributed to the Abatement Event (as opposed to the Abatement Event itself);

(iii) any other right or remedy of the State under this Deed, any other State Project Document or at Law (other than for monetary compensation for an Abatement Event);

(iv) the State's rights under clauses 42, 45 and 46;

(v) any entitlement of the State to recover any Liabilities suffered or incurred by the State as a consequence of exercising its rights under clause 38;

(vi) any payment on termination of this Deed (including a Termination Payment);

(vii) any Liability that Project Co may have for costs, losses, damage, destruction or other amounts which are indemnified by Project Co under clause 43.1 to the extent that the State has not been fully compensated for that Liability by the adjustment under clause 34.2(a);

(viii) any Liability that Project Co has to the State for any Liability that the State has to a third party, to the extent that the State has not been fully compensated for that Liability by the adjustment under clause 34.2(a); or

(ix) any Liability that Project Co may have for a Liability (including reasonably foreseeable economic loss) suffered or incurred by the State as a result of any:

(A) fraudulent, reckless, unlawful or malicious act or omission; or

(B) Wilful Misconduct,

by Project Co or any Project Co Associate to the extent that the State has not been fully compensated for that Liability by the adjustment under clause 34.2(a).

(d) (Abatement): Project Co acknowledges and agrees that:
(i) it is difficult, and in some instances impossible, to calculate with precision the diminution in value the State may suffer in connection with each Abatement Event;

(ii) notwithstanding clause 34.2(d)(i), the application and escalation of the Abatements in accordance with the Payment Schedule associated with each Abatement Event:

(A) reflects a genuine pre-estimate of, and is proportionate to the diminution in value (including having regard to associated mitigation and other costs) to the State in connection with each Abatement Event; and

(B) has been agreed to protect the legitimate interests of the State in the performance of the Services in accordance with the requirements of this Deed, which include:

1) meeting the growing vehicle travel demand by reducing congestion on arterial roads in Melbourne's fast growing outer suburbs;

2) improving the reliability and performance of arterial roads and reduce vehicle operating costs through enhanced maintenance outcomes;

3) promoting investment and employment creation by improving the access to key economic centres and employment clusters;

4) contributing to the creation of a safe, efficient and accessible road network that supports the health and wellbeing of all users and the liveability of communities; and

5) seeking a value for money solution for road users through innovative design, optimum risk allocation between the Project parties and a whole of life approach to the design and maintenance of the arterial road network in scope.

(iii) both the State and Project Co require a formula for calculation of the diminution in value the State may suffer in connection with each Abatement Event that is able to be readily applied without unnecessary administrative costs, delay or difficulty;

(iv) to the extent it is legally permitted to so agree, it will not assert in any proceedings under clauses 48 to 50 or in any court or other proceedings that the Abatements provided for in this clause 34 and the Payment Schedule are exorbitant, extravagant or unconscionable or a penalty or that the clause or any adjustment under the Payment Schedule in respect of an Abatement is void or unenforceable (whether in whole or in part); and

(v) the State has entered into this Deed on the basis of and in reliance on the acknowledgements given by Project Co in this clause 34.2(d).

(e) **(Project Co acknowledgements):** Subject to clause 34.2(d), Project Co acknowledges and agrees that if the Abatement of the Service Payment in accordance with clause 34.2(a) is held to be void or unenforceable, clause 34.2(b)
and the Payment Schedule will not limit Project Co’s Liability to the State under this Deed or otherwise at Law for any Liability suffered by the State as a consequence of an Abatement Event.

(f) **(Unilateral waiver):** The State may waive any Abatement (in whole or in part) at any time and from time to time, by notice to Project Co. No waiver of an Abatement:

(i) constitutes acceptance by the State of the Abatement Event giving rise to the Abatement;

(ii) operates as a waiver of another Abatement Event giving rise to an Abatement; or

(iii) prejudices any rights or powers of the State or the State Representative.

34.3 **Dispute**

Any Dispute in respect of any calculation of the Service Payment or the calculation or application of an Abatement may be referred by either party to expert determination in accordance with clause 48.1(d)(i).

34.4 **Service Payments**

(a) **(Payment Claims):** Within 5 Business Days after the date Project Co delivers the Monthly Maintenance Phase Performance Report for the last Month in each Quarter during the Maintenance Phase, Project Co must provide to the State a Payment Claim for the Service Payment for that Quarter (calculated in accordance with the Payment Schedule) and any other amounts then due and payable by the State or by Project Co under this Deed.

(b) **(Payment Statement):** The State must provide to Project Co a statement stating the amount payable to or by Project Co (which may be more or less than the amount set out in the Payment Claim) and the reasons for any difference from the amount in the Payment Claim (**Payment Statement**), within the later of:

(i) 6 Business Days after receipt by the State of a Payment Claim; and

(ii) 6 Business Days after receipt by the State of the relevant Monthly Maintenance Phase Performance Report for that last Month of the relevant Quarter.

(c) **(No Payment Claim):** If Project Co does not issue a Payment Claim or Monthly Maintenance Phase Performance Report, the State may still issue a Payment Statement setting out the amount payable to or by Project Co.

(d) **(Registered):** Each of the State and Project Co acknowledges that it (or in the case of the State, a person on behalf of the State) is registered for GST when it enters into this Deed and that each party will notify the other party if it (or the relevant person) ceases to be registered.

(e) **(Tax Invoice):** Without limiting Project Co’s or the State’s right to dispute the amount for payment stated in the Payment Statement, Project Co or the State (as applicable) will provide to the other party a Tax Invoice in connection with any supplies which are the subject of the Payment Statement for the amount stated in the Payment Statement within 2 Business Days after receipt of the Payment Statement.
(f) **Project Co failure to provide Tax Invoice**: Without limiting clause 34.4(g), if Project Co or the State fails to provide a Tax Invoice in the time required, the State Representative or Project Co's Representative (as the case may be) may prepare the Tax Invoice on behalf of Project Co or the State (as applicable) and provide that Tax Invoice to Project Co or the State (as applicable).

(g) **Timing of payment**: Subject to clause 34.7, payment of the amount stated to be payable to or by Project Co in the Payment Statement must be made by the State to Project Co or by Project Co to the State (as the case may be) within 10 Business Days after receipt of the Tax Invoice provided under clause 34.4(e) or 34.4(f).

(h) **Payment not evidence of proper performance**: The payment of Service Payments by the State to Project Co and the issuing of any Payment Statement is not evidence that the Project Activities have been carried out by Project Co in accordance with the State Project Documents, or an admission of liability, and is only to be taken as payment on account.

(i) **Correction of previous Payment Statement**: The State may, in any Payment Statement, correct any error in any previous Payment Statement issued by the State.

### 34.5 Interest

(a) **Interest**: If a party fails to pay any amount due and payable by that party to the other party within the time required under this Deed, then it must pay interest on that amount:

(i) from the date on which payment was due and payable until the date on which payment is made;

(ii) calculated daily at the Overdue Rate; and

(iii) capitalised monthly.

(b) **Sole entitlement**: Subject to clause 46, the amount specified in clause 34.5(a) will be a party's sole entitlement in respect of the other party's failure to pay an amount due and payable, including interest or damages for loss of use of, or the cost of borrowing, amounts.

### 34.6 Refund

If:

(a) **payment**: the State pays Project Co, or Project Co pays the State any amount under clause 34.4(g) or otherwise; and

(b) **no entitlement**: it is subsequently agreed or determined for any reason that the recipient was not entitled to that payment, in whole or in part,

the recipient will immediately refund that payment (or such part as constitutes an overpayment) to the party that made the payment.

### 34.7 Set-off

(a) **State's payments**: The State may deduct from any amounts due and payable by the State or any State Associate to Project Co under any of the State Project Documents or otherwise at Law:
(i) any amount due and payable by any Group Member to the State; and
(ii) the amount of any Claim that the State may have against any Group Member.

(b) **(Project Co's payments):** Project Co must make all payments to the State free from any set-off or counterclaim and without deduction or withholding for or on account of any present or future Tax, unless Project Co is compelled by Law to make such a deduction or withholding.

(c) **(Deduction or withholding):** If a party is compelled by Law to make a deduction or withholding for the benefit of an Authority, it must:

(i) remit the deducted or withheld amount to the relevant Authority within the time required by Law; and
(ii) provide to the other party all information and documentation relating to that deduction or withholding, including any information or documentation required to obtain a credit for or repayment of the deducted or withheld amount from an Authority.

(d) **(No set-off):** Notwithstanding clause 34.7(a), the State may not set off any amount against the Option Amount.

### 34.8 Floating Rate Component

(a) **(Floating Rate Component):** The Floating Rate Component will be payable with effect from the first Interest Period specified in the Floating Rate Component Schedule (as defined in section 8 of the Payment Schedule). Within 5 Business Days after each Floating Rate Component being able to be calculated, Project Co must provide a notice to the State setting out the amount of the Floating Rate Component for the Interest Period to which the Floating Rate Component relates.

(b) **(Invoice):** Within 5 Business Days after receipt of such notice, either:

(i) the State must provide a Floating Rate Component Invoice to Project Co (if the Floating Rate Component is negative); or
(ii) Project Co must provide a Floating Rate Component Invoice to the State (if the Floating Rate Component is positive),

for the amount of the Floating Rate Component.

(c) **(Timing of payment):** Project Co or the State (as the case may be) must pay the amount of a Floating Rate Component Invoice on or before the last day of the relevant Interest Period.
PART H - CHANGE IN CIRCUMSTANCES

35. Modifications

35.1 Modification Request by the State

(a) (Modification Request): The State may, at any time, issue to Project Co a notice entitled "Modification Request" which must include details of:

(i) the proposed Modification which the State is considering;
(ii) the State's preferred financing for the proposed Modification in accordance with the Change Compensation Principles; and
(iii) any specific information that the State requires Project Co to include in its Change Notice or that may be relevant to the preparation of the Change Notice,

(b) (Events entitling Modification Proposal): To make a Claim in respect of a Contamination Compensation Event, State Approval Event, Compensable Change in Mandatory Requirements or loss or damage to the Project Assets, Project Co must submit a Change Notice entitled "Modification Proposal" in accordance with the Change Compensation Principles:

(c) (Content of Change Response): Subject to clause 35.6, in the Change Response the State must advise Project Co, that the State either:

(e) (Not a Submitted Document): A Modification Order is not a Submitted Document and nothing in this Deed requires a recipient of a Change Notice to review a Change Notice in accordance with the Review Procedures.

(f) (No time at large): A failure of the State to issue a Modification Order in accordance with the requirements of this Deed (including within any time period specified in this Deed) will not entitle Project Co to the relief or compensation set out in the relevant Modification Proposal or put any time at large or, deprive the State of the power to grant the relief sought or such other relief as appropriate (including the power to extend time).

(g) (Project Co not to proceed): Subject to its rights to make a claim in respect of a Modification Proposal as set out in clause 35.5(c)(ii)(B), Project Co will not have any entitlement to make any Claim in respect of a Modification unless a Change Response entitled “Modification Order” requiring Project Co to proceed with the Modification has been issued by the State in accordance with the Change Compensation Principles.

35.7 Extension of time for Modification

(a) (Extension of time): Subject to clause 35.7(c) and clause 35.7(d), the parties acknowledge and agree that:

(i) if Project Co has included in its Modification Proposal a claim for an extension of time; and

(ii) the conditions precedent in clause 35.7(c) have been satisfied,

Project Co will (other than for an Uninsurable Risk which is not also an Extension Event) be entitled to an extension of time to the relevant Date for Acceptance or Key Milestone Completion Date (as applicable) which will, subject to clause 35.7(b), be agreed by the State and Project Co.

(b) (Failure to agree): If the State and Project Co cannot agree on the applicable extension of time under clause 35.7(a), then:

the critical path contained in the then current Initial Phase Program to be
delayed; and

(iv) Project Co, at the time it submits the relevant Modification Proposal,
submits an updated Initial Phase Program to the State and the
Independent Reviewer which:

(A) complies with all the relevant requirements of this Deed;

(B) takes into account the impact of the relevant Modification or
deemed Modification; and

(C) contains a level of detail which is sufficient to enable the State
or the Independent Reviewer (as applicable) to determine
Project Co's entitlement to an extension of time (where
applicable),

provided that clauses 26.8(b) to 26.8(f) will apply (as if the Modification
Proposal submitted in accordance with clause 35.2 was a Change Notice
submitted in accordance with clause 26.7 and the Initial Phase Program
was submitted in accordance with clause 26.8(a)(iv)).

(d) (Concurrent delay): If:

(i) there are two or more events each of which by itself, if the other event(s)

Extension Event; and

(ii) any period of delay caused by the State Modification Event(s) referred to
in clause 35.7(d)(i) is occurring at the same time as a period of delay
causcd by an event referred to in clause 35.7(d)(i) that is not a State
Initiated Modification or an Extension Event (Modification Concurrent
Delay),

Project Co is not entitled to:

(iii) any extension of time to the relevant Date for Acceptance or Key
Milestone Completion Date (as applicable); and

(iv) in respect of the Date for Acceptance, Prolongation Costs or Initial
Phase Finance Amounts,

(b) **(State direction):** Without limiting clause 5.2, if Project Co considers that a direction by the State constitutes or involves a Modification and the State has not given that direction by way of a Modification Order, and Project Co intends to make a Claim that the direction is a Modification, Project Co must:

(i) within 10 Business Days after receiving the direction and before commencing work on the subject matter of the direction, give written notice to the State that it considers the direction constitutes or involves a Modification; and

(i) an extension of time to a Date for Acceptance or additional recurrent costs that may be incurred in performing the Services, as a consequence of a Minor Modification; or

(ii) any impact the Minor Modification may have on the FFP Warranty or any other warranties given by Project Co or any Project Co Associate under any State Project Document.

in order to implement the Minor Modification as a Modification.

(h) (State direction): If the State considers that the Minor Modification process is not meeting the purposes set out in clause 35.12(a), the State may, by notice to Project Co, suspend the Minor Modification process set out in this clause 35.12. If the State issues a notice to Project Co to this effect, all Minor Modifications thereafter will be managed in accordance with the process set out in clause 35 (other than this clause 35.12).

(c) **(Dispute):** If the parties fail to reach agreement under clause 35.16(b)(i), within 20 Business Days after the State receives Project Co's Change Notice under clause 35.16(a) either party may refer the matter to expert determination in accordance with clause 48.1(d)(i).

(d) **(Service Payments):** Subject to clause 35.16(e), Project Co's entitlement to an adjustment to the Service Payments (if any) will be determined by the State in accordance with the Change Compensation Principles for so long as the Commercial Vehicle Volume Change persists as agreed (or determined by expert determination in accordance with clause 48.1(d)(i)) under this clause 35.16.

(b) **(Conditions for Project Co Claim)**: Project Co is not entitled to make any Claim against the State in respect of any Compensable Change in Mandatory Requirements (including its impact) unless it has given notice in accordance with clause 36.1(a) and 35.2(b)(iii).

(iv) the financial indebtedness assumed in accordance with the proposed Refinancing will not be used solely for the Project;
(v) the matters referred to in clause 37.4 have not been agreed or otherwise determined; or

(a) (Consent): Project Co must not execute or amend any document in connection with a Refinancing (including by amending, restating or replacing any Finance Document) without the State’s consent (such consent not to be unreasonably withheld or delayed if the relevant document is on substantially the same terms as provided to the State under clause 37.2(a)(iii) and does not give rise to any grounds to withhold consent under clause 37.1(b)).

(b) (Documents to be delivered to State): Project Co must, within 5 Business Days after the execution of any document in connection with a Refinancing (including by amending, restating or replacing any Finance Document), deliver to the State a certified true copy of that document.

37.4 Calculation and Sharing of Refinancing Gains

(a) (Refinancing Gain calculation): A Refinancing Gain arises where a Refinancing Event results in $A - B$ being greater than zero, where $A$ and $B$ are defined as:

$A =$ the present value of the Distributions projected (using the Financial Model updated to reflect only the terms of the proposed Refinancing and in no other respect) at the proposed date of, and after executing, the Refinancing Event, discounted using the Equity IRR as set out or determined in the Financial Close Financial Model; and

$B =$ the present value of the Distributions projected (using the Financial Model) immediately prior to the Refinancing Event (without taking into account the effect of the proposed Refinancing Event), discounted using the Equity IRR as set out or determined in the Financial Close Financial Model,

(Refinancing Gain).

(b) (State’s entitlement to Refinancing Gains): The State is entitled to:

(i) [not disclosed]% of any Refinancing Gain arising from a change in the manner or timing of payment of an Option Amount; and
(ii) [not disclosed]% of the benefit of any other Refinancing Gain but only to the extent that after payment of such amount to the State under this clause 37.4, the Equity IRR over the Term as reflected in the Financial Model (taking into account the proposed Refinancing Event and all previous Refinancing Events) would be at or above the Equity IRR over the Term as reflected in the Financial Close Financial Model (without taking into account the proposed Refinancing Event or any previous Refinancing Event),

(State Share of Refinancing Gain).

(c) (State’s election on Refinancing Gain): The State may, after taking into account the nature and timing of the Refinancing Gain, elect to receive the State Share of Refinancing Gain as:

(i) a direct payment (but only to the extent a Project Entity receives its Refinancing Gain as a direct payment or to the extent that a Project Entity receives a lump sum payment or is able to pay all or part of the Refinancing Gain to another party as a lump sum payment as a result of the Refinancing (for example, upon a release of funds from a reserve account));

(ii) a reduction in the Service Payment; or

(iii) a combination of the above.

(d) (Negotiate in good faith): The State and Project Co must negotiate in good faith to agree the manner and timing of payments of the State Share of the Refinancing Gain on the basis that the State is to be paid the State Share of Refinancing Gain not later than when a Project Entity receives its share of the Refinancing Gain and subject to the State’s rights under clause 37.4(c).

(e) (Information): Project Co must provide the State with all information concerning the Refinancing, projected Distributions and the Project that the State may require to calculate the Refinancing Gain and the State Share of Refinancing Gain.

37.5 Costs Relating to a Refinancing

(a) (Project Co to pay State’s reasonable costs): Project Co must reimburse the State its costs (including legal and financial advisers’ fees) reasonably incurred in relation to considering or consenting to a Refinancing.

(b) (Estimate of costs): For the purposes of calculating any Refinancing Gain under this clause 37, Project Co may include in the Financial Model as a cost associated with the Refinancing an estimate of those costs of the State referred to in clause 37.5(a) to which the State has agreed.

(B) are a Force Majeure Event,

an instruction to suspend all or any or part of the Project Activities by the State under clause 38.1(a):

(C) will be:

1) in relation to any Development Activities, a Compensable Extension Event; or

2) in relation to any Services or other obligations under this Deed (which are not Development Activities) in each case during the Maintenance Phase, an Intervening Event; and

(D) must not be for a period of more than 180 days.

(ii) To the extent the circumstances leading to the suspension are a Force Majeure Event, an instruction to suspend the Works or the Project Activities (while that Force Majeure Event or its effects are subsisting) by the State under clause 38.1(a)(i) will be a Force Majeure Event.

(b) **Exercise of rights**: Other than when it is exercising its rights in accordance with clause 38.2(a)(v) and clause 38.2(a)(vi), the State must not exercise its rights under clause 38.2(a) on the occurrence of a Major Default for so long as Project Co is complying with its obligations under clauses 45.4 and 45.5 in respect of that Major Default.

### 38.3 Notice

The State may exercise its rights under clause 38.2(a) without prior notice to Project Co but the State must, if it is reasonably practicable to do so, give prior notice and in any event must, as soon as practicable, provide notice to Project Co that it is exercising those rights.

   (iv) if the State exercises its rights at any time during the Term, any Liability suffered or incurred by the State or any State Associates in connection with the exercise by the State of those rights (provided that during the Maintenance Phase, the Liability is in excess of the Service Payments that are Abated under clause 38.5(a)(iii)) will be a debt due and payable by Project Co to the State, except to the extent that the State's Liability is
suffered or incurred as a consequence of a breach of the State Project Documents by the State or any State Associate.

(b) (Step-in not caused by Project Co): If the State has exercised its rights under clause 38.2 other than for the reasons set out in clause 38.5(a) or clause 38.5(c), the exercise by the State of those rights will be:

38.8 State obligations during step-in

Project Co acknowledges and agrees that the State is not obliged to exercise its rights under clause 38.2 or to Cure any breach, or to overcome or mitigate any risk or risk consequences, in connection with which the State exercises its rights under clause 38.2.

(c) (Project Co to recommence): If the State ceases to exercise its rights under clause 38.1 or clause 38.2 in accordance with this clause 38.9, Project Co must immediately recommence performing any obligations suspended due to the exercise by the State of those rights and the State must give reasonable assistance to Project Co to ensure that this process of transition is effected as smoothly as possible.

(c) (Adjustments): The amount of a Construction Payment (and therefore the Construction Price) and the corresponding Receivables Purchase Payment may only be adjusted to reflect:

(i) a Change Compensation Event occurring prior to Commercial Acceptance in respect of which the parties have agreed that finance will be or has been provided under the Finance Documents (and such finance is to be applied in respect of amounts owing to the D&C Subcontractor) calculated in accordance with the Change Compensation Principles; and

provided that no adjustment to a Construction Payment or the corresponding Receivables Purchase Payment will affect the limitation referred to in clause 41.1(b).

(d) (No set-off): Notwithstanding any other clause of any Project Document, the State may not set off any amount due and payable by Project Co or Finance Co to the State under the Project Documents against any Construction Payment.

(e) (Right, title and interest): To the extent it has not already passed, all right, title and interest of Project Co in the Works to which a Construction Payment applies passes to the State on payment by the State under clause 41.1(a).

(f) (Adjustment to Licence Fees): If a Construction Payment (and the corresponding Receivables Purchase Payment) is adjusted in accordance with clause 41.1(c), the State and Project Co agree to adjust the Licence Fee payable under each of the Initial Licence and the Maintenance Phase Licence (Full) in accordance with the Change Compensation Principles.

(g) (Relief is sole remedy): Notwithstanding anything else in the Project Documents, the State acknowledges that if a Receivables Purchase Payment is not received in full or at all under the Receivables Purchase Deed, the State’s only right or remedy in respect of such non-payment is the relief from payment of the corresponding Construction Payment under clause 41.1(b).
41.2 Maintenance Phase (Full) Modification Payment

(a) **(Payment of Maintenance Phase (Full) Modification Payment):** If a Change Compensation Event occurs on or after the Date of Commercial Acceptance and the State requests that Project Co (either itself or via Finance Co), and Project Co or Finance Co agree to, provide financing for that event under the Change Compensation Principles, the State must pay a Maintenance Phase (Full) Modification Payment to (or at the direction of) Project Co on the Additional Purchase Date in relation to that Change Compensation Event.

(b) **(Corresponding Receivables Purchase Price):** The State has no obligation to pay a Maintenance Phase (Full) Modification Payment unless, and its obligation is limited to the extent that, it receives the corresponding additional Receivables Purchase Price for the relevant Additional Receivables from Finance Co under the Receivables Purchase Deed in relation to that Change Compensation Event.

(e) **(Relief is sole remedy):** Notwithstanding anything else in the Project Documents, the State acknowledges that, if the additional Receivables Purchase Price for the relevant Additional Receivable is not received in full or at all under the Receivables Purchase Deed, the State’s only right or remedy in respect of such non-payment is the relief from payment of the corresponding Maintenance Phase (Full) Modification Payment under clause 41.2(b).

41.3 No change in risk allocation

(a) **(No Increased State Risk Allocation):** The parties acknowledge and agree that the Securitised Licence Structure is not intended to result in an Increased State Risk Allocation.

(b) **(If Increased State Risk Allocation):** If the State believes (on reasonable grounds supported by external advice) that the Securitised Licence Structure results or is likely to result in an Increased State Risk Allocation, then it may give Project Co a notice stating that the Securitised Licence Structure is to be amended to the extent necessary to ensure there is no Increased State Risk Allocation.

(c) **(Necessary amendments):** Following receipt of a notice given by the State under clause 41.3(b), Project Co agrees (and must procure Finance Co) to do anything reasonably requested by the State in a notice given by the State under clause 41.3(b) to modify the Securitised Licence Structure to ensure there is no Increased State Risk Allocation.

(d) **(No Claim):** Project Co undertakes not to make any Claim inconsistent with the acknowledgement in clause 41.3(a) and to procure that neither Finance Co nor any of their Related Bodies Corporate will make any such Claim.

(e) **(Damages not adequate):** Project Co acknowledges and agrees that:

(i) damages may not be an adequate remedy for the State for any failure by Project Co to comply with the undertaking in clause 41.3(d); and
(ii) if there is a breach or purported breach by Project Co of its obligation in clause 41.3(d), the State may seek, and is entitled to, injunctive or declaratory relief.

41.4 Indemnity

Project Co must indemnify the State for:

(a) (All costs of loss): all Liability incurred by the State as a result of any Increased State Risk Allocation to the extent that it is not removed or remedied by changes to the Securitised Licence Structure agreed in accordance with clause 41.3; and

(b) (any Claim): any Claim brought against the State by Project Co or Finance Co or any Related Body Corporate of either Project Co or Finance Co which is inconsistent with the acknowledgements in clause 41.3.
PART I - RISK, INDEMNITIES AND INSURANCE

42. Damage

42.1 Risk of loss or damage to Project Assets

Unless otherwise expressly provided in this clause 42, Project Co bears the risk of loss or damage to the Project Assets during the Term.

42.2 Notification of damage

(a) (Notification of loss or damage): Project Co must:

(i) promptly notify the State of any loss of or damage to the Project Assets of which it becomes aware (other than damage that is Minor Damage), including details of the nature and extent of such loss or damage; and

(ii) subject to allowing reasonable time for inspection by insurers, take immediate steps to clear any debris, make the Project Area and the Project Assets safe and do any other things necessary to ensure that Project Co complies with its obligations under clauses 44.3(a)(v) and 44.3(b)(i).

(b) (Loss or Damage election): If the loss or damage:

(i) is loss of or damage to all or substantially all of the Project Assets (Major Loss or Damage), within 60 Business Days after such Major Loss or Damage (or such other period as reasonably required by the State having regard to the degree of loss or damage and the nature and extent of any repair or reinstatement required); or

(ii) is not:

(A) Major Loss or Damage; or

(B) Minor Damage,

within 30 Business Days after such loss or damage,

the State must notify Project Co that:

(iii) it requires Project Co to repair or reinstate the relevant Project Assets the subject of the loss or damage and the standard to which it requires Project Co to repair or reinstate the Project Assets in accordance with clause 42.3; or

(iv) it does not require Project Co to repair or reinstate the Project Assets the subject of the loss or damage in which case clause 42.5 will apply.

(c) (Minor Damage): Project Co must promptly repair any Minor Damage.

42.3 Repairing and reinstating

(a) (Project Co to repair or reinstate): If Project Co is required to repair or reinstate the Project Assets after loss or damage in accordance with clause 42.2, other than if this is due to Minor Damage, Project Co must promptly consult with the State and:
(i) submit a plan to the State for the repair or reinstatement of the Project Assets for review in accordance with the Review Procedures (the Repair and Reinstate Plan); and

(ii) promptly repair or reinstate the Project Assets in accordance with the requirements of this Deed and the Repair and Reinstate Plan.

(b) **(Standard of repair or reinstatement):** If Project Co is required to repair or reinstate the Project Assets after loss or damage in accordance with clause 42.2, Project Co must:

(i) ensure that the repaired or reinstated Project Assets comply with the requirements of this Deed;

(ii) ensure if possible, there is minimal disruption to the use of the Project Assets;

(iii) to the greatest extent possible, continue to comply with its obligations under the Project Documents; and

(iv) other than if the repair or reinstatement is in respect of Minor Damage, keep the State fully informed of the progress of the repair or reinstating of the Project Assets.

### 42.4 Cost and risk of repairing or reinstating

(a) **(Project Co bears cost and risk subject to exceptions):** Subject to clause 42.5, clause 42.7 and any liability of the State for payment of any insurance excess or deductibles which is set out in clause 44.12(b), Project Co bears the risk and cost of the repairing or reinstating of:

(i) all Minor Damage; and

(ii) all other loss or damage to the Project Assets,

unless:

(iii) **(Day 1 Uninsurable Risk, Uninsurable Risk or State Insurance Breach):** the loss of or damage to the Project Assets was caused by a Day 1 Uninsurable Risk or an Uninsurable Risk or to the extent that Project Co is unable to recover the cost of repairing or reinstating the Project Assets under any of the Insurances or Insurances (State) under which Project Co would have otherwise been entitled to recover, as a result of a State Insurance Breach, in which case:

(A) the repair or reinstatement of the Project Asset and the impact of this (if any) on the Project Activities will constitute a Modification in respect of which Project Co may issue a Modification Proposal in accordance with clause 35.2(b)(iv) and Project Co’s entitlements will be determined in accordance with clause 35 and the Change Compensation Principles as if the relevant loss or damage was a State Initiated Modification; and

(B) the State must also indemnify Project Co for all other Liabilities incurred by Project Co as a consequence of the loss or damage,
provided that the amount payable by the State under this clause 42.4(a)(iii) will not, in the aggregate exceed the amount that is equal to the insurance proceeds that would have been payable under the relevant Insurances or Insurances (State) (as applicable) that would have applied to the event had the event been insurable under those Insurances or Insurances (State) (as applicable) or had the Insurances or Insurances (State) (as applicable) responded; or

(iv) (**different specification**): if the State requires all or any part of the Project Assets to be repaired or reinstated to different specifications to the required design specifications and standards of the lost or damaged Project Assets (as at the date on which the loss or damage occurred), the State must issue a Modification Request for that part of the Project Assets to be repaired or reinstated to the different specifications.

(v) (**State Initiated Modification for different Specification**): If the State issues a Modification Order in accordance with clause 35.5(c)(i) for the repair or reinstatement referred to in clause 42.4(a)(iv), Project Co’s entitlements for that part of the Project Asset that is required to be repaired or reinstated to the different specifications will be determined in accordance with clause 35 and the Change Compensation Principles as if the relevant loss or damage was a State Initiated Modification.

### 42.5 Consequences of not repairing or reinstating

(a) (**Termination if Major Loss or Damage**): If the loss or damage is Major Loss or Damage and the State notifies Project Co not to repair or reinstate the Project Assets under clause 42.2(b)(iv) in respect of that Major Loss or Damage and the Major Loss or Damage was caused by:

(i) a Major Default or a breach of this Deed by Project Co, this will be deemed to be a Default Termination Event and the State must issue a notice to terminate this Deed under clause 46.4(a);

(ii) a Force Majeure Event or an Uninsurable Risk, the State must issue a notice to terminate this Deed for a Force Majeure Event under clause 46.3 as if for a Force Majeure Termination Event; or

(iii) any other event, the State must issue a notice to terminate this Deed for convenience under clause 46.2.

(b) (**Omission of Project Asset**): If the loss or damage is not Major Loss or Damage or Minor Damage and the State notifies Project Co under clause 42.2(b)(iv) that it does not require Project Co to repair or reinstate any part of the Project Assets the subject of any loss or damage, the State may omit that part of the Project Assets from the Project or take such other action as it sees fit, and to the extent that such act or omission impacts Project Co’s rights or obligations under this Deed, it will constitute a Modification in respect of which Project Co may issue a Modification Proposal in accordance with clause 35.2(b)(v) and Project Co’s entitlements will be determined in accordance with clause 35 and the Change Compensation Principles as if the relevant act or omission was a State Initiated Modification.

### 42.6 Damage to third party property

(a) (**Project Co interference**): Other than in accordance with its rights or obligations under this Deed, Project Co must not interfere with, obstruct, damage or destroy any property on, under, over, in or in the vicinity of the Project Area.
(b) **(Project Co to rectify and compensate):** Subject to the terms of any Direct Interface Deed, if Project Co or any Project Co Associate interferes with, obstructs, damages or destroys any property (including the Excluded Assets but excluding the Project Assets) on, under, over, in or in the vicinity of the Project Area other than in accordance with its obligations under this Deed, Project Co must:

(i) promptly rectify any such loss or damage; and

(ii) compensate the affected person for that interference, obstruction, damage or destruction in accordance with its obligations at Law and any obligations at Law that the State may have to compensate the affected person.

### 42.7 Minor damage

If any loss or damage to the Project Assets for which the State would otherwise be liable to pay Project Co in accordance with clause 42.4(a)(iii) or clause 42.4(a)(iv) is of such a minor nature (when considered item by item and in aggregate) that it can be remedied by Project Co:

(a) **(usual resources):** through the use of its site-based resources during normal working hours; and

(b) **(no adverse effect):** without adversely affecting the ability of Project Co to carry out the Project Activities,

then Project Co must bear the cost of rectifying such loss or damage notwithstanding clause 42.4(a)(iii) or clause 42.4(a)(iv).

### 43. Indemnities and limits of liabilities

#### 43.1 General indemnity

Project Co indemnifies the State, VicRoads, each State Associate and each Interface Party carrying out Site Interface Works or Proximate Interface Works from and against any Claim or Liability suffered or incurred by the State, VicRoads, the State Associate or the Interface Party respectively arising in connection with:

(a) **(property damage):** any loss, damage or destruction to, or loss of use of, property including any real or personal property, whether the Project Assets or other property belonging to the State, VicRoads, a State Associate or a third party (other than the cost of repairing or reinstating the Project Assets, which is addressed in clause 42); or

(b) **(injury, illness or death):** any injury to, illness or death of, any person,

in connection with any act or omission of Project Co or any Project Co Associate in connection with the Project.

#### 43.2 Indemnity for Project Co breach

(iii) to the extent that the State, VicRoads, any State Associate, Interface Party or other Indemnified IP Person (as applicable) initially defends such proceedings,

provided that as soon as reasonably practicable after commencement of the proceedings, the State must, or must procure that the State Associate, Interface Party (other than any Direct Interface Party) or other Indemnified IP Person (as applicable), gives Project Co the option to conduct the defence of such proceedings, and if Project Co chooses to do so, clause 43.7(a)(iii) will then apply.

(d) (Other matters): Clause 43.7(a) does not apply to any Claim which:

(i) the State considers should be conducted by the State, VicRoads, a State Associate, Interface Party or other Indemnified IP Person (as applicable) for public policy reasons; or

(ii) would prevent the continued development or operation of the Project or continued conduct of the Project Activities,

and the State, to the extent reasonably practicable, consults and procures that VicRoads, any relevant State Associate, an Interface Party or other Indemnified IP Person (as applicable) consults in good faith with Project Co with respect to such Claim.

(c) (Acknowledgement by parties): The parties acknowledge and agree that:
(i) the terms and requirements specified in this Deed for the Maintenance Phase Insurances (Project Co) and Maintenance Phase Insurances (State) are a reflection of the insurance market at Financial Close;

(ii) if, throughout the period from Financial Close to the end of the Maintenance Phase, either party reasonably considers that the terms or requirements relating to a Maintenance Phase Insurance (Project Co) or Maintenance Phase Insurance (State) set out in the Insurance Schedule no longer represent the terms or requirements of such insurance that an owner, operator or maintainer of assets similar to the Maintained Assets or services provider providing services similar to the Services and exercising Best Industry Practices would procure and maintain, then that party may send a written notice to the other party advising it of the same and then the State and Project Co (both acting reasonably) must promptly confer in good faith with a view to reaching agreement on the replacement terms or requirements (as applicable); and

(iii) if the parties do not reach agreement on any replacement terms or requirements under clause 44.7(c)(ii), within 5 Business Days after the date on which a written notice was first given under that clause, either party may refer the matter to expert determination in accordance with clause 48.1(d)(i).

44.8 Evidence of Insurances

(a) As often as reasonably requested by the State, Project Co must give the State evidence satisfactory to the State that the Insurances have been procured and continue to be maintained in accordance with the requirements of this Deed, including:

(i) (policies): certified copies of each insurance policy, or if Project Co is unable to provide a certified copy of an insurance policy, Project Co must make such Insurance policy available to VMIA, the State's insurance adviser and the State's lawyers to review confidentially on behalf of the State, in accordance with the Review Procedures;

(ii) (certificate): signed certificates of currency evidencing at a minimum sum insured, deductible(s), class of policy and any unusual terms;

(iii) (all requirements): confirmation that all the requirements of the Insurances specified in the Insurance Schedule are met by the Insurances; and

(iv) (particular deductibles): such other details of the terms of coverage, erosion and reinstatement of limits, as the State may reasonably require, to enable the State to satisfy itself that Project Co is complying with all of the insurance requirements of the Project under this Deed are being complied with.

(b) The State must provide to Project Co upon inception and each renewal of the Insurances (State), satisfactory evidence that the Insurance (State) is in force and on the terms prescribed in accordance with clause 44.4A(a), including:

(i) copies of each signed insurance policy and certificates of currency:

(A) issued by the VMIA; and
(B) confirming that the Insurance (State) in question is current and contains all of the minimum prescribed terms specified in the Insurance Schedule in respect of that insurance;

(ii) deductibles, terms of coverage, erosion and reinstatement limits as the other party may reasonably require, to enable Project Co to satisfy itself that all of the insurance requirements for the Project in accordance with this Deed are complied with; and

(iii) where requested, access to the terms of the Insurances (State) procured by a party, for the other party, its brokers and legal advisors.

(c) If the State fails to provide satisfactory evidence of insurance in accordance with clause 44.8(b), within 10 Business Days after the later of the date upon which the relevant Insurance (State) is required by this clause 44 to be procured and receipt of notice of such default from Project Co, Project Co may procure the Insurance (State) and the costs of it doing so, including the premium, brokerage and all taxes, levies or other statutory charges, will be a debt due and payable by the State to Project Co.

44.9 State may effect Insurances

(a) (State may effect insurance): The State may procure and/or maintain the relevant Insurances and pay the relevant premiums in connection with such Insurances:

(i) if Project Co fails to provide evidence satisfactory to the State that the Insurances have been procured and continue to be maintained in accordance with this Deed within 10 Business Days after a request under clause 44.8;

(ii) in the event of any default by Project Co or a Project Co Associate in procuring or maintaining Insurances in accordance with this clause 44; or

(iii) if any Insurance that Project Co is obliged to effect and maintain under this Deed is terminated and Project Co has failed to effect and maintain replacement Insurance for that Insurance under this Deed on or before the date of that termination.

(b) (Costs to be recoverable from Project Co): Without limiting any other remedies of the State under this Deed or at Law, the costs reasonably incurred by the State in taking such action as may reasonably be necessary in accordance with this clause 44.9 will be a debt due and payable by Project Co to the State.

44.10 Insurance Proceeds Account

(a) (Establish account): Project Co must:

(i) establish the Insurance Proceeds Account on or before Financial Close;

(ii) maintain that account in the joint names of Project Co and the State with a financial institution nominated by Project Co and approved by the State (such approval not to be unreasonably withheld or delayed) or with a financial institution that is a party to, or whose trustee or agent is a party to, the Finance Direct Deed;

(iii) give details of that account to the State on or before Financial Close;
(iv) notify the financial institution referred to in clause 44.10(a)(ii) of the charge over the Insurance Proceeds Account in accordance with the State Security and procure acknowledgement of the notice from the financial institution and provide a copy of that to the State in each case on or before Financial Close; and

(v) procure the agreement of the financial institution referred to in clause 44.10(a)(ii) not to exercise any right of set-off or counterclaim in relation to the Insurance Proceeds Account on or before Financial Close.

(b) (Deposit insurance proceeds): All insurance proceeds received from insurers by Project Co or the State under the Contract Works Insurance (Material Damage), the Industrial Special Risks/Business Interruption Insurance (other than proceeds of the business interruption section of the policy) and the Marine Transit and Marine Transit (Delay in Start-Up) Insurance (other than proceeds of the delay in start-up section of the policy) must be deposited by the recipient into the Insurance Proceeds Account.

(c) (Application of amounts): Subject to clause 44.10(e), amounts in the Insurance Proceeds Account may only be applied towards the repair or reinstatement of the Project Assets or as part of any Termination Payment.

(d) (Records): If amounts in the Insurance Proceeds Account are used for repair or reinstatement of the Project Assets, Project Co must give the State records of expenditure from the Insurance Proceeds Account within 30 Business Days after such expenditure.

(e) (Surplus funds): Any funds remaining in the Insurance Proceeds Account after application in connection with repair or reinstatement of the Project Assets will, subject to any right of set-off the State may have, be payable to Project Co.

44.11 Proportionate liability

(a) (Reduce or exclude insurance cover): Subject to clause 44.11(b), Project Co must ensure that no Insurance reduces or excludes the insurance cover in connection with liabilities governed by Part IVAA of the Wrongs Act 1958 (Vic) or any corresponding legislation of another Australian jurisdiction, by reason of the manner in which that legislation operates or does not operate, as the case may be, in light of any of the provisions of this Deed and the obligations undertaken by Project Co in connection with it.

(b) (Non-specific Project Insurance): To the extent that the relevant Insurance is not specific to the Project, Project Co is only required to use its reasonable endeavours to procure insurance on the terms referred to in clause 44.11(a).

44.12 Liability for Deductible

(a) (Project Co liability): Subject to clause 44.12(b), Project Co must pay or bear all amounts by way of deductibles and excesses which apply to a claim made under any Insurances or any Insurances (State).

(b) (State liability): The State must pay all amounts by way of deductibles and excesses which apply to a claim made under any Insurances or Insurances (State) where the event that is insured in respect of which the claim is made on the Insurances or any Insurances (State) is:

(i) a Compensable Extension Event or a Compensable Intervening Event;
(ii) to the extent not covered by clause 44.12(b)(i), is caused by a breach of a State Project Document by the State or a State Associate; or

(iii) to the extent not covered by clause 44.12(b)(i) or clause 44.12(b)(ii), death, personal injury or loss of or damage to property (including the Project Assets), to the extent that the Liability of Project Co or any Project Co Associate is a consequence of a fraudulent, reckless, unlawful or malicious act or omission of the State or any State Associate.

44.13 Uninsurable Risks

(a) (Risk likely to become Uninsurable Risk): If any risk becomes or is likely to become an Uninsurable Risk, then:

(i) Project Co must notify the State within 5 Business Days after becoming aware that the risk has become or is likely during the Term to become an Uninsurable Risk;

(ii) the State must meet with Project Co within 5 Business Days after receipt of Project Co’s notice to discuss the risk, including whether in fact the risk is an Uninsurable Risk; and

(iii) if, within 5 Business Days after receipt of Project Co’s notice, the parties have not reached agreement on whether the risk is an Uninsurable Risk, either party may refer the matter to expert determination in accordance with clause 48.1(d)(i).

(b) (Parties to discuss management of an Uninsurable Risk): If the parties agree that a risk is an Uninsurable Risk (or in the absence of agreement, it is determined under clause 49 to be so), the parties must meet further to discuss the means by which the risk should be managed.

(c) (Uninsurable Risk): If clause 44.13(b) applies but the parties have not, within 10 Business Days after one party has notified the other that a meeting is required under that clause, reached agreement on how the Uninsurable Risk is to be managed, then this Deed will continue but each Service Payment will be adjusted by deducting the amount corresponding to the proportion of the total insurance premium (inclusive of brokerage and all taxes, levies and other statutory charges) for any Insurance that was payable by Project Co, for the insurance of that risk before it became an Uninsurable Risk.

(d) (No longer an Uninsurable Risk): If the risk ceases to be an Uninsurable Risk and Project Co takes out insurance to cover the risk in accordance with clause 44.14, then the Service Payment will be increased according to the amount of the premium (inclusive of brokerage and all taxes, levies and other statutory charges) payable for the same provided however (for each Service Payment) that increase must not exceed the amount which was deducted from the Service Payment when the risk became an Uninsurable Risk in accordance with clause 44.13(c). If the State takes out the insurance to cover the risk in accordance with clause 44.14, then the State will bear the premium payable.

44.14 Review of insurance markets

(a) (Review and testing of market): Subject to clause 44.14(c), Project Co must review and test the insurance market vigilantly (and for the Maintenance Phase Insurances (Project Co) during the period from Financial Close to the end of the Maintenance Phase, no less than once every 12 months) to ascertain whether a Day 1 Uninsurable Risk or Uninsurable Risk is no longer an Uninsurable Risk, and determine whether, and if so what, insurance terms as to premium, deductible and
coverage are available in connection with that risk from Reputable Insurers or in the case of the Insurances (State), from VMIA.

(b) **(Project Co to effect insurance):** If upon such review it is found that a Day 1 Uninsurable Risk or an Uninsurable Risk is no longer an Uninsurable Risk, then Project Co must promptly notify the State and unless the State requires otherwise, Project Co must procure the relevant Insurance or the State must procure the relevant Insurance (State) (as applicable) in connection with that risk in accordance with the other provisions of this clause 44 and the Insurance Schedule and Project Co and the State must meet to discuss the effect of that Day 1 Uninsurable Risk or Uninsurable Risk no longer being an Uninsurable Risk. Unless the State and Project Co agree otherwise within 10 Business Days after the State receives Project Co’s notice and the Insured Risk is one which this Deed obliges Project Co to procure and maintain, or cause to be procured and maintained, coverage under any Insurance, then:

(i) during the period from Financial Close to the end of the Transition Phase, the State must pay Project Co:

(A) if the risk is not insurable under an existing Insurance, an amount equal to the premium that is payable by Project Co for insurance of such a risk (when incepted and at each renewal date); or

(B) if the risk is insurable under an existing Insurance, an amount equal to the increase in the premium of the existing Insurance that is required to cover insurance of such a risk, within 10 Business Days after Project Co providing evidence to the State’s reasonable satisfaction that it has procured such Insurance or amendment to the existing Insurance and the amount of the additional or increased premium (as applicable); and

(ii) during the Maintenance Phase, the Service Payment will be increased to reflect the additional or increased premium (as applicable) payable by Project Co for insurance to cover the risk.

(c) **(Terrorist incidents):** If a Day 1 Uninsurable Risk is a terrorist act occurring on the Project Area then unless the Insurance in question is one under which coverage is provided for a declared terrorist incident by operation of the **Terrorism Insurance Act 2003** (Cth), Project Co will not be required to review and test the insurance market under clause 44.14(a) unless expressly requested by the State to do so.

44.15 **[Not used]**

44.16 **State Insurance Event**

(a) **(Notification):** If a State Insurance Event has occurred or is likely to occur, Project Co must notify the State, or the State must notify Project Co, as applicable, within 5 Business Days after becoming aware that a State Insurance Event has occurred or is likely to occur.

(b) **(Redress of State Insurance Event):** As soon as practicable but no later than 5 Business Days after a party receives notice under clause 44.16(a), the parties must meet:

(i) to discuss whether a State Insurance Event has occurred or is likely to occur; and
(ii) if both parties agree (or if not, it is determined in accordance with clauses 48 to 50) that a State Insurance Event has occurred or is likely to occur, negotiate in good faith in an endeavour to agree on a method of redress to enable each of the State and Project Co to be, on balance, in no better or worse off position with respect to the insurance coverage provided by the applicable Insurances (State) than they would be if Project Co had procured those insurances on the same terms and conditions with Reputable Insurers.

(c) **Flexible Negotiations**: The parties acknowledge that in any negotiations undertaken in accordance with clause 44.16(b)(ii), they will take a flexible approach, including giving consideration to amending this Deed to require Project Co to procure the Insurances (State) previously procured by the State.

(d) **No agreement on redress**: If the parties do not reach agreement on a method of redress to enable each of the State and Project Co to be, on balance, in no better or worse off position with respect to the insurance coverage provided by the relevant Insurances (State) than they would be if Project Co had procured those insurances on the same terms and conditions with Reputable Insurers within 10 Business Days after commencing the negotiations referred to in clause 44.16(b), then either party may refer the matter to resolution under clauses 48 to 50.

(e) **Interim measures**: If a State Insurance Uninsurable Event occurs, the State must:

(i) if the State Insurance Uninsurable Event gives rise to loss or damage to the Maintained Assets within 20 Business Days after the occurrence of that State Insurance Uninsurable Event (or such longer period as is reasonable in the circumstances), either:

(A) subject to clause 44.16(f), require Project Co to reinstate the Maintained Assets, in which case the State will indemnify Project Co for the reasonable costs of reinstating and all other Liabilities incurred by Project Co to the extent such Liabilities arose from the occurrence of the State Insurance Uninsurable Event; or

(B) if the loss or damage to the Maintained Assets is Major Loss or Damage, terminate this Deed by notice to Project Co, in which case a Force Majeure Termination Event will be deemed to have occurred on the date provided in the State’s notice and clause 46.6 will apply; or

(ii) if the State Insurance Uninsurable Event gives rise to personal injury or property damage (other than loss or damage to the Maintained Assets) in connection with the Project Activities, subject to clause 44.16(f), indemnify Project Co for all Liabilities incurred by Project Co to the extent such Liabilities arose from the occurrence of the State Insurance Uninsurable Event.

(f) **Maximum indemnity**: The maximum amount for which the State must indemnify Project Co in accordance with clause 44.16(e)(i)(A) or clause 44.16(e)(ii) (as applicable) will be an amount equal to the Insurance (State) proceeds that would have been payable under the relevant Insurances (State) but for the occurrence of the State Insurance Uninsurable Event.

(g) **No entitlement to Claim**: Other than to the extent expressly set out in this Deed, Project Co:
(i) will not be entitled to make any Claim against the State or any State Associate in relation to the occurrence of a State Insurance Event or a State Insurance Uninsurable Event; and

(ii) is not relieved from any of its obligations or Liabilities in accordance with the State Project Documents arising out of or in connection with the occurrence of a State Insurance Event or a State Insurance Uninsurable Event,

including in respect of any failure by the State to comply with its obligations in relation to the procurement of the Insurances (State) as a consequence of a State Insurance Event.
PART J – DEFAULT, TERMINATION AND END OF TERM OBLIGATIONS

45. Major Default

45.1 Events deemed capable of Cure

The parties acknowledge and agree that the following paragraphs of the definition of Major Default will, for the purposes of this clause 45, be deemed to be capable of Cure notwithstanding that they may not, as a matter of fact, be capable of "remedy" or "cure":

(a) (late Commercial Acceptance): paragraph (a) (late Commercial Acceptance);
(b) (late Final Acceptance): paragraph (b) (late Final Acceptance);
(c) (Local Content Requirements): paragraph (p), in respect of a breach of the Local Content Requirements or the LIDP;
(d) (Major Projects Skills Guarantee): paragraph (q), in respect of a breach of the Major Projects Skills Guarantee or the Major Projects Skills Guarantee Compliance Plan; and
(e) (late Dohertys Road Bridge Works Completion): paragraph (t) in respect of a failure by Project Co to achieve Milestone Completion in respect of the Dohertys Road Bridge Works by the Dohertys Road Bridge Works Completion Date.

45.2 Notice of Default

(a) (Default Notice): If the State considers that a Default has occurred, the State Representative may give Project Co a notice in writing:

(i) stating that a Default has occurred;
(ii) identifying and providing details of the Default; and
(iii) requiring Project Co to Cure the Default where it is capable of Cure, or comply with any reasonable requirements of the State where it is not, within 20 Business Days (or such longer period as is stated in the notice) of Project Co receiving that notice,

(b) (Default will become Major Default): If Project Co:

(i) fails to Cure the Default; or
(ii) if the Default is not capable of Cure, fails to comply with the reasonable requirements of the State,

in accordance with the Default Notice within 20 Business Days (or any longer period stated in the Default Notice) of Project Co receiving the Default Notice, the Default will become a Major Default.

45.3 Notice of Major Default

(a) (Project Co's obligations): Project Co must:

(i) promptly notify the State upon the occurrence of a Major Default; and
(ii) immediately take steps to mitigate, minimise or avoid the effects, consequences and duration of the Major Default.

(b) **(Major Default Notice):** If Project Co notifies the State of a Major Default under clause 45.3(a) or if the State considers that a Major Default has occurred, the State may give Project Co a notice:

(i) stating that a Major Default has occurred;

(ii) identifying and providing details of the Major Default; and

(iii) if the Major Default:

(A) is capable of Cure, stating a date by which Project Co must Cure the Major Default (which subject to clause 45.4(h), must allow for a reasonable period of time to Cure the Major Default in the circumstances);

(B) is not capable of Cure, stating any reasonable requirements of the State to overcome the consequences of, or compensate the State for, the Major Default and a date by which Project Co must comply with those requirements (which, subject to clause 45.4(h), must allow for a reasonable period of time to comply with the State’s requirements in the circumstances); or

(C) is not capable of Cure and the State has formed the view (acting reasonably) that there are no reasonable requirements that can be met by Project Co to overcome the consequences of, or compensate the State for, that Major Default, a statement to that effect along with its reasons for forming that view, (a Major Default Notice).

(c) **(Unreasonable requirements):** If Project Co acting in good faith disputes the Major Default Notice, it must promptly notify the State including the reasons why.

(d) **(State to act in good faith):** Subject to clause 45.3(f), the State must in good faith consider Project Co’s notice under clause 45.3(c) and must:

(i) make any changes to the Major Default Notice that it considers reasonable as a consequence of Project Co’s notice (if any); and

(ii) notify Project Co of any such changes.

(e) **(Major Default not capable of Cure):** If:

(i) the State issues a notice in accordance with clause 45.3(b)(iii)(C), that there are no reasonable requirements that can be met by Project Co to overcome the consequences of, or compensate the State for, a Major Default not capable of Cure and this is disputed by Project Co in accordance with clause 45.3(c); and

(ii) having considered Project Co’s notice issued under clause 45.3(c), and subject to clause 45.3(f) the State maintains the view (acting in good faith) that there are no reasonable requirements that can be met by Project Co to overcome the consequences of, or compensate the State for, that Major Default,
the State must notify Project Co of this determination and the Major Default will be a Default Termination Event.

(f) (Notify Project Co and the Independent Reviewer): Prior to issuing a notice under clause 45.3(e), the State must:

(i) notify Project Co and the Independent Reviewer (if an Independent Reviewer is engaged on the Project at that time) that it proposes to form a view under clause 45.3(e), and in the case of:

(A) Project Co, advise Project Co that it may submit to the State; and

(B) the Independent Reviewer, require the Independent Reviewer to submit to the State,

any comments or other information within 10 Business Days after the date of the notice under this clause 45.3(f)(i) (or such later date as determined by the State (acting reasonably)), which Project Co or the Independent Reviewer (as the case may be) considers may be relevant to the State forming or not forming a view in accordance with clause 45.3(e); and

(ii) consider any comments or other information submitted by Project Co and the Independent Reviewer under clause 45.3(f)(i).

(g) (Project Co not satisfied): If Project Co is not satisfied with:

(i) the changes (if any) made by the State under clause 45.3(d); or

(ii) the State's determination under clause 45.3(e),

Project Co may refer the matter to expert determination in accordance with clause 48.1(d).

45.4 Project Co to provide Cure Program and comply with Major Default Notice

(a) (Cure Program): Subject to clause 45.4(c), if the State gives a Major Default Notice to Project Co, then notwithstanding its rights under clauses 45.3(c) to 45.3(g), within 10 Business Days after receipt of the Major Default Notice, Project Co must:

(i) if the Major Default is capable of Cure, unless the relevant Major Default is a failure to pay amounts, give the State a program to Cure the Major Default; and

(ii) if the Major Default is not capable of Cure, give the State a program to comply with any reasonable requirements of the State (which may include a plan to replace the Subcontractor causing the Major Default),

(in each case, a Cure Program) in accordance with the terms of the Major Default Notice, for review by the State in accordance with the Review Procedures.

(b) (Content of Cure Program): Any Cure Program provided to the State under clause 45.4(a) must include:
(i) each task to be undertaken, the date by which each task is to be completed and the additional resources and personnel (if applicable) to be applied to Cure the Major Default; and

(ii) any temporary measures that will be undertaken while the Major Default is being Cured to ameliorate the impact of the Major Default.

(c) **(Existing Remediation Plan)**: Where the Major Default is a failure by Project Co to achieve Commercial Acceptance by the Date for Commercial Acceptance and Project Co has provided a Remediation Plan in accordance with clause 26.4(d)(ii) or an Amended Remediation Plan in accordance with clause 26.4(i), which has a date by which Commercial Acceptance will be achieved, which is after the Date for Commercial Acceptance, Project Co may submit that Remediation Plan or Amended Remediation Plan (as applicable) as the Cure Program for the Major Default for review in accordance with the Review Procedures.

(d) **(Comply)**: Notwithstanding the fact that it may have exercised its rights under clauses 45.3(c) to 45.3(g), Project Co must comply with the Major Default Notice and any Cure Program provided under clause 45.4(a) or clause 45.4(c) as reviewed by the State Representative in accordance with the Review Procedures.

(e) **(Extension of Major Default Notice)**: Subject to clause 45.4(g), clause 45.4(h) and clause 45.4(l), if Project Co has been diligently pursuing:

(i) if the Major Default is capable of Cure, the Cure of that Major Default; or

(ii) if the Major Default is not capable of Cure, compliance with any reasonable requirements of the State,

Project Co may request that the State extend the Cure Program and the time stated in the Major Default Notice will be extended by such period as the State determines is required (acting reasonably) to enable Project Co to either Cure the Major Default or comply with any reasonable requirements of the State.

(f) **(Request for further information)**: The State may request, and Project Co must provide, any further information reasonably required by the State in respect of Project Co's Cure of the Major Default to enable the State to determine the required extension under clause 45.4(e) (if any).

(g) **(Limitation)**: Unless otherwise agreed by the State, Project Co is only entitled to one extension under clause 45.4(e) in connection with the same Major Default.

(h) **(Maximum Cure period)**: Subject to the Finance Direct Deed and clause 45.5(a), the maximum period of time which Project Co may be given to Cure a Major Default, (or comply with the reasonable requirements of the State where the Major Default is not capable of Cure) including any extension granted under clause 45.4(e)) will be:

(i) if the applicable Major Default occurs during the Initial Phase, 24 Months in the aggregate from the date of the applicable Major Default Notice; or

(ii) if the applicable Major Default occurs during the Maintenance Phase (Full), 18 Months in the aggregate from the date of the applicable Major Default Notice.

(i) **(Milestone Completion in respect of the Dohertys Road Bridge Works)**: Without limiting clause 45.3(b)(iii)(B) or 45.4(a)(ii), if the relevant Major Default is a failure by Project Co to achieve Milestone Completion in respect of the Dohertys
Road Bridge Works by the Dohertys Road Bridge Works Completion Date, the Cure Program must include, as a minimum, a detailed plan setting out the following:

(i) how Project Co intends to achieve Milestone Completion in respect of the Dohertys Road Bridge Works as soon as possible after the Dohertys Roads Bridge Works Completion Date, but in any event, showing Project Co achieving Milestone Completion in respect of the Dohertys Road Works prior to the Vacate Date; and

(ii) if, despite clause 45.4(i)(i), Project Co is unable to achieve Milestone Completion in respect of the Dohertys Road Bridge Works by the Vacate Date, full details of how Project Co will completely demobilise from the Dohertys Road Bridge Works Site by the Vacate Date and to leave the Dohertys Road Bridge Works Site clean and with any damage to the Dohertys Road Bridge Works rectified.

(j) (Project Co to complete Dohertys Road Bridge Works): Nothing in this Deed (including Project Co's obligation under clause 13.7(e) and clause 45.4(i)) derogates from Project Co's obligation to complete the Dohertys Road Bridge Works in accordance with this Deed by the Dohertys Road Bridge Works Completion Date and Project Co waives any Claim against the State in connection with Project Co's obligation to vacate the Dohertys Road Bridge Works Site by the Vacate Date.

(k) (Indemnity): Project Co indemnifies the State, each State Associate and VicRoads from and against any Claim or Liability suffered or incurred by the State, a State Associate or VicRoads as a result of any Claim against the State, a State Associate or VicRoads by WGT Project Co or its Associates in relation to Project Co or any Project Co Associate carrying out the Dohertys Road Bridge Works after the Vacate Date.

(l) (Extension of Major Default Notice and Cure Program for late Dohertys Road Bridge Works completion): If Project Co seeks (and is otherwise entitled to):

(i) an extension of time to a Major Default Notice and Cure Program relating to a Major Default arising as a result of a failure by Project Co to achieve Milestone Completion in respect of the Dohertys Road Bridge Works by the Dohertys Road Bridge Works Completion Date; and

(ii) such extension of time would result in the date for Cure in the Major Default Notice and Cure Program being later than the Vacate Date,

then Project Co will not be entitled to such extension unless Project Co provides written evidence satisfactory to the State confirming that WGT Project Co consents to Project Co either:

(iii) remaining on the Dohertys Road Bridge Works Site; or

(iv) returning to the Dohertys Road Bridge Works Site (on agreed dates or periods),

after the Vacate Date to complete the Dohertys Road Bridge Works.

(m) (Extension to Major Default Notice or Cure Program): Provided that Project Co has complied with the other requirements of clause 45.4(l), the State will grant a reasonable extension of time described in clause 45.4(l)(i) to the extent that:
(i) Project Co demonstrates to the State that compliance with the relevant Major Default Notice or Cure Plan (as applicable) has been delayed by an act or omission of WGT Project Co or any of its Associates;

(ii) Project Co has not caused or contributed to the act or omission; and

(iii) the act or omission is not permitted or authorised under the WGT Direct Interface Agreement.

45.5 Extension of Cure Program for Extension Event or Intervening Event

(a) **(Impact of Extension Event or Intervening Event):** To the extent that Project Co is prevented from carrying out its obligations in accordance with a Cure Program provided under clause 45.4(a) as a direct result of an Extension Event or Intervening Event, then, subject to clause 45.5(b), the State must extend the periods identified in clause 45.4(h) and the time set out in the Major Default Notice:

(i) to reflect the period Project Co is prevented from carrying out its obligations in accordance with the Cure Program as a consequence of that Extension Event or Intervening Event; or

(ii) without limiting clause 42, in respect of loss or damage caused by that Extension Event or Intervening Event for the period from the commencement of that loss or damage until the earlier of the date the necessary repairs or reinstatement have been completed or ought reasonably to have been completed had Project Co complied with its obligations under this Deed,

provided that:

(iii) Project Co is entitled to be granted:

(A) an extension of time under clause 26.9 or clause 26.10 or the Change Compensation Principles; or

(B) relief under clause 32.2 or clause 32.3;

(as applicable) for the relevant Extension Event or Intervening Event; and

(iv) Project Co demonstrates to the State's satisfaction (acting reasonably) that Project Co has diligently pursued and, to the extent reasonably possible, continues to diligently pursue the Cure Program agreed or determined under clause 45.4(a).

(b) **(Limitation on extension):** Project Co will not be entitled to an extension to the periods identified in clause 45.4(h) and the time set out in the Major Default Notice for an Extension Event or Intervening Event beyond the period of any extension of time or relief from performance that Project Co is granted for that Extension Event or Intervening Event under clause 26.9, clause 26.10, clause 32.2 or clause 32.3 (as applicable).

45.6 Default Termination Event

Subject to the Finance Direct Deed, if any Default Termination Event occurs, the State may, without limiting any rights or remedies it has under any State Project Document or at Law (other than rights of termination), elect to:
(a) **(terminate):** terminate this Deed at any time after the occurrence of a Default Termination Event under clause 46.4; or

(b) **(Cure):** exercise its rights under clause 38.2 to Cure or attempt to Cure the Default Termination Event.

### 45.7 Effect of Curing

If a Major Default or Default Termination Event occurs and is Cured by any person, any right to terminate this Deed in respect of that Major Default or Default Termination Event (as the case may be) not exercised prior to it being Cured may not thereafter be exercised.

(c) **(impact on obligations):** the expectations set out in the Supplier Code of Conduct are not intended to reduce, alter or supersede any other obligations which may be imposed on the supplier, whether under this Deed or at Law.

### 61. Taxes

#### 61.1 GST General

(a) **(Revenue):** For the purposes of this clause 61, “Revenue” has the meaning given in clause 61.1(g).

(b) **(GST exclusive amounts):** Unless otherwise expressly stated, all amounts referred to in this Deed are exclusive of GST.

(c) **(GST payable by Supplier):** If GST becomes payable on any Taxable Supply made by a party **(Supplier)** under or in connection with this Deed:

(i) any amount payable or consideration to be provided in accordance with any other provision of this Deed for that supply **(Agreed Amount)** is exclusive of GST;
(ii) an additional amount will be payable by the party which is the recipient of the Taxable Supply (Recipient), equal to the amount of GST payable on that Taxable Supply as calculated by the Supplier in accordance with the GST Law, which will be payable at the same time and in the same manner as for the Agreed Amount; and

(iii) the Supplier will provide a Tax Invoice to the Recipient in connection with that supply, either at the time expressly set out in any other provision of this Deed or no later than the time at which the Agreed Amount for that Taxable Supply is to be provided under this Deed. The Recipient is not obliged to pay any amount in accordance with this clause 61.1(c) unless and until a Tax Invoice is received by the Recipient in connection with the Taxable Supply unless the Recipient is required to issue the Tax Invoice.

(d) (Variation in GST payable): If for any reason, the GST payable by the Supplier in connection with a supply it makes under or in connection with this Deed (incorporating any increasing adjustments or decreasing adjustments relating to that supply) varies from the additional amount it received from the Recipient under clause 61.1(c) in connection with that supply, the Supplier will provide a refund or credit to, or will be entitled to receive from, the Recipient (as applicable) the amount of this variation. If an adjustment event occurs in relation to a supply, and unless the Recipient is required to issue the Adjustment Note:

(i) the Supplier will issue an Adjustment Note to the Recipient in connection with that supply within 14 days after becoming aware of that adjustment event occurring; and

(ii) no additional amount will be payable by the Recipient unless and until an Adjustment Note is received by the Recipient.

(e) (GST ceasing to be payable): No amount is payable by a party in accordance with clause 61.1(c) or clause 61.1(d) to the extent that the GST to which the amount relates has ceased to be payable by or refundable to the Supplier by the Commissioner of Taxation under the GST Law.

(f) (Expert determination): If the Recipient is dissatisfied with any calculation to be made by the Supplier in accordance with this clause 61.1, the Recipient may, at its own expense and after notifying the Supplier accordingly, refer the matter to an independent expert nominated by the President of the Institute of Chartered Accountants for expert determination, which will be final and binding. The expert will act as an expert and not as an arbitrator and must take into account the terms of this Deed, the matters required to be taken into account by the Supplier in accordance with this clause 61 and any other matter considered by the expert to be relevant to the determination. The parties release the expert from any liability in acting as an expert, except in the case of fraud on the part of the expert.

(g) (Revenue net of GST): Any reference in this Deed or any Project Document to price, value, sales, revenue, profit or a similar amount (Revenue), is a reference to the GST exclusive component of that Revenue, unless the contrary intention is expressed.

(h) (Cost net of GST): Any reference in this Deed or any Project Document to cost, expense, liability or other similar amount (Cost) of a party, is a reference to that Cost reduced by the Input Tax Credits to which the party is entitled in respect of such Cost, unless the contrary intention is expressed.

(i) (Construction Payment, Maintenance Phase (Full) Modification Payment and Option Amount): Notwithstanding any other provision in this clause 61.1:
(i) the parties intend that the State will not bear any net costs (including funding costs arising from timing differences) in respect of GST payable on any Taxable Supply to which any Construction Payment, Maintenance Phase (Full) Modification Payment or Option Amount relates;

(ii) the parties will use their reasonable endeavours to obtain and implement an agreement by the Commissioner of Taxation to offset, in the parties’ running balance accounts, Project Co’s liability to pay GST on a Taxable Supply to which any Construction Payment, Maintenance Phase (Full) Modification Payment or Option Amount relates and the State’s entitlement to Input Tax Credits for a Creditable Acquisition to which any Construction Payment, Maintenance Phase (Full) Modification Payment or Option Amount relates. The setting off by the Commissioner of Taxation of these amounts in the parties’ running balance accounts will be taken to satisfy any obligation of the State to pay to Project Co an amount in respect of GST on the relevant Taxable Supply (whether or not the amount set-off is equal to the whole of that GST);

(iii) Project Co must issue the State a Tax Invoice for any Taxable Supply to which the relevant Construction Payment, Maintenance Phase (Full) Modification Payment or Option Amount relates in accordance with clause 41.2(a);

(iv) the State is not obliged to make a payment to Project Co in respect of GST in respect of a Supply to which any Construction Payment, Maintenance Phase (Full) Modification Payment or Option Amount relates on a payment date in accordance with clause 41.2(b) (as applicable) until it has (acting reasonably and in accordance with clause 61.1(i)(iii)) received the benefit of an Input Tax Credit for such GST or other tax liability, credited to the State’s running balance account, being refunded to the State (or a combination of the above);

(v) if the State is denied an Input Tax Credit by the Australian Tax Office, a Court or other appropriate Authority for all or part of the GST in respect of any Construction Payment, Maintenance Phase (Full) Modification Payment or Option Amount, Project Co must reimburse the State for any relevant GST it has paid in excess of its Input Tax Credit entitlement and indemnify the State for an amount equal to any penalty or interests as a result of claiming an Input Tax Credit for the whole of the GST on that Construction Payment, Maintenance Phase (Full) Modification Payment or Option Amount;

(vi) if clause 61.1(i)(v) applies, the State must co-operate with Project Co as reasonably required by Project Co to enable the State and Project Co to discuss with the Australian Tax Office the reasons for the denial of an Input Tax Credit and will take reasonable steps, as reasonably directed by Project Co, to dispute the denial (provided that the obligation to dispute is not a condition precedent to the operation of clause 61.1(i)(v)). Project Co Indemnifies the State for its costs incurred in disputing any denial of an Input Tax Credit;

(vii) if, as a result of clause 61.1(ii)(vi), the State’s entitlement to an Input Tax Credit is increased, the State must promptly pay to Project Co an amount equal to that increase together with any interest to which the State is entitled in relation to that amount;

(viii) the State must take all reasonable steps to ensure it (or the State entity that it is treated as making the supplies and acquisitions under the State
Project Documents for GST purposes) receives the benefit of the Input Tax Credit from the Australian Taxation Office as quickly as possible including:

(A) claiming the Input Tax Credit in the “Business Activity Statement” for the Tax Period to which the Input Tax Credit is attributable;

(B) lodging the Business Activity Statement in which the Input Tax Credit is reported no later than the due date for that Business Activity Statement;

(C) forwarding any queries or correspondence from the Commissioner of Taxation in respect of that Business Activity Statement (but only to the extent that queries or correspondence relates to the relevant Input Tax Credit) to Project Co; and

(D) promptly informing Project Co of any delays or other related issues in respect of the Input Tax Credit;

(ix) if at any time this Deed is terminated, the obligations of the State to pay Project Co any amount in accordance with clause 61.1(i)(iv) continues in full force and effect and is an obligation separate, independent and additional to the State’s obligation to make a Termination Payment in accordance with clause 46.6. Notwithstanding the termination of this Deed, the State is obliged to use reasonable endeavours to obtain the Input Tax Credit and to pay to Project Co each amount in accordance with clause 61.1(i)(iv); and

(x) if at any time this Deed is terminated, the obligation of Project Co to pay the State any amount in accordance with 61.1(i)(v) continues in full force and effect.

(j) (General obligation): Each party agrees to do all things, including providing Tax Invoices and other documentation, that may be necessary or desirable to enable or assist the other party in determining its GST payable on any supply made by that other party in connection with this Deed, or any Input Tax Credits, adjustments or refunds in relation to any amount of GST paid or payable in connection with any supply made in connection with this Deed.

(k) (GST groups): For the purposes of this Deed, a reference to GST payable on a Taxable Supply made by a party includes any corresponding GST payable by the representative member of any GST group of which that party is a member and a reference to an Input Tax Credit entitlement of a party includes any corresponding Input Tax Credit entitlement of the representative member of any GST group of which that party is a member, and if a party to this Deed makes a Taxable Supply by virtue of entering into or performing this Deed and the ‘recipient’ of that Taxable Supply (within the meaning of the GST Act) is an Associate of another party to this Deed that other party to this Deed will be obliged either to pay the amount referred to in clause 61.1(c)(ii) or procure that the actual recipient pays the relevant amount, and the payer of that amount shall be the ‘Recipient’ for the purposes of this clause 61.1 in relation to the relevant Taxable Supply.

(l) (Project Deed to prevail): If, but for this clause 61.1(l), a GST clause in another Project Document would apply in connection with a Taxable Supply to which this clause 61.1 also applies, then this clause 61.1 will apply in connection with that supply and the GST clause in the other Project Document will not apply.
(m) **Definitions**: In this clause 61.1 unless otherwise defined in this Deed, terms used have the meanings given to them in the GST Law.

Each party must promptly do all further acts and execute and deliver all further documents (in such form and content reasonably satisfactory to both parties) required by Law or reasonably requested by the other party to give effect to this Deed.

63.4  Survival of certain provisions

(a)  (Surviving clauses): All provisions of this Deed which, expressly or by implication from their nature, are intended to survive rescission, termination or expiration of this Deed will survive the rescission, termination or expiration of this Deed, including any provision in connection with:

(i) the State's rights to set-off and recover amounts;
(ii) confidentiality or privacy;
(iii) Intellectual Property Rights;
(iv) any obligation to make any books and accounts and all other records or information available to the State;
(v) any indemnity, release or financial security given under this Deed;
(vi) any limitation on Liability; and
(vii) any right or obligation arising on termination or expiry of this Deed.

(b)  (Interpretation): No provision of this Deed which is expressed to survive the termination, rescission or expiration of this Deed will prevent any other provision of this Deed, as a matter of interpretation, also surviving the termination, rescission or expiration of this Deed.

(c)  (Survival of rights and obligations): No right or obligation of any party will merge on completion of any transaction under this Deed. All rights and obligations under this Deed survive the execution and delivery of any transfer or other document which implements any transaction under this Deed.

63.5  Waiver

(a)  (Writing): Other than where the waiver is already given expressly in the terms of this Deed, a waiver that may be given by a party under this Deed, is only effective and binding on that party if it is given or confirmed in writing by that party.

(b)  (No waiver): A failure to exercise or enforce, a delay in the exercise or enforcement of or the partial exercise or enforcement of a right provided by Law by a party does not preclude, or operate as a waiver of, the exercise or enforcement, or further exercise or enforcement, of that or any other right provided by Law or under this Deed.

(c)  (No waiver of another breach): No waiver of a breach of a term of this Deed operates as a waiver of another breach of that term or of a breach of any other term of this Deed.
63.6 **Consents and approvals**

A consent or approval required under this Deed from the State may be given or withheld, or may be given subject to any conditions, as the State thinks fit, unless otherwise expressly provided in this Deed.

63.7 **Amendments**

(a) **(Deed):** Unless otherwise expressly provided in this Deed, this Deed may only be amended by a deed executed by or on behalf of each party.

(b) **(Other State Project Documents):** Except as otherwise expressly provided in the relevant State Project Documents, no amendment to any other State Project Document is valid or binding on a party unless made in writing and executed by the State and all other parties to the relevant State Project Document.

63.8 **Expenses**

Unless otherwise expressly provided in this Deed, each party must pay its own costs and expenses in connection with negotiating, preparing, executing and performing this Deed.

63.9 **Severance**

If, at any time, a provision of this Deed is or becomes illegal, invalid or unenforceable in any respect under the Law of any jurisdiction, that will not affect or impair the legality, validity or enforceability of:

(a) **(provisions):** any other provision of this Deed; or

(b) **(other jurisdictions):** that provision under the Law of any other jurisdiction.

63.10 **Counterparts**

This Deed may be executed in any number of counterparts and by the parties in separate counterparts. Each counterpart constitutes the deed of each party who has executed and delivered that counterpart. All such counterparts taken together will be deemed to constitute one and the same Deed.

63.11 **Moratorium legislation**

Project Co waives, and will procure that each Key Subcontractor waives, any right or remedy it may have under any Law which comes into effect after the date of this Deed if the exercise of such right or remedy would:

(a) **(no reduction):** lessen any obligation or Liability of Project Co; or

(b) **(no prejudice):** prejudicially affect the rights, powers or remedies of the State, under a State Project Document to which it is a party.

63.12 **PPSA**

Project Co acknowledges and agrees that:

(a) **(State’s rights):** if and to the extent that the State at any time forms a belief on reasonable grounds that the State is, or will become, a secured party in connection with this Deed or any other State Project Document or any transaction
contemplated by this Deed or any other State Project Document, the State may at Project Co’s expense take all steps that the State considers advisable to:

(i) perfect, protect, record, register, amend or remove the registration of, the State’s Security Interest in any relevant personal property that is the subject of this Security Interest (Relevant Personal Property); and

(ii) better secure the State’s position in respect of the Relevant Personal Property under the PPSA;

(b) (Key Subcontractor to assist the State): it will do, and ensure that each Key Subcontractor and the Management Services Contractor does, all things reasonably necessary to assist the State to take the steps described in clause 63.12(a);

(c) (waiver of right to receive any verification statement): it irrevocably and unconditionally waives, and will ensure that each Key Subcontractor and the Management Services Contractor irrevocably and unconditionally waives, its right to receive any verification statement in respect of any financing statement or financing change statement relating to any Security Interests of the State in the Relevant Personal Property;

(d) (excluded PPSA sections): if, and only if, the State is or becomes a secured party in relation to Relevant Personal Property, and to the extent only that Chapter 4 of the PPSA would otherwise apply to an enforcement of a Security Interest in Relevant Personal Property, Project Co and the State agree, and Project Co will ensure that each Key Subcontractor and the Management Services Contractor agrees, that, pursuant to section 115 of the PPSA, the following provisions of the PPSA do not apply in relation to those Security Interests to the extent, if any, mentioned in section 115, section 117, section 118, section 120, subsection 121(4), section 125, section 129, section 130, subsection 132(3)(d), subsection 132(4), section 142, and section 143;

(e) (no disclosure): subject to section 275(7) of the PPSA, it will not, and it will ensure that each Key Subcontractor and the Management Services Contractor does not, disclose the contents of this Deed, the amount or performance obligation secured by the State’s Security Interest in Relevant Personal Property and the other information mentioned in section 275(1) of the PPSA pursuant to section 275(4) of the PPSA;

(f) (Project Co to notify the State): other than in relation to Security Interests arising in the ordinary course of the Project Activities and Security Interests described in section 12(d) of the PPSA of which Project Co is the grantor (but only where the interest does not secure payment or performance of an obligation) it must immediately notify the State if Project Co, a Key Subcontractor or the Management Services Contractor becomes aware of any person other than the State taking steps to register, or registering, a financing statement in relation to Relevant Personal Property; and

(g) (removal of registered security interest): it must arrange, and ensure that each Key Subcontractor and the Management Services Contractor arranges, for the removal or cessation of any registration of any Security Interest that affects the priority of the State’s interest in Relevant Personal Property.

For the purposes of this clause 63.12, ‘registration’, ‘secured party’, ‘verification statement’, ‘financing statement’, ‘personal property’ and ‘financing change statement’ each have the meaning given to those terms in the PPSA.

Annexure A Lane Access Adjustment

A.1 Lane Access Points

(Lane Access Points): To identify the Lane Access Points for a Lane Closure or Lane Speed Reduction as applicable:

(a) For a Lane Closure, take the Lane Closure Units for that Lane Closure and multiply them by the applicable number of points contained in the tables in this Annexure A subject to whether it is a Peak, Inter peak or Off Peak (Table 5) and Permitted, Non-Permitted or Unplanned Access (Tables 2, 3 and 4); and

(b) For a Lane Speed Reduction, take the Lane Speed Reduction Units for that Lane Speed Reduction and multiply them by the applicable number of points contained in the tables in this Annexure A subject to whether it is a Peak, Inter Peak or Off Peak (Table 5) and Permitted, Non-Permitted or Unplanned Access (Tables 2, 3 and 4).

Where a Lane Closure Unit or Lane Speed Reduction Unit occurs across Time Factor Periods the points attributed to that unit will reflect the higher points allocation of the two Time Factor Periods.

For Permitted Lane Access, the number of points shall be allocated based on Table 2 (Permitted Lane Access Points) outlined below.

A.2 Review of Time Factor periods and Lane Access Points Tables

1. (Review by the State): No later than [not disclosed] prior to the end of each Revision Period, the State may (in consultation with Project Co) review and adjust the Time Factor Periods Table (Table 5) or the Lane Access Points Tables (Tables 2, 3 or 4) having regard to the factors set out in section A.2.2.

2. (State may increase or decrease): The State may increase or decrease any of the Lane Access Points (in Tables 2, 3 or 4) or extend or minimise the allocated times in the Time Factor Periods Table (Table 5):
   
   (a) for any given Lane Access;
   
   (b) in accordance with:
      
      (i) current or anticipated changes in traffic patterns on different roads; and
      
      (ii) the objective of minimising disruption to traffic
(c) so that the period of time during which the Time Factor Periods expressed as Inter Peak or Peak will not increase by more than [not disclosed], as compared to the Time Factor Periods immediately prior to the revision; and

(d) the total accumulated Lane Access Points over an entire weekly period (taking into consideration the Time Factor Periods above) do not increase by more than [not disclosed]% as compared to the total accumulated Lane Access Points immediately prior to the revision.

3. **(Notification):** No later than [not disclosed] to the end of each Revision Period, the State must provide Project Co with either:

   (a) revised versions of; or

   (b) a notice stating that it does not intend to amend,

   the Time Factor Periods or Lane Access Points.

4. **(Effect):** The amendments (if any) to the Time Factor Periods or Lane Access Points provided to Project Co in accordance with section A.2.2 will take effect from the commencement of the first Quarter following the relevant Revision Date.

5. **(Dispute):** If Project Co disagrees with the revised versions of the Time Factor Periods or Lane Access Points provided by the State in accordance with section A.2.2, then Project Co:

   (a) must, within [not disclosed] of receipt of the revised Time Factor Periods or Lane Access Points from the State, give notice of its disagreement to the State;

   (b) must consult in good faith with the State and use reasonable endeavours to resolve the matter of the disagreement; and

   (c) if the matter is not resolved within [not disclosed] after the date of Project Co's notice under section A.2.3, Project Co may, by notice to the State, refer the matter for determination in accordance with clauses 48 to 50 of this Deed.

### A.3 Development Lane Closure, Initial Rehabilitation Works Lane Closure, Development Lane Speed Reduction and Initial Rehabilitation Works Lane Speed Reduction

For the purposes of determining a Development Lane Closure, an Initial Rehabilitation Works Lane Closure, a Development Lane Speed Reduction or an Initial Rehabilitation Works Lane Speed Reduction, Project Co must adhere to section 2 of Part H18 of the PSDR. This section A.3 outlines when a Permitted Lane Access, Non-Permitted Lane Access and an Unplanned Lane Access occurs in respect of a Development Lane Closure, an Initial Rehabilitation Works Lane Closure, a Development Lane Speed Reduction or an Initial Rehabilitation Works Lane Speed Reduction.

#### A3.1 Permitted Lane Access

A Development Lane Closure, an Initial Rehabilitation Works Lane Closure, a Development Lane Speed Reduction or an Initial Rehabilitation Works Lane Speed Reduction can only be considered a Permitted Lane Access if Project Co adheres to the requirements of section 2.2(a) in Part H18 of the PSDR.
Permitted Lane Access Points are determined in accordance with Table 2 (Permitted Lane Access Points).

### A3.2 Non-Permitted Lane Access

If a Development Lane Closure, an Initial Rehabilitation Works Lane Closure, a Development Lane Speed Reduction or an Initial Rehabilitation Works Lane Speed Reduction is a Non-Permitted Lane Access, it must adhere to section 4 of Part H18 of the PSDR.

Non-Permitted Lane Access Points are determined in accordance with Table 3 (Non-Permitted Lane Access Points).

### A3.3 Unplanned Lane Access

If a Development Lane Closure, an Initial Rehabilitation Works Lane Closure, a Development Lane Speed Reduction or an Initial Rehabilitation Works Lane Speed Reduction is an Unplanned Lane Access, it must adhere to section 7 of Part H18 of the PSDR.

Unplanned Lane Access Points are determined in accordance with Table 4 (Unplanned Lane Access Points).

In any circumstance during the Initial Phase where Project Co has scheduled to allow for at least one Lane to be open for through traffic in any single direction and in fact closes all Lanes or does not provide a Lane for through traffic (in any single direction) on any Project Roads set out in (a) to (g) below, the Peak points rate for Unplanned Lane Access set out in Table 4 (Unplanned Lane Access Points) will apply to those applicable Lane Closures regardless of the time the Lanes are closed.

(a) Dunnings Road;
(b) Palmers Road;
(c) Derrimut Road;
(d) Leakes Road;
(e) Dohertys Road;
(f) Forsyth Road; and
(g) Duncans Road.

### A.4 Maintenance Lane Closure and Maintenance Lane Speed Reduction

For the purposes of determining a Maintenance Lane Closure or Maintenance Lane Speed Reduction, Project Co must adhere to Section 3 of Part H18 of the PSDR. This section A.4 outlines when a Permitted Lane Access, Non-Permitted Lane Access or an Unplanned Lane Access occurs in respect of a Maintenance Lane Closure or a Maintenance Lane Speed Reduction.
A.4.1 Permitted Lane Access

A Maintenance Lane Closure or Maintenance Lane Speed Reduction can only be considered a Permitted Lane Access, if it adheres to the requirements of section 3.2(a) in Part H18 of the PSDR.

Permitted Lane Access Points are determined in accordance with Table 2 (Permitted Lane Access Points).

A.4.2 Non-Permitted Lane Access

If a Maintenance Lane Closure or Maintenance Lane Speed Reduction is a Non-Permitted Lane Access, it must adhere to the requirements of section 4 in Part H18 of the PSDR.

Non-Permitted Lane Access Points are determined in accordance with Table 3 (Non-Permitted Lane Access Points).

A.4.3 Unplanned Lane Access

If a Maintenance Lane Closure or Maintenance Lane Speed Reduction is an Unplanned Lane Access, it must adhere to section 7 of Part H18 of the PSDR.

Unplanned Lane Access Points are determined in accordance with Table 4 (Unplanned Lane Access Points).
Annexure B  Performance Abatements

B.1  General overview of the KPIs

1. **(Purpose):** This Annexure B sets out the KPIs applied during the Initial Phase and Maintenance Phase in order to measure Project Co’s performance.

2. **(Summary):** The KPIs set out in the KPI Summary of this Annexure B are separated into 7 categories, being:
   
   1. Inspections;
   2. Response;
   3. Compliance;
   4. Pavement performance;
   5. Structures performance;
   6. Reporting; and
   7. Safety.

3. **(Minimum Performance Outcome):** The minimum performance outcomes required of Project Co for each KPI are detailed in Table 6 (KPI Summary) in the ‘Performance Target’ column. Project Co is to meet or exceed (where relevant) the Performance Target defined for each KPI in order to avoid incurring Performance Abatements.

4. **(Performance Target):** In assessing Project Co’s performance against the Performance Targets, all numbers will be rounded down to the next whole number.

5. **(Not to derogate from KPI Table):** Project Co acknowledges and agrees that the contents of this section B.1 of this Annexure B:
   
   (a) do not derogate from Project Co’s obligations under the State Project Documents; and
   
   (b) are not an exhaustive list of the performance standards and outcomes Project Co may be required to achieve to meet the KPIs and its obligations under the Project Documents.

6. **(KPI Summary to prevail to the extent of any inconsistency):** If there is any conflict or inconsistency between this section B.1 of this Annexure B and the KPI Summary, the KPI Summary will prevail.

7. **(Measurement Method):** Where specified in the KPI Summary, Project Co must monitor compliance with KPIs. Project Co’s reporting requirements in respect of the KPIs are set out in the Deed.

B.2  Calculation of Performance Points for each Quarter

**Performance Points:** For the purposes of section 5, the Performance Points (PPs) incurred by Project Co for a KPI Incident are determined in accordance with the KPI Summary in Table 6.
B.3  Calculation of Performance Point Ratchet for each Quarter

1. **(Calculation)**: Where Project Co has accumulated Performance Points in relation to a KPI Incident and Table 6 provides that a Performance Point Ratchet applies, the Performance Point Ratchet for a relevant Quarter, in respect of that KPI (PPR), is:

   (a) [not disclosed], if Project Co did not incur Performance Points for the immediately preceding Quarter in respect of the same KPI;

   (b) [not disclosed], if it is the [not disclosed] consecutive Quarter in which Project Co has incurred Performance Points for the same KPI;

   (c) [not disclosed], if it is the [not disclosed] consecutive Quarter in which Project Co has incurred Performance Points for the same KPI; or

   (d) [not disclosed], if it is the [not disclosed] consecutive Quarter in which Project Co has incurred Performance Points for the same KPI.

2. **(Calculation for subsequent consecutive Quarters)**: If Performance Points are accumulated by Project Co for a [not disclosed] and any subsequent consecutive Quarter for the same KPI, then the Performance Point Ratchet for the [not disclosed] and each subsequent consecutive Quarter will be calculated at a rate of [not disclosed]% of the Performance Point Ratchet for the previous Quarter.

B.4  KPI Summary

**(Overview)**: The information contained in the KPI Summary Table 6 is presented in the manner described in the following paragraphs:

1. The first column of the KPI Summary, headed "No." allocates a reference number for each KPI.

2. The second column of the KPI Summary, headed "KPI", describes each KPI that Project Co is required to meet or exceed (where relevant), and also provides a reference to the key documents specifying each KPI requirement.

3. The third column of the KPI Summary, headed "Measurement Method and Frequency", sets out the KPI measuring methods and frequencies that will be adopted to determine Project Co's performance against each KPI.

4. The fourth column of the KPI Summary, headed "Performance Assessment Period", sets out the frequency of the calculation of Performance Abatements in respect of the KPI.

5. The fifth column of the KPI Summary, headed "Performance Target", sets out the level of performance below which non-compliance is deemed to occur.

6. The sixth column of the KPI Summary, headed "Performance Failure", sets out the number of Performance Points incurred by Project Co in respect of each KPI Incident provided that Project Co’s actual level of performance is below the Performance Target within the nominated KPI category or level.

7. The seventh column of the KPI Summary, headed "Ratchet", sets out whether the ratchet is applied against the respective KPI for multiple Quarterly failures where Project Co’s actual level of performance is below the Performance Target for consecutive periods.
8. The headings shaded grey and set out at the beginning of each KPI category in the KPI Summary are for guidance only. Project Co is only required to meet those KPIs that are allocated Performance Points.

### Part F7 of the PSDR and the Code of Maintenance Standards

An individual non-compliance is an inspection programmed for a structure, for a specific Quarter and not completed during the designated Quarter or not conducted in accordance with the requirements set out in section 8.2(b)(i)(B) of Part F7 and section 8.3(b)(ii) of Part F7 of the PSDR and the Code of Maintenance Standards. Where the Performance Target is not met, each individual non-compliance below the target will result in an individual KPI Incident. PSDR reference: section 8.2(b)(i)(B) of Part F7 and section 8.3(b)(ii) of Part F7 of the PSDR and the Code of Maintenance Standards.

### Project Co monitor / Quarterly reporting

- **Performance Target**: Quarterly 
- **Performance Failure**: Incremental calculation based on the hazard intervention rate band:
  - [not disclosed]% per KPI Incident if the hazard intervention rate during the Quarter is below [not disclosed]% but above or equal to [not disclosed]%. 
  - [not disclosed] PP(s) per KPI Incident if the hazard intervention rate during the Quarter is below [not disclosed]%. 
  - [not disclosed] PP(s) per KPI Incident if the hazard intervention rate during the Quarter is below [not disclosed]%. 
  - [not disclosed] PP(s) per KPI Incident if the hazard intervention rate during the Quarter is below [not disclosed]%. 

The term ‘hazard intervention rate’ means the total number of hazard interventions performed by Project Co during the Quarter in accordance with the PSDR divided by the total number of hazard interventions to which Project Co was required to respond to and complete during that Quarter in accordance with the PSDR.

See Note 1 below.
### 2.2 Defect Response

### Pavement Performance

#### 4.1 Roughness – Network based

During the Maintenance Phase (Initial), Project Co must ensure roughness limits set out in section 8.2(a)(ii) of Part F7 of the PSDR, are as a minimum achieved for pavement on the Project Roads.

During the Maintenance Phase (Full), Project Co must as a minimum achieve the roughness limits set out in section 8.3(a)(ii)(A) of the PSDR, for pavement on the Project Roads.

An individual KPI Incident will occur for each performance band failure to achieve the minimum roughness requirements during the Quarter that Project Co is required to release the relevant test results.

Each subsequent Quarter that the failure is not rectified will result in a KPI Incident until the next annual test result is released.

For the purposes of this KPI 4.1, Project Roads will not include the WGT Heavy Haulage Routes until the WGT Heavy Haulage Routes Date for Completion.

3.1 General

(a) Project Co’s or the State’s entitlement to compensation for a Change Compensation Event (as applicable) that occurs during the Initial Phase and the amount of entitlement will depend on:

(i) the type of Change Compensation Event that has occurred; and

(ii) the actual consequences of that Change Compensation Event (for example whether the Change Compensation Event results in additional Costs or Savings being incurred during the Initial Phase, or will require Project Co to incur additional Costs or will result in Savings during the Maintenance Phase (Full)).

(b) Those Change Compensation Events that may occur during the Initial Phase for which Project Co is entitled to compensation, together with the components of such compensation, are set out in Table 1.

(c) Project Co is only entitled to be compensated, including for any Base Costs, Agreed Margin, Prolongation Costs, Maintenance Phase (Initial) Force Majeure Event Costs or Initial Phase Finance Amounts for a Change Compensation Event that occurs during the Initial Phase to the extent that such Base Costs, Agreed Margin, Prolongation Costs, Maintenance Phase (Initial) Force Majeure Event Costs or Initial Phase Finance Amounts are identified as being payable for the relevant Change Compensation Event in Table 1.

(d) Where any Initial Phase Finance Amount calculated in accordance with the Change Compensation Principles has been paid by the State to Project Co in accordance with this Deed, on the occurrence of the achievement of Commercial Acceptance, the Financial Model must be varied in accordance with clause 53.3(d).

3.2 Formula for compensation during the Initial Phase

Unless this Deed expressly states otherwise, the amount payable (AP) in respect of a Change Compensation Event which occurs during the Initial Phase is calculated as follows:

[not disclosed]

3.3 How to calculate Base Costs plus Margin (BCM) during the Initial Phase

(a) If a Change Compensation Event occurs during the Initial Phase for which Project Co is entitled to be paid Construction Base Costs, then:

[not disclosed]

(b) If a Change Compensation Event occurs during the Initial Phase for which Project Co is entitled to be paid Maintenance Base Costs during the Maintenance Phase, then:
If a Change Compensation Event that occurs during the Initial Phase for which Project Co is entitled to be paid Construction Base Costs in the Initial Phase and additional Maintenance Base Costs in the Maintenance Phase, for the purposes of section 3.2, BCM will be the aggregate of the amounts calculated in sections 3.3(a) and 3.3(b).

5. How to calculate Savings during the Initial Phase or the Maintenance Phase (Full)

(c) **(Agreed Margins):** To calculate any Savings payable under this Schedule, the Savings (net of any Agreed Margins) will be multiplied by the applicable Agreed Margins. The Agreed Margins included in the calculation of any Savings must be no less than the amount of the Agreed Margins referred to in Table 2 or Table 3, as applicable.
6. Rules for calculating compensation

6.1 General rules

The extent (if any) to which compensation will be payable by the State to Project Co for a Change Compensation Event in accordance with this Schedule, will be determined as follows:

(a) (overriding considerations): the overriding considerations will be that:

(i) the State is receiving value for money;

(ii) sufficient information is provided to demonstrate that the compensation amount is fair and reasonable and is calculated in a transparent manner; and

(iii) Project Co should be resourced in accordance with its Bid Project Plans and is not entitled to additional compensation to the extent those resources are utilised or should have been utilised to address the Change Compensation Event;

(b) (time value of money):

(i) appropriate regard must be given to the time value of money and timing of cash flows;

(ii) all cash flows must be discounted or inflated to reflect when they occur (if applicable); and

(iii) the present value of any lump sum amount paid to Project Co will take account of how Project Co intends to use those funds prior to expending them on the relevant Change Compensation Event including any interest likely to be earned on those funds;

(c) (open book basis):

(i) Project Co must and must procure that the Project Co Associates:

A. prepare and provide all information referred to in this Schedule on an open book basis in accordance with section 6.1(c)(ii);

B. if required by the State, make available the appropriate personnel to explain the basis on which a particular calculation has been made; and

C. allow the State to review and undertake audits to enable it to verify compliance with this Schedule in respect of the information referred to in section 6.1(c)(ii),

in order to enable the State to make an accurate assessment of Costs and Savings in accordance with this Schedule; and

(ii) "open book basis" means Project Co:
A. providing a reasonable breakdown of the calculation of all relevant preliminaries, labour, consultant fees, equipment, materials, subcontract, finance and other Costs, Margins and receipts of Project Co and the Project Co Associates in a clear and transparent manner;

B. using best endeavours to provide a breakdown of any compensation payable under any relevant Subcontracts directly with a Key Contractor or Significant Subcontractor; and

C. providing other information reasonably requested by the State including reasonably available source documents required to verify such calculation;

(d) (Project Co’s role): Project Co must not subcontract the management of a Change Compensation Event without the consent of the State;

(e) (no double counting): in calculating any amount under this Schedule there will be no double counting;

(f) (not part of scope): as part of providing a Change Response, Project Co must demonstrate that the additional or varied work or services that it has provided or proposes to provide as a consequence of the relevant Change Compensation Event, for which it seeks compensation in accordance with these Change Compensation Principles, do not form part of the Project Activities at the time of the relevant Change Compensation Event;

(g) (Augmentation): these Change Compensation Principles (including the entitlements to Margins) do not apply to Augmentations unless expressly stated in the Augmentation Process Schedule; and

(h) (obligations under Project Deed relevant to CCE): nothing in this Schedule limits Project Co's obligations or liabilities in respect of the relevant Change Compensation Event as otherwise set out in this Project Deed including any conditions precedent that Project Co must satisfy before it is entitled to any compensation for that Change Compensation Event in accordance with these Change Compensation Principles.

6.2 Specific rules

The following rules for calculating compensation payable (if any) in respect of a Change Compensation Event apply:

(a) (Relief Events): for any Change Compensation Events that are Relief Events, compensation will be calculated subject to clause 43.10(a) of this Deed;

(b) (Insured Risk): for any Change Compensation Events that are Insured Risks, compensation will be calculated subject to clause 43.10(b) of this Deed;

(c) (GST): unless otherwise specifically agreed, any reference in the Change Notice or any other document pursuant to this Schedule to cost, price, value, sales, revenue, rates, fees or a similar amount will be a reference to that amount exclusive of GST;
(d) **(Margins):** except where Project Co is expressly entitled to be paid an Agreed Margin, the State will not pay or otherwise compensate Project Co for any Margin of Project Co or a Key Contractor (or loss of Margin of Project Co or a Key Contractor);

(e) **(Margin excluded from Base Costs):** Base Costs must not include:

(i) any Margin for Project Co, the D&C Contractor, the Services Contractor or any other contractor engaged by Project Co to carry out the works or services the subject of the relevant Change Compensation Event; or

(ii) Prolongation Costs, Initial Phase Finance Amounts or Maintenance Phase (Full) Force Majeure Event Costs;

(f) **(no Base Costs for Project Co):** other than Consultant Costs, the additional costs incurred by Project Co for managing the relevant Change Compensation Event or otherwise are included in the Project Co Margin and no costs incurred by Project Co in respect of the Change Compensation Event other than Consultant Costs can be included in the Base Costs unless otherwise agreed by the State;

(g) **(Defect rectification):** notwithstanding anything else in this Deed, to the extent that Project Co:

(i) is granted an extension of time under clause 26.9 or clause 26.10 of this Deed; or

(ii) is granted relief under clause 32.2 or clause 32.3 of this Deed,

in relation to any of its Defect rectification obligations, Project Co will not be entitled to any compensation under these Change Compensation Principles;

(h) **(reasonably and properly incurred):** it is a condition precedent to Project Co's entitlement to the payment of any Base Costs, Prolongation Costs, Initial Phase Finance Amounts or Maintenance Phase (Full) Force Majeure Event Costs under these Change Compensation Principles that such costs were or will be reasonably and properly incurred by the relevant party to whom the costs are payable;

(i) **(Key Contractors and Competitive Tender):** where:

(i) Project Co is required to conduct a Tender Process in accordance with these Change Compensation Principles for the relevant Change Compensation Event in accordance with section 8; and

(ii) the D&C Contractor or Services Contractor is the successful respondent in the Tender Process,

(j) \textbf{(Corporate financing or financial administration costs excluded from Base Cost):} Base Costs must exclude any costs related to movements in working capital, or costs related to drawing on corporate debt facilities generally; and

(k) \textbf{(Uninsurable Risks):} where Insurance proceeds would have been payable in respect of an event for which Project Co is entitled to compensation in accordance with Table 1, but the event is an Uninsurable Risk, the amount payable by the State will not, in the aggregate, exceed the amount that is equal to the insurance proceeds that would have been payable under the relevant Insurances that would have applied had the event continued to be insurable under those Insurances.

6.3 \textbf{Annual review of ongoing compensation}

(a) \textbf{(Annual review):} Subject to sections 6.3(d) and 6.3(e), if compensation for a Change Compensation Event has been made by an increase or decrease in the Service Payment under section 7(a), the amount of the compensation will be subject to annual review at the end of each Financial Year in accordance with this section 6.3.

(b) \textbf{(Adjustment to Services Payment):} To the extent that, on any such review, the ongoing net Costs or net Savings arising as a consequence of any Change Compensation Event differ from the net Costs or net Savings for which compensation was first made through the Service Payment in accordance with the Change Compensation Principles or the amount of compensation as adjusted on any prior review and re-assessment under this section 6.3, the Service Payment will be adjusted to take account of this difference for the remainder of the Term.

(c) \textbf{(Time of review):} No later than one month prior to the end of each Financial Year, Project Co must:

(d) \textbf{(Refinancing):} To the extent that any compensation is to accommodate the costs incurred by Project Co or Finance Co for financing a Change Compensation Event, this compensation will not be subject to review in accordance with this section, but will be governed by the provisions of this Deed dealing with Refinancings.

(e) \textbf{(Reasonably foreseeable):} Where the annual review under section 6.3(a) will result in an increase in the Service Payment, Project Co will not be entitled to any such increase unless Project Co can demonstrate to the satisfaction of the State (acting reasonably) that:
(i) the increase in the Service Payment could not reasonably have been foreseen by a party performing activities similar to the Project Activities in accordance with Best Maintenance Practices; or

(ii) if an increase in the Service Payment was reasonably foreseeable in accordance with section 6.3(e)(ii), the amount of the increase could not reasonably have been foreseen by a party performing activities similar to the Project Activities in accordance with Best Maintenance Practices, as at the date on which Project Co issued the first Change Notice for the relevant Change Compensation Event.

7. Timing of compensation

(a) (Timing): If a Change Compensation Event:

(i) results in an amount owing from Project Co to the State:

A. during the Initial Phase, the State will deduct such amount from the Service Payments payable to Project Co after the relevant Change Compensation Event, or if no subsequent Service payments are payable to Project Co, such amount will be a debt due and payable by Project Co to the State;

B. during the Maintenance Phase (Full), the State may elect to:

1) receive such payment as a lump sum, in which case the amount will be a debt due and payable by Project Co to the State and payment must be made in accordance with the Change Response; or

2) deduct that amount from the Service Payments payable to Project Co after the relevant Change Compensation Event, or if there are insufficient subsequent Service Payments payable to Project Co to cover the amount owing then the balance of the amount not deducted from the Service Payments will be a debt due and payable by Project Co to the State and payment must be made in accordance with the Change Response; and

(ii) results in an amount owing from the State to Project Co that is not, or is not able to be, financed by Project Co in accordance with section 7(c), the State must pay that amount to Project Co:

A. subject to sections 7(a)(ii)B and 7(a)(ii)C, in accordance with the payment arrangements set out in the Change Response which could include a lump sum payment, monthly or quarterly in arrears, a series of milestone payments or an adjustment to the Service Payment (or a combination of these methods):
B. in respect of the Initial Phase Finance Amounts, on the dates which the State would have paid the Service Payment had Commercial Acceptance not been delayed by the relevant Change Compensation Event; or

C. in respect of Maintenance Phase (Full) Force Majeure Event Costs, on the dates which the State would have paid the Service Payment but for Abatement in accordance with this Deed as a direct result of the relevant Change Compensation Event; or

(iii) results in an amount owing from the State to Project Co that is financed by Project Co in accordance with sections 7(c)(ii) or 7(c)(iii), in addition to the amount payable by the State to Project Co under section 3 or section 4, the State must pay Project Co in respect of such financing, the financing costs agreed to be paid by the State in accordance with the payment arrangements set out in the Change Response.

(ii) to the extent any Savings referred to in section 7(c)(i) are unavailable or exhausted, using (including indirectly) any standby facility that may be available to Project Co or Finance Co; and

(iii) to the extent any Savings and any standby facilities referred to in section 7(c)(i) or section 7(c)(ii) are unavailable or exhausted, arranging for additional funding under the Finance Documents and from other sources (if permitted under the Finance Documents).

(d) **(Adjustment to Securitised Licence Structure):** If the State has requested Project Co to finance the Change Compensation Event, Project Co must calculate the increase (which only represents the amount payable to Project Co under sections 3.1 or 4.1 plus the amounts payable by any Project Entity to the Financiers in respect of the relevant Change Compensation Event) to:

(i) the relevant Construction Payments and the Maintenance Phase (Full) Modification Payment (as applicable) required to be paid by the State to Project Co; and

(ii) the revised Initial Licence Fee or Maintenance Phase Licence (Full) Fee under the Initial Licence or the Maintenance Phase Licence (Full) (as applicable) as determined in accordance with clause 41 of this Deed, such that the amount payable by Finance Co in respect of that Change Compensation Event under the Receivables Purchase Deed will equal the increase to the Construction Payment or Maintenance Phase (Full) Modification Payment (as applicable).
8. **Tendering Requirements and Process**

(a) **(Project Co to carry out tender process):** Project Co must carry out, or must, if agreed to by the State, procure that the relevant Key Contractor carries out a tender process in respect of a Change Compensation Event in accordance with this section 8 if at any time:

(i)  an event or circumstance is expressed in this Deed to be a Change Compensation Event (other than a Minor Modification); or

(ii)  Project Co is entitled or required to submit a Change Notice to the State in respect of an event or circumstance, then, as a condition precedent to making a Claim in respect of such event or circumstance, or obtaining any relief or compensation in respect of the event or circumstance, Project Co must prepare and submit to the person to whom the Change Notice is required to be given under this Deed (as applicable) (each a Change Notice Recipient), a Change Notice:

(iii)  within the time specified in this Deed; or

(iv)  if no time is specified in this Deed, within 20 Business Days after the earlier of the date on which Project Co:

(c)  Multiple and simultaneous events: Where an event gives rise to more than one type of Change Compensation Event or a Change Compensation Event gives rise to different entitlements under these Change Compensation Principles, (for example, where a Change Compensation Event is a Compensable Extension Event for which Project Co is entitled to Prolongation Costs and Initial Phase Finance Amounts and is also a different Change Compensation Event for which Project Co is entitled to Construction Base Costs and Margin), Project Co is only required to issue one Change Notice for the relevant event which must include and clearly identify each Change Compensation Event and all entitlements claimed under the Change Compensation Principles for each of those Change Compensation Events (including any extension of time) and must be submitted within the earliest relevant time specified under this Deed.
(d) **Meeting**: Except where this Deed otherwise expressly provides, within 10 Business Days after the State's receipt of Project Co's Change Notice, the State, any other Change Notice Recipient and Project Co must meet to discuss the Change Notice and may agree:

(i) Project Co's or the State's entitlement in respect of the relevant Change Compensation Event, in which case the person who is required to respond to the Change Notice under this Deed (the *Reviewing Party*) will issue a Change Response in accordance with that agreement;

(v) anything else relevant to the relevant Change Notice or Change Compensation Event.

(e) **Further notices**: If the Change Compensation Event upon which the Change Notice is based is continuing and the parties have been unable to reach an agreement relevant to updating the Change Notice, within 20 Business Days after the State's receipt of Project Co's initial Change Notice, Project Co must, prepare and submit to the relevant Change Notice Recipients an updated Change Notice:

(i) within the time specified in this Deed; or

(ii) if no time is specified in this Deed, every 20 Business Days (or such longer period determined by the Reviewing Party (acting reasonably), having regard to the extent and nature of the relevant Change Compensation Event and its effects and the information required to be included in the updated Change Notice) for the period of the Change Compensation Event where it continues beyond the issue of the initial Change Notice.

(f) **Further information**: If the parties are unable to agree a process for providing further information to the Change Notice Recipients in respect of the Change Compensation Event, Project Co must provide any such information requested by the State within the timeframe determined by the State (acting reasonably).

(g) **Provision of Change Notice to the State**: If Project Co is required to submit a Change Notice in accordance with this Deed, to a Change Notice Recipient who is not the State, Project Co must, at the same time as it submits a Change Notice, or any other information in respect of that Change Compensation Notice to a Change Notice Recipient, provide the State with a copy of that Change Notice or further information (as the case may be).
9.2 State may request a Change Notice

(i) the State believes that a Change Compensation Event has occurred; and

(ii) Project Co has not submitted a Change Notice in accordance with section 9.1,

(b) Project Co must prepare and submit a Change Notice in accordance with section 9.1 within 20 Business Days after receipt of a Change Notice Request (or such longer period as reasonably determined by the State, having regard to the extent and nature of the relevant Change Compensation Event and, its effects and the information required to be included in the Change Notice).

(ii) subject to section 10.1(c), does not accept or rejects the Change Notice or a part of the Change Notice (and the reasons for this) and, in the Change Response, sets out Project Co's entitlements for the relevant Change Compensation Event, determined in accordance with this Deed; or

(iii) in the case of a Change Notice which is a Project Co Modification Proposal, does not accept the Change Notice because the State does not wish to proceed with the proposed Project Co Modification,

(each a Change Response).

10.2 Project Co's options where the Change Notice is not accepted or is rejected

(b) (Verification of amounts): If a Reviewing Party does not accept or rejects an amount as calculated by Project Co in any Change Notice (such amount not being a fixed or specified amount under these Change Compensation Principles), the State may have the amounts verified by an expert appointed in accordance with clause 49 of this Deed, in which case:

(i) if the expert determines that an amount is payable to Project Co, Project Co will be entitled to be paid the lower of:

Schedule 6 - Termination Payments

1. Definitions

Unless otherwise expressly defined below, expressions used in this Schedule have the meanings given to them in or for the purposes of this Deed. In this Schedule:

Abatement Regime means the abatement regime described in sections 4 to 7 of the Payment Schedule.

Compensation Date means:

(a) for a tender conducted under section 3.3:

(i) where section 3.3(k)(ii) applies, the date on which the State notifies Project Co under section 3.3(k)(ii); or

(ii) otherwise the date on which the New Contract is entered into or is anticipated to be entered into; and

(b) for an Independent Expert valuation under section 4:

(i) where it is deemed under section 3.3(g) that there is no Liquid Market, 60 Business Days after the date on which the State notifies Project Co that it has received fewer than two Compliant Tenders under section 3.3(g);

(ii) where section 3.3(j) applies, the later of the date on which the State notifies Project Co in accordance with section 3.3(j) and the date which is 60 Business Days after the Expiry Date; or

(iii) otherwise the date which is 60 Business Days after the Expiry Date.

Compliant Tender means any tender submitted that meets the qualification criteria notified under section 3.3(b).

Compliant Tenderer means the party who submits a Compliant Tender.

Contributed Equity Portion means the amount of Equity Contributed which is paid to Project Co as Equity Funding on the same date (whether by way of a cash payment or drawing under any letter of credit in respect of the Equity Funding, or any combination of these).

Contribution Period means, for each Contributed Equity Portion, the number of days from the date of contribution of the relevant Contributed Equity Portion to the Expiry Date, divided by 365.

Default Termination Payment means the Termination Payment calculated under section 3 or section 4 of this Schedule.

Equity Committed means the aggregate of all amounts of Equity Funding irrevocably committed to be contributed by Equity Investors to Project Co as required by and in accordance with the Equity Documents and as set out in the Financial Model.

Equity Contributed means the aggregate of all amounts of Equity Funding contributed by Equity Investors to Project Co before the Expiry Date in accordance with the Equity
Documents and the Financial Model (but excluding any amounts which are either paid earlier than the dates scheduled in the Financial Model or are not scheduled in the Financial Model, and that are contributed as Equity Funding as a consequence of any default, however described, under the Finance Documents or the State Project Documents).

**Equity IRR** has the meaning given to it in this Deed.

**Fair Market Value** means the amount at which an asset, equity or liability could be exchanged in an arm's length transaction between informed and willing parties, other than in a forced or liquidation sale.

**Force Majeure Termination Payment** means the Termination Payment calculated under section 6 of this Schedule.

**Highest Compliant Tender Price** means the highest tender price offered by a Compliant Tender.

**Independent Expert** means an independent expert appointed under section 2.

**Liquid Market** means where there are at least two contractors (in addition to any party controlled by the Financiers) in the prevailing market prepared to competitively tender for the undertaking of, or acquisition of, projects which are the same or of a similar type to the Project on the same or substantially similar terms and conditions to those of this Deed and each of whom has agreed with the State to submit a Compliant Tender (even if a Compliant Tender is subsequently not received), such that the result of that tender process would provide a reasonably likely indicator as to Fair Market Value.

**New Contract** means a contract that replaces this Deed, but without imposing on the new contracting party any Liability for any breach of this Deed by Project Co prior to the date of that contract, and that assumes that:

(a) if the New Contract is entered into prior to the Date of Commercial Acceptance, the Works are to be designed, built, commissioned and tested to achieve each Commercial Acceptance in accordance with this Deed;

(b) the Services are to be carried out in accordance with, and to the standards set out in, the PSDR and otherwise in accordance with this Deed;

(c) the term of the New Contract will be the period from the Compensation Date to the Final Expiry Date;

(d) the provisions with respect to payment of the Floating Rate Component and Service Payment continue to apply as set out in this Deed, noting that the Maintenance Phase (Full) may be shorter than is contemplated in the Financial Model as a result of delay or forecast delay to the achievement of Commercial Acceptance; and

(e) all other provisions of this Deed continue to apply.

**Post Termination Quarterly Amount** means for the whole or any part of a Quarter or Quarters for the period from the Expiry Date to the Compensation Date, an amount equal to the Service Payments, assuming no Abatement, plus or minus the Floating Rate Component, which would have been payable in respect of that Quarter or those Quarters under this Deed had this Deed not been terminated less an amount equal to the aggregate of (without double counting):
2. Independent Expert

(a) **Calculation of relevant Termination Payment**: If this Deed is terminated and an Independent Expert is required to administer this Schedule, the parties will appoint an Independent Expert to act as an expert calculator of the relevant Termination Payment within 7 Business Days of:

(i) in the case of section 4, the date on which that section commences to apply; and

(ii) in the case of sections 5 and 6, the Expiry Date,

and the following provisions of clause 49 of this Deed will apply:

(iii) clause 49.1(b) to clause 49.1(i) of this Deed, as if:

A. the reference in paragraph (b) to "the date on which a Dispute is referred to expert determination under clause 49.1(a)" were a reference to the time referred to in paragraphs (a)(i) and (ii) of this section 2(a), and the reference to "determine the
"Dispute" were a reference to "calculate a Termination Payment";

B. the references in paragraph (c) to "the 5 Business Day period referred to in clause 49.1(a)" and to "the Dispute is referred to expert determination under clause 49.1(a)" were references to the time referred to in paragraphs (a)(i) and (ii) of this section 2(a), and the reference to "determine the Dispute" were a reference to "calculate a Termination Payment";

C. the references in paragraph (d) to "determine a Dispute" and "determine the Dispute" were references to "calculate a Termination Payment" and the reference to "the party that gave the notice under clause 48.3(a)" were a reference to "the State";

D. paragraph (e) requires both parties to procure the President of the Australian Centre for International Commercial Arbitration to nominate a person to act as the expert, having regard to, but not being bound by, those persons proposed by the parties under paragraph (b) or paragraph (c) and the reference in paragraph (e) to "determine a Dispute" were a reference to "calculate a Termination Payment";

E. the reference in paragraph (f) to "determine a Dispute" were a reference to "calculate a Termination Payment" and the reference to "matters in dispute" were a reference to "role of the Independent Expert as an expert calculator of the relevant Termination Payment"; and

F. the reference in paragraph (i) to "the terms of the Expert Determination Agreement" were a reference to "terms consistent with section 2 of the Termination Payments Schedule";

(iv) clause 49.2 of this Deed, as if the reference to "the terms of the Expert Determination Agreement" were a reference to "the agreement entered into in accordance with clause 49.1(ii)";

(v) clause 49.4 of this Deed, as if the reference to "any Dispute referred to expert determination under this clause 49" were a reference to "any calculation of a Termination Payment"; and

(vi) clause 49.5(a)(ii) of this Deed, as if the reference to "any person who is party to the Dispute" were a reference to "the parties".

(b) (Independent Expert to consider): In calculating a Termination Payment, the Independent Expert may have regard to submissions and information provided by the parties, but must have regard to the matters set out in this Schedule and calculate the Termination Payment as an expert calculator.

(c) (Request for further information): If the Independent Expert decides that further information is required, the Independent Expert may call for further submissions, documents or information from either or both parties and the Independent Expert must provide any information received from one party to the other party.
(d) **Conduct of conferences by Independent Expert**: The Independent Expert may call and conduct one or more conferences between the parties as the Independent Expert sees fit, but must give the parties reasonable notice of the matters to be addressed at any such conference.

(e) **Legal Representation of parties at conference**: The parties may be legally represented at any conference under this section 2.

(f) **Conferences to be held in private**: All conferences under this section 2 must be held in private.

(g) **Independent Expert may visit**: The Independent Expert may, if he or she considers it necessary, visit the Site, the Works or the Project Assets (as the case may be), and the parties must facilitate the Independent Expert's access to any of those areas.

(h) **Timing of determination by the Independent Expert**: The Independent Expert must make his or her determination in relation to the calculation of the Termination Payment:

(i) within 20 Business Days of the last of the steps set out in paragraphs (c) to (g); or

(ii) within 30 Business Days of the date of his or her appointment,

whichever is the earliest. If the Independent Expert fails to make a determination within this time, either party may refer the matter to dispute resolution in accordance with clauses 48 to 50 of this Deed.

(i) **Independent Expert to act as expert**: The Independent Expert will act as an expert and not an arbitrator and may make a decision from his or her own knowledge and expertise.

(j) **Cost of Independent Expert to be borne by State**: The cost of the Independent Expert will be borne by the State, but without limiting the State's right to recover those costs as Tender Costs in calculating any Termination Payment.

### 3. Termination for Default Termination Event

#### 3.1 The State’s election

(a) **State's right to elect**: If the State terminates this Deed due to the occurrence of a Default Termination Event (whether any other basis for termination then applies), the State may, subject to section 3.1(c), elect (in its sole and absolute discretion) to either:

(i) conduct a tender for the New Contract in accordance with section 3.3; or

(ii) require the Independent Expert to undertake an expert determination in accordance with section 4.

(b) **State to notify Project Co**: The State will notify Project Co of its election on or before the day falling [not disclosed] after the Expiry Date and if the State fails to notify Project Co of its election by that date, then:
3.2 Payment on tender

(a) (State elects to conduct a tender): If the State elects to conduct a tender for the New Contract in accordance with section 3.1(a)(i), sections 3.2 and 3.3 will apply.

(b) (Object of Tender Process): The objective of the Tender Process is to establish a Highest Compliant Tender Price.

(c) (Calculation of Default Termination Payment): The Default Termination Payment will be calculated as follows:

\[ TP = A - C - D - E - F - G - H + J - M - P \]

where:

\[ TP = \text{the Default Termination Payment.} \]
A = the Highest Compliant Tender Price. In determining item A, the Tender Process must:

A. assume:

1) a Compensation Date determined under paragraph (a)(ii) of that definition (which will be subject to adjustment to reflect the actual date on which the Compensation Date occurs);

2) that the Project Activities are carried out in accordance with, and to the standards set out in, the PSDR and otherwise in accordance with this Deed;

3) that the provisions with respect to payment of the Floating Rate Component and Service Payments continue to apply as provided for in this Deed;

4) that any breach of this Deed and any adjustments under the Abatement Regime occurring prior to the Compensation Date will be disregarded for the purposes of the New Contract; and

5) that the Project Documents will be amended as required to reasonably allow for an incoming provider to carry out the Project Activities in accordance with, and to the standards set out in, the PSDR and otherwise in accordance with this Deed; and

B. take into account:

1) the costs (if any), and their timing, which are required to be incurred to complete the Works in accordance with this Deed and to achieve each Commercial Acceptance;

2) the reinstatement or repair costs (if any) and their timing, including a reasonable contingency against Project risks, which are required to be incurred with respect to the Project Assets and the Site, to enable carrying out of the Project Activities until the Final Expiry Date, in accordance with and to the standards set out in the PSDR and otherwise in accordance with this Deed; and

3) any costs, and their timing, required to be incurred to enable the entity (who is to become the new "Project Co") to carry out the Project Activities in accordance with, and to the standards set out in, the PSDR and otherwise in accordance with this Deed and otherwise to perform Project Co’s obligations under the Project Documents,
but excluding any costs in relation to which the State will retain the benefit of a Retention Amount or Defect Retention Amount;

C = the Tender Costs;

D = any Liability of Project Co to the State under the State Project Documents, including all amounts in respect of which the State is entitled to exercise a right of set-off under this Deed (but subject to clauses 43.11(c) and (d) (other than clause 43.11(d)(viii)(H)));

E = any additional costs reasonably incurred by the State as a direct result of the Default Termination Event (but subject to clauses 43.11(c) and (d) (other than clause 43.11(d)(viii)(H)));

F = to the extent the aggregate of all Post Termination Quarterly Amounts equates to a negative number, the absolute value of the aggregate of all such amounts calculated under this Deed. For the avoidance of doubt the Default Termination Payment is reduced where the aggregate of all Post Termination Quarterly Amounts equates to a negative number;

G = any gains which have accrued, or will accrue, to Project Co as a result of the termination of this Deed or termination of any other Project Documents;

H = the aggregate of:

(i) Insurance proceeds:

A. that would have been received before the Expiry Date but for an Insurance Failure Event and which if so received would have been, or would have been required to be, applied towards any component of the Default Termination Payment otherwise payable under this section 3; and

B. received or receivable by Project Co at any time during the period between the Expiry Date and the Compensation Date, except for Insurance proceeds:

1) that are required under the Project Documents to be (and are) applied to repairing or reinstating the Works or the Project Assets; or

2) representing Insurance indemnification of Project Co against liabilities to third parties);

(ii) any other amounts owing to Project Co; and

(iii) any credit balances standing in accounts held by or for the benefit of Project Co on the Expiry Date (other than those amounts which Project Co holds on trust for a Subcontractor in those accounts in accordance with the Finance Documents),

in each case only to the extent it has not otherwise been taken into account in the determination of the Default Termination Payment;
J = any amounts owing by the State to Project Co under the State Project Documents as at the Expiry Date (including amounts of any Floating Rate Component or Service Payments which have accrued but not been paid as at the Expiry Date);

M = any third party amounts paid to Project Co at any time during the period between the Expiry Date and the Compensation Date; and

P = the Receivables Refund Payment.

In calculating items A to P, there will be no double counting of amounts.

3.3 Tender Process

If the State elects to conduct a Tender Process for the New Contract, the following provisions will apply.

(a) (State to use reasonable endeavours): The State will (subject to any legal requirements preventing it from doing so) use its reasonable endeavours to complete the Tender Process as soon as practicable.

(b) (State to notify Project Co of qualification criteria and other requirements of Tender Process): The State will notify Project Co of the qualification criteria, the other requirements and the terms of the Tender Process, including the timing of the Tender Process, but will act reasonably in setting such requirements and terms. If the tenderer is required to engage sub-contractors, qualification criteria will include a requirement that the tenderer engage sub-contractors with the requisite technical and financial capabilities to undertake the Project.

(c) (State to ensure appropriate methodology): The State, in setting the qualification criteria and the other requirements and terms of the Tender Process, must ensure that there is in place an appropriate methodology for comparing tenders.

(d) (Project Co authorises release of information by State under Tender Process): Project Co authorises the release of any information by the State under the Tender Process that would otherwise be prevented under this Deed that is reasonably required as part of the Tender Process.

(e) (Project Co may appoint Tender Process Monitor): Project Co may, at its own cost, appoint a person (the Tender Process Monitor) to monitor the Tender Process for the purpose of monitoring and reporting to Project Co and the Financiers on the State's compliance with the Tender Process and making representations to the State. The Tender Process Monitor will not disclose any confidential information in relation to tenders submitted as part of the Tender Process to Project Co or any other person except:

(i) where permitted to do so by the terms of the confidentiality agreement referred to in section 3.3(f); or

(ii) to advise Project Co and the Financiers as to whether it considers that the State has acted in accordance with the Tender Process and correctly determined the Highest Compliant Tender Price and to provide details of any representations that the Tender Process Monitor makes to the State regarding the Tender Process.
(f) **(Tender Process Monitor to enter into confidentiality agreement):** Project Co will procure the Tender Process Monitor to enter into a confidentiality agreement with the State in a form acceptable to the State, and the Tender Process Monitor will be entitled to attend all meetings relating to the Tender Process, inspect copies of the tender documentation and proposals and make written representations to the State regarding compliance with the Tender Process. Project Co will procure that the Tender Process Monitor makes any such representations in relation to the Tender Process to the State in a timely manner as the Tender Process proceeds. The State will not be bound to consider or act upon such representations but acknowledges that such representations may be referred to by Project Co in the event that Project Co refers a dispute relating to the Highest Compliant Tender Price for resolution in accordance with clauses 48 to 50 of this Deed.

(g) **(State to determine Compliant Tenders):** As soon as practicable after tenders have been received, the State will (acting reasonably) determine the Compliant Tenders. Subject to the State receiving at least two Compliant Tenders, it will notify Project Co of the Highest Compliant Tender Price. If fewer than two Compliant Tenders are received, the State must promptly notify Project Co accordingly and it will be deemed that there is no Liquid Market and the tendering process pursuant to this section 3 will cease and the 'no tendering' procedure under section 4 will automatically apply.

(h) **(Discretion of State following Tender Process):** The State is not obliged to enter into any contract with any person, resulting from the Tender Process. It may enter into a contract in its sole and absolute discretion.

(i) **(Dispute Resolution):** If Project Co refers a Dispute relating to the Highest Compliant Tender Price or the Default Termination Payment for resolution in accordance with clauses 48 to 50 of this Deed, the State will still be entitled to enter into a contract replacing this Deed (whether or not a New Contract).

(j) **(State may elect to follow 'no tendering' procedure):** The State may elect at any time prior to the receipt of two Compliant Tenders to follow the 'no tendering' procedure under section 4 by notifying Project Co that this election has been made.

(k) **(Calculation of Default Termination Payment if Liquid Market exists):** If a Liquid Market exists, the Default Termination Payment is determined in accordance with section 3.2 and this section 3.3 and (where the Default Termination Payment is a positive amount) Project Co has complied with clause 46.6(c) of this Deed:

(i) the Default Termination Payment, calculated in accordance with section 3.2 and this section 3.3, will be payable within 20 Business Days of the date of the New Contract; or

(ii) if the State chooses not to enter into any contract with any person resulting from the Tender Process, it must notify Project Co accordingly in which case the Default Termination Payment calculated in accordance with section 3.2 and this section 3.3 will be payable within 20 Business Days of such notification.

4. **No tendering**

If the State terminates this Deed due to the occurrence of a Default Termination Event (whether any other right of termination then applies) and section 3.1(a)(ii) applies, or a Liquid Market does not or is deemed not to exist under section 3.3(g), or where section 3.3(j) applies, the Default Termination Payment will be calculated as follows:
$TP = A - C - D - E - F - G - H + J - M - N - P$

where:

$TP =$ the Default Termination Payment;

$A =$ the Fair Market Value of the Project as at the Compensation Date determined by the Independent Expert on the basis that this Deed and each of the other State Project Documents as existing immediately prior to the Expiry Date had continued until the Final Expiry Date (but for the earlier termination).

In determining item A, the Independent Expert must determine the net present value of the projected cash flows for the period between the Compensation Date and the Final Expiry Date calculated on a nominal pre-tax basis using the rate of indexation forecast in the most recently published State Budget papers and otherwise by:

(i) assessing the market value as though the willing buyer was bidding in a public tender process for the right to enter into a New Contract;

(ii) assuming that:

A. the Project Activities are carried out in accordance with, and to the standards set out in, the PSDR and otherwise in accordance with this Deed;

B. the provisions with respect to payment of the Floating Rate Component and Service Payments continue to apply as provided for in this Deed;

C. any breach of this Deed and any adjustments under the Abatement Regime occurring prior to the Compensation Date will be disregarded for the purposes of the New Contract; and

D. the Project Documents will be amended as required to reasonably allow for an incoming provider to carry out the Project Activities in accordance with, and to the standards set out in, the PSDR and otherwise in accordance with this Deed;

(iii) taking into account:

A. the costs (if any), and their timing, which are required to be incurred to complete the Works in accordance with this Deed and to achieve Commercial Acceptance;

B. the reinstatement or repair costs (if any) and their timing, including a reasonable contingency against Project risks, required to be incurred with respect to the Project Assets and the Site to enable the carrying out of the Project Activities until the Final Expiry Date in accordance with and to the standards set out in the PSDR and otherwise in accordance with this Deed; and

C. any costs, and their timing, required to be incurred to enable the buyer (who is to become the new “Project Co”) to carry out the Project Activities in accordance with, and to the
standards set out in, the PSDR and otherwise in accordance with this Deed and to perform Project Co’s obligations under the Project Documents,

but excluding any costs in relation to which the State will retain the benefit of a Retention Amount, a Defect Retention Amount, a Handover Escrow Account or Handover Bond (if any); and

(iv) using a discount rate to calculate the net present value of the cashflows based on the following formula:

\[
R = (1 + PIRR + CB_b - CB_a) \cdot (1 + i) - 1
\]

where:

- \( R \) = the discount rate;
- \( PIRR \) = the pre-tax Project internal rate of return (real) as shown in the Financial Model;
- \( CB_b \) = the real yield to maturity as at the Compensation Date on a benchmark Commonwealth bond traded in the Australian bond markets with a modified duration closest to that of the weighted average life of any outstanding amounts referred to in paragraph (b) of the definition of Project Debt as shown in the Financial Model;
- \( CB_a \) = the real yield to maturity as at the date of Financial Close on a benchmark Commonwealth bond traded in the Australian bond markets with a modified duration closest to that of the weighted average life of any outstanding amounts referred to in paragraph (b) of the definition of Project Debt as shown in the Financial Model; and
- \( i \) = the assumed long term CPI (or equivalent) indexation rate using the rates of indexation forecast in the most recently published State Budget papers;

- \( C \) = the Tender Costs (if any) and the State’s reasonable forecast internal and external costs of tendering a form of contract(s) for the Project Activities to replace this Deed after termination of this Deed;
- \( D \) = any Liability of Project Co to the State under the State Project Documents, including all amounts in respect of which the State is entitled to exercise a right of set-off under this Deed (but subject to clauses 43.11(c) and (d) (other than clause 43.11(d)(viii)(H));
- \( E \) = any additional costs reasonably incurred by the State as a direct result of the Default Termination Event (but subject to clauses 43.11(c) and (d) (other than clause 43.11(d)(viii)(H)) of this Deed);
- \( F \) = to the extent the aggregate of all Post Termination Quarterly Amounts equates to a negative number, the absolute value of the aggregate of all such amounts calculated under this Deed. For the avoidance of doubt the Default Termination
Payment is reduced where the aggregate of all Post Termination Quarterly Amounts equates to a negative number;

\[ G = \text{any gains which have accrued, or will accrue, to Project Co as a result of the termination of this Deed or termination of any other Project Document;} \]

\[ H = \text{the aggregate of:} \]

(i) Insurance proceeds:

A. that would have been received before the Expiry Date but for an Insurance Failure Event and which if so received would have been, or would have been required to be, applied towards any component of the Default Termination Payment otherwise payable under this section 4; and

B. received or receivable by Project Co at any time during the period between the Expiry Date and the Compensation Date, except for Insurance proceeds:

1) that are required under the Project Documents to be (and are) applied to repairing or reinstating the Works or the Project Assets; or

2) representing Insurance indemnification of Project Co against its liabilities to third parties;

(ii) any other amounts owing to Project Co; and

(iii) any credit balances standing in accounts held by or for the benefit of Project Co on the Expiry Date (other than those amounts which Project Co holds on trust for a subcontractor in those accounts in accordance with the Finance Documents),

in each case only to the extent it has not otherwise been taken into account in calculating the Default Termination Payment;

\[ J = \text{any amounts owing by the State to Project Co under the State Project Documents as at the Expiry Date (including amounts of any Floating Rate Component or Service Payments which have accrued but not been paid as at the Expiry Date);} \]

\[ M = \text{any third party amounts paid to Project Co at any time during the period between the Expiry Date and the Compensation Date;} \]

\[ N = \text{the costs incurred by the State of engaging the Independent Expert to administer this Schedule; and} \]

\[ P = \text{the Receivables Refund Payment} \]

In calculating items A to P, there will be no double counting of amounts.

5. **Termination for Convenience**

If this Deed is terminated for convenience under clause 46.2 of this Deed, the Termination for Convenience Payment will be calculated as follows.
The Termination for Convenience Payment or TP means the greater of:

\[ TP = A + B - D + G - H + J + K + L - M - P \]

and

\[ TP = A + G - H + J - M - P \]

where:

\( TP \) = the Termination for Convenience Payment;

\( A \) = the Project Debt as at the Expiry Date;

\( B \) = means, where the Expiry Date occurs prior to Commercial Acceptance:

(i) the Total Equity Contributed (if any); plus

(ii) for each Contributed Equity Portion (if any), the Contributed Equity Portion multiplied by the Contribution Period and multiplied by the Equity IRR; plus

(iii) the Equity Committed multiplied by the Equity IRR; and

where the Expiry Date occurs on or after Commercial Acceptance, means the value of the equity as assessed by the Independent Expert as set out below.

The value assessed by the Independent Expert must be determined through a discounted cash flow valuation for the period from the Expiry Date to the Final Expiry Date. The valuation must apply paragraphs (iv) – (vi) below, and apply generally-accepted principles and practices for cash flow valuations of assets. The Independent Expert must take into account:

(iv) the projected revenue to an incoming Project Co reasonably expected assuming:

A. the provisions of the Payment Schedule and those relating to payment of the Floating Rate Component continue to apply; and

B. the arrangements for those commercial opportunities not retained by the Equity Investors following termination (including any revenue-sharing with the State) continue to apply;

(v) the projected capital and operating costs reasonably expected to be incurred by an incoming Project Co in connection with delivering the Project Activities, and assuming the Services are delivered in accordance with, and to the standards set out in, the PSDR and otherwise in accordance with this Deed; and

(vi) the financing costs of Project Co or Finance Co under the Finance Documents as calculated in the Financial Model but adjusted where those costs are reasonably expected to change because the Finance Documents require refinancing after the Expiry Date.
and in each case on the basis that the Project Documents, as amended in accordance with this Deed, continue in full force and effect from the Expiry Date to the Final Expiry Date. To prepare the projections referred to in paragraphs (iv) and (v) above, the Independent Expert is not constrained by values in the Financial Model, and should apply reasonable contingency to cash flows to account for Project risks. The Independent Expert must discount cash flows using a rate per annum equivalent to market rates of return to equity for projects with a similar risk profile to this Project;

\[ D = \text{any Liability of Project Co to the State under the State Project Documents, including all amounts in respect of which the State is entitled to exercise a right of set-off under this Deed (but subject to clauses 43.11(c) and (d) (other than clause 43.11(d)(viii)(H)))}; \]

\[ G = \text{the sum of the amount of costs incurred or gains realised by Project Co or Finance Co (acting reasonably) as a direct result of terminating the Finance Documents, including as a result of terminating or reversing any derivative position, arising from prepayment of debt or interest and the aggregate amount of any 'Modified Make-Whole Amount' under and as defined in the Note and Guarantee Agreement dated on or about the date of this Deed entered into by, among others, the Project Entities, in each case arising from the State's election to terminate for convenience under clause 46.2 of this Deed. If the net amount is a gain, it should be a deduction from, and if it is a cost, it should be an addition to, this Termination for Convenience Payment;} \]

\[ H = \text{the aggregate of:} \]

(i) any Insurance proceeds:

A. that would have been received before the Expiry Date but for an Insurance Failure Event and which if so received would have been, or would have been required to be, applied towards any component of the Termination for Convenience Payment otherwise payable under this section 5; and

B. received or receivable by Project Co at any time during the period between the Expiry Date and the Compensation Date, except for Insurance proceeds:

1) that are required under the Project Document to be (and are) applied to repairing or reinstating the Works or the Project Assets; or

2) representing Insurance indemnification of Project Co against Liabilities to third parties;

(ii) any other amounts owing to Project Co; and

(iii) any credit balances standing in accounts held by or for the benefit of Project Co on the Expiry Date (other than those amounts which Project Co holds on trust for a Subcontractor in those accounts in accordance with the Finance Documents),

in each case only to the extent it has not otherwise been taken into account in calculating the Termination for Convenience Payment;

6. Termination for Force Majeure Termination Event

6.1 Termination - No Default Termination Event subsisting

Subject to section 6.2, if the State or Project Co terminates this Deed due to a Force Majeure Termination Event and a Default Termination Event is not then subsisting, the Force Majeure Termination Payment will be the greater of:

(a) an amount calculated as though a Default Termination Payment was due and the Termination Payment was calculated in accordance with the provisions of section 4; and

(b) an amount calculated in accordance with section 6.3.

6.2 Termination - Default Termination Event subsisting

If the State or Project Co terminates this Deed due to a Force Majeure Termination Event and a Default Termination Event is then subsisting, this section 6 will not apply and the Termination Payment will be an amount calculated in accordance with the provisions of section 3 or (if required by section 3) the provisions of section 4.

6.3 Force Majeure Termination Payment

Subject to sections 6.1 and 6.2, the Force Majeure Termination Payment where this Deed is terminated as a consequence of the occurrence of a Force Majeure Termination Event will be calculated as follows:

\[ TP = A - D +/\,- G - H + J - M - O - P \]

where:

\[ TP = \] the Force Majeure Termination Payment;

\[ A = \] the Project Debt as at the Expiry Date;
D = any Liability of Project Co to the State under the State Project Documents, including all amounts in respect of which the State is entitled to exercise a right of set-off under this Deed (but subject to clauses 43.11(c) and (d) (other than clause 43.11(d)(viii)(H)));

G = the amount of costs incurred or gains realised by Project Co or Finance Co (acting reasonably) as a direct result of terminating the Finance Documents, including as a result of terminating or reversing any derivative position or arising from prepayment of debt or interest, in each case arising from the State’s or Project Co’s election to terminate this Deed as a consequence of the occurrence of a Force Majeure Termination Event. If the net amount is a gain it should be a deduction from, and if it is a cost it should be an addition to, the Force Majeure Termination Payment;

H = the aggregate of:

(i) any Insurance proceeds:

A. that would have been received before the Expiry Date but for an Insurance Failure Event and which if so received would have been, or would have been required to be, applied towards any component of the Force Majeure Termination Payment otherwise payable under this section 6; and

B. received or receivable by Project Co at any time during the period between the Expiry Date and the Compensation Date, except for Insurance proceeds:
   1) that are required under the Project Documents to be (and are) applied to repairing or reinstating the Works or the Project Assets; or
   2) representing Insurance indemnification of Project Co against liabilities to third parties;

(ii) any other amounts owing to Project Co; and

(iii) any credit balances standing in accounts held by or for the benefit of Project Co on the Expiry Date (other than those amounts which Project Co holds on trust for a Subcontractor in those accounts in accordance with the Finance Documents),

in each case only to the extent that it has not otherwise been taken into account in calculating the Force Majeure Termination Payment;

J = any amounts owing by the State to Project Co under the State Project Documents as at the Expiry Date (including the amount of any Service Payments or Floating Rate Component which has accrued but not been paid as at the Expiry Date);

M = any third party amounts paid to Project Co at any time during the period between the Expiry Date and the Compensation Date; and

O = to the extent such amounts are outstanding at the Expiry Date, any amounts included in item A that are intended (as described in the Financial Model) to be refinanced in the form of equity or subordinated debt treated as equity, such amount including any accrued, deferred or rolled up interest; and
Outer Suburban Arterial Roads Program – Western Package
Schedule 6 - Termination Payments

**P** = the Receivables Refund Payment

In calculating items A to P, there will be no double counting of amounts.

### 7. Interest

In respect of Termination Payments calculated under this Schedule 6 only, interest accrues:

(a) in respect of a Termination Payment calculated under section 3 or section 4, from the 21st Business Day after the Compensation Date to (and excluding) the date on which the Termination Payment is paid in full. Interest accrues on that Termination Payment at the default rate provided in the relevant Finance Document. Interest is payable on the date on which the Termination Payment is paid; and

(b) in respect of any Termination Payment calculated under section 5 or section 6, from and including the Expiry Date to (and excluding) the date on which the Termination Payment is paid in full. Interest on the Actual Debt portion of that Termination Payment accrues at the rate provided in the relevant Finance Document from and including the day after the Expiry Date to and including the 20th Business Day after the Expiry Date and thereafter on the whole of that Termination Payment at the default rate provided in the relevant Finance Document. Interest is payable on the date on which the Termination Payment is paid.

### 8. Insurance

If any proceeds of Insurance are received by Project Co after this Deed is terminated (other than those Insurance proceeds representing Insurance indemnification of Project Co against Liabilities to third parties) and those proceeds:

(a) were not taken into account in calculating the Termination Payment that has already been made on the basis that the amounts were not "owing to Project Co", "received" or "received or receivable" by Project Co at the relevant time;

(b) would have been so taken into account had they been owing, received or receivable at the time of calculating the Termination Payment; and

(c) apply to the period up to and including the date of payment of the Termination Payment,

then those proceeds are held on trust by Project Co for the State, and Project Co must pay those proceeds, or cause those proceeds to be paid, to the State for the State's retention promptly on receipt. If the proceeds are not yet received then, to the maximum extent legally possible, the State will be subrogated to the rights of Project Co in respect of those proceeds, and entitled to recover and retain the proceeds accordingly. The rights and obligations in this section 8 survive the expiry or early termination of this Deed.

### 9. Mitigation

Each party must use all reasonable endeavours to mitigate and minimise losses or costs to be included in the calculation of the relevant Termination Payment. Project Co must use all reasonable endeavours to maximise receipts and gains which are to be calculated within any Termination Payment.

(c) **(no Default Event):** that the grant of, or exercise by the State of its rights under, the State Security will not itself contravene, or constitute a Default Event under, the Subcontract or entitle the Subcontractor to exercise any right (including termination) under it;

(d) **(Liabilities and obligations):** that nothing in the State Security will cause the State or any State Associate to assume any Liabilities or obligations under the Subcontract except as may result from its own acts or omissions in exercising rights or in performing or failing to perform obligations under the Subcontract as envisaged by this Deed;

(e) **(notice of any other assignment):** that with the exception of the security interests under the Finance Documents, it has not received notice of any other assignment or charge by Project Co of any right, title, interest in or benefit of Project Co under the Subcontract; and

(c) **(Continued performance):** During the period in which the State is exercising a right referred to in clause 3.2(a), the State may, in accordance with the Project Deed and the Subcontract, require the suspension or the continuation of performance by the Subcontractor of its obligations under the Subcontract, and if it does so, the Subcontractor will comply with this requirement and with all reasonable directions of the State in relation to the performance of the Subcontract by the Subcontractor during such period.
(d) **(State not liable):** The requirement of the State that the Subcontractor suspend or continue to perform its obligations under the Subcontract and the giving of any direction under clause 3.2(c) by the State will not be construed as an assumption by the State of any obligations of the Subcontractor under the Subcontract.

(e) **(Subcontracting):** The Subcontractor will not subcontract any of its obligations under the Subcontract without the prior consent of the State, where so required in accordance with clause 9 of the Project Deed.

(f) **(Probity Investigations):** Without limiting clauses 3.2(a) to (e), the Subcontractor acknowledges and agrees that:

(i) in accordance with clauses 9 and 39.2 of the Project Deed, the State may from time to time or may require Project Co to conduct Probity Investigations of the Subcontractor and Relevant Persons, or other persons in relation to any further subcontracting by the Subcontractor of any of its obligations under the Subcontract;

(ii) it will procure the consent to any Probity Investigation and, to the extent that the State is entitled to do so under the Project Deed, such other probity and security investigations that the State may require of each Relevant Person in relation to the Subcontractor in respect of whom the State advises the Subcontractor that it requires a Probity Investigation; and

(iii) it will not appoint, or retain the appointment of, and will ensure that no other person appoints, or retains the appointment of, a person to the position of a Relevant Person in relation to the management or performance of the Subcontract by the Subcontractor unless the State has given approval, including following a Probity Investigation and other such investigations that the State may require under clauses 9 and 39.2 of the Project Deed.

3.3 **By Project Co**

Project Co is bound by, and must cooperate in the implementation of, this Deed. It acknowledges that this Deed is intended to benefit only the Subcontractor and the State and does not in any way affect any obligation of Project Co under the Subcontract or under any Project Document except as expressly set out herein.

3.4 **Information**

Project Co and the Subcontractor each acknowledge and agree that:

(a) **(information purpose):** any information, data and documents provided by the State:

(i) are provided for information purposes only and all of the State and the State Associates’ Intellectual Property Rights therein remain the property of the State or those State Associates (as the case may be); and

(ii) do not form part of this Deed or constitute an invitation, offer or recommendation by or on behalf of the State or any State Associate; and

(b) **(no Liability):** to the extent permitted by Law, neither the State nor any of its Associates will have any Liability to the Subcontractor or any Subcontractor Associate, nor will the Subcontractor or any Subcontractor Associate be entitled to make any Claim against the State, or seek, pursue or obtain an indemnity against or contribution to Liability from the State or any State Associate arising in connection with:
(i) the provision of, or purported reliance upon, or use of, any information, data and documents referred to in clause 3.4(a) by the Subcontractor or any other person to whom such information is disclosed by the Subcontractor, the Subcontractor Associates, or any person on the Subcontractor or any Subcontractor’s behalf;

(ii) any reference to the State in the Subcontract; or

(a) (rights not affected): where the Subcontractor is expressed in the Subcontract to have a right (or possible right) to compensation or relief which is dependent on or determined by reference to the Project Deed or an equivalent or similar right of Project Co:

(i) this does not of itself expand Project Co's rights, or the State's Liability, under the Project Deed to include the compensation or relief to which the Subcontractor is or may become entitled under the Subcontract; and

(ii) Project Co's rights, and the State's Liability, under the Project Deed will be determined solely in accordance with the terms of the Project Deed;

(b) (risk of discrepancy): as between the State (on the one hand) and Project Co and the Subcontractor (on the other hand), Project Co and the Subcontractor accept and will bear the risk of any inconsistency, ambiguity or discrepancy between the terms of the Subcontract and the Project Deed; and

(c) (dealing directly with State): notwithstanding anything to the contrary in the Subcontract, the Subcontractor has no right to deal directly with the State or participate in any meeting, consultation or process (including negotiation or dispute resolution) unless:

(g) **(litigation):** no Claim against it is current or pending or (to its knowledge) is threatened, which will or is likely to have a material adverse effect upon it or its ability to perform its financial and other obligations under this Deed, the Subcontract or any other Project Document to which it is a party;

5. Undertakings of the Subcontractor

The Subcontractor undertakes to the State as follows:

(e) (attend meetings and inspections): it will (when reasonably requested by the State):
   (i) attend, where reasonable and appropriate, meetings with the State or any State Associate;

### 6. Right to cure before termination of the Subcontract

#### 6.1 State's cure rights

(a) **(Provide State with notices):** The Subcontractor must give the State:

(i) Default Event Notices; and

(ii) State Cure Notices,

as required by clause 6.2.

(b) **(State Cure Notice):** On receiving a State Cure Notice, and subject to the Finance Direct Deed, the State may (but is not obliged to) take steps to:

(i) remedy, or procure the remedy of, that Default Event; or

(ii) if the Default Event is not capable of remedy, commence and continue to perform the obligations of Project Co under the Subcontract.

#### 6.2 Termination or suspension with cause

The Subcontractor may only exercise a right to terminate, rescind, accept the repudiation of, or (subject to clause 6.3) suspend the performance of any or all of its obligations under the Subcontract if:

(a) **(prior notice):** the Subcontractor has given to the State prior notice setting out details of the Default Event giving rise to that proposed exercise in accordance with clause 6.4 (Default Event Notice);

(b) **(expiration of remedy period):** the Subcontractor has given notice to the State (State Cure Notice) confirming that any remedy period available to the Financiers in respect of the Default Event under any direct agreement between the Subcontractor, Project Co and the Financiers has expired without a remedy being achieved; and

(c) **(Default Event remedy):** where:

(i) the Default Event is capable of remedy within 20 Business Days after the date on which the State received the State Cure Notice, the Default Event has not been remedied within that 20 Business Day period;

(ii) the Default Event is not capable of remedy within 20 Business Days after the date on which the State received the State Cure Notice but is nevertheless capable of remedy, the State (or an Additional Obligor or Receiver appointed under clause 7) has not commenced remedying the Default Event within that 20 Business Day period and has not continued to diligently pursue that remedy;
(iii) the Default Event is not capable of remedy and the Default Event Notice contains a claim for reasonable compensation for the Default Event, Project Co or the State (or another person on behalf of either of them) has not paid or otherwise provided that compensation to the Subcontractor:

A. to the extent that the relevant amount of compensation has been referred to expert determination under clauses 9 or 10, within 20 Business Days after that Dispute is resolved; or

B. otherwise within 20 Business Days after the date on which the State received the State Cure Notice;

(iv) the Default Event is not capable of remedy and the Default Event Notice does not contain a claim for reasonable compensation for the Default Event, the State (or an Additional Obligor or Receiver appointed under clause 7) does not commence and continue to perform Project Co’s obligations under the Subcontract within 20 Business Days after the date on which the State received the State Cure Notice; or

(v) the State notifies the Subcontractor that it elects not to remedy, or procure the remedy of, the Default Event.

6.3 Early suspension of Subcontractor’s obligations

If:

(a) (right to suspend): the Subcontractor, but for the operation of clause 6.2, would have a right to suspend performance of its obligations under the Subcontract;

(b) (State Cure Notice): the Subcontractor has issued a State Cure Notice to the State with respect to that Default Event;

(c) (Dispute, non-payment or expired period): either:

(i) the State has not undertaken to pay to the Subcontractor the amounts payable under the Subcontract within 20 Business Days from the date of receipt of the State Cure Notice or, if the State refers the amounts in the Default Event Notice to Dispute, within 20 Business Days after the Dispute being determined; or

(ii) the State has undertaken to pay the Subcontractor such amounts for a stated period and that period has expired without being extended by the State (acting reasonably); and

(d) (not remedied): the Default Event has not otherwise been remedied,

then the Subcontractor may suspend performance of its obligations under the Subcontract.

6.4 Subcontractor Statements

As part of any Default Event Notice, the Subcontractor must include a statement of:

(a) (all amounts due and payable): all amounts due and payable to the Subcontractor under the Subcontract on or before the date of the Default Event Notice but remaining unpaid at such date;

Subcontract due to a default or breach of condition of a non-financial nature or
intends to claim damages or to seek some other form of relief:

(i) the provisions of the Subcontract alleged to have been breached or not
fulfilled;

(ii) sufficient information to enable the State to identify the material facts;

(iii) the steps reasonably required to remedy the Default Event (if reasonably
capable of remedy);

(iv) the time within which the specified steps can reasonably be expected to
be taken;

(v) if applicable, the amount of damages claimed and the manner in which
they have been calculated; and

(vi) if applicable, the other relief to be sought,

(being the Subcontractor Statement).

6.5 **Warranty of accuracy and waiver**

The Subcontractor:

(a) **(warranty):** warrants to the State that each Subcontractor Statement will, subject to
unintended error which the Subcontractor agrees to rectify, be a true, complete and
accurate statement of the amounts or other relief to which the Subcontractor
considers itself entitled; and

(b) **(waiver):** waives and abandons all Claims then known or which ought reasonably to
have been known to the Subcontractor arising in connection with the Subcontract
prior to the date of the Default Event Notice other than the claims disclosed in the
Subcontractor Statement.

6.6 **Verification of Subcontractor Statements**

The State may appoint one or more independent chartered accountants, technical advisers or
other appropriately qualified persons to verify (at the cost of Project Co) a Subcontractor
Statement, and the Subcontractor must, subject to such persons executing an appropriate
confidentiality agreement as the Subcontractor may reasonably request, permit such persons
to have access to and to make copies of all records, documents, data and accounting and
other information not subject to legal (including, without limitation, solicitor and own client) and
other professional privilege which is reasonably required with a view to confirming the
accuracy and completeness of such Subcontractor Statement.

6.7 **Subcontractor Statements to be conclusive evidence**

(a) **(Reliance):** Each Statement Beneficiary is entitled to rely on a Subcontractor
Statement for the purpose of determining the extent of the matters occurring prior to
a Default Event which are required to be remedied and the requirements to effect
the remedy of that Default Event by a Statement Beneficiary.

(b) **(Conclusive evidence):** A Subcontractor Statement will be conclusive evidence in
favour of any Statement Beneficiary that the Subcontractor has waived and
abandoned all Claims then known or which ought reasonably to have been known
to the Subcontractor arising in connection with the Subcontract prior to the date of
the Default Event Notice other than the Claims disclosed in the Subcontractor
Statement.
(c) (Claims against Project Co): Clauses 6.7(a) and 6.7(b) are without prejudice to the rights of the Subcontractor to pursue any Claims against Project Co following the end of the Step-In Period or termination of the Subcontract.

(d) (Disputes): For the avoidance of doubt, a Subcontractor Statement will not prevent any Statement Beneficiary from disputing the amount of any Claim or other relief sought by the Subcontractor or the existence of any default by Project Co under the Subcontract. In the case of any such Dispute:

(i) the relevant Statement Beneficiary must pay the amount or perform the obligations (if any) not in Dispute in accordance with this Deed and the Subcontract;

(ii) the Dispute must be referred to dispute resolution under clauses 9 to 11; and

(iii) during the period of dispute resolution, all parties must continue to perform their obligations under this Deed and the Project Documents.

7. Step-In by the State

7.1 Step-In Right

(a) (Exercise): Following receipt of a State Cure Notice or if the State is entitled to exercise any of the rights referred to in clause 3.2 or otherwise as permitted under any Project Document, the State may:

(i) if permitted under the State Security and the Finance Direct Deed, appoint a Receiver over Project Co or any or all of its assets (including the Subcontract);

(ii) itself enter into possession of any or all of the assets of Project Co;

(iii) take such other action as it is permitted under the terms of the Project Documents; or

(iv) by notice to the Subcontractor (Additional Obligor Step-In Notice), procure that an Additional Obligor assumes jointly and severally with Project Co all of Project Co’s rights and obligations under the Subcontract,

(each a Step-In Right).

(b) (Step-In Period): The period from the date on which the Subcontractor receives notice of the exercise of any Step-In Right to the earliest of:

(i) the Additional Obligor Step-Out Date;

(ii) the date on which the Subcontractor terminates the Subcontract;

(iii) the date of any transfer under clause 8;

(iv) the date which the State has notified the Subcontractor that the State will cease to exercise its Step-In Rights; and

(v) any other date on which the State ceases to continue to exercise its Step-In Rights,

is the Step-In Period.
(Acknowledgment): The Subcontractor acknowledges that the exercise by the State of a Step-In Right will not of itself contravene the Subcontract, or constitute a Default Event under the Subcontract or entitle the Subcontractor to exercise any right (including termination) under the Subcontract.

7.2 Step-In by the State

(a) **(Rights):** Subject to the Finance Direct Deed, the State may at any time after it has become entitled to exercise a Step-In Right, exercise all or any of its rights and carry out all or any of the obligations of Project Co in connection with the Subcontract, as if it were Project Co to the exclusion of Project Co.

(b) **(No Liability):** Project Co and the Subcontractor each agree that, subject to clause 7.3(b), neither the State nor any State Associate will have any Liability, and neither Project Co nor the Subcontractor will be entitled to make, continue or enforce any Claim against the State or any State Associate arising in connection with the Subcontract or this Deed by reason only of the State or any State Associate exercising any of Project Co's rights, or performing any of Project Co's obligations under the Subcontract other than, and then only to the extent of, Liability for reckless, unlawful, malicious acts or omissions of the State or any State Associate.

7.3 Step-In using Additional Obligor

(a) **(Assumption Date):** The Additional Obligor will become a party to the Subcontract on the date on which the Additional Obligor Step-In Notice is given to the Subcontractor or such later date as the Subcontractor and the State may agree (Assumption Date).

(b) **(Rights of Additional Obligor):** During a Step-In Period in respect of which the State has exercised a Step-In Right under clause 7.1(a)(iv):

(i) subject to clause 7.3(b)(ii), the Additional Obligor will be jointly and severally:

A. entitled with Project Co to exercise the rights of Project Co under the Subcontract (excluding any accrued rights of Project Co in respect of any damage, loss, cost, charge, expense, outgoing or payment to the extent that the rights arose prior to the Assumption Date) **(Project Co's Rights);** and

B. liable with Project Co for the performance or non-performance of all Project Co's obligations under the Subcontract arising on or after the Assumption Date except as released in accordance with clause 7.3(e);

(ii) as between Project Co, the Subcontractor and the Additional Obligor, only the Additional Obligor is authorised to deal with the Subcontractor and to exercise Project Co's Rights;

(iii) Project Co acknowledges that it will be legally bound by all the acts and omissions of the Additional Obligor in so dealing with the Subcontractor and in exercising Project Co's Rights;

(iv) the Additional Obligor will be bound by any earlier decision, directions, approvals, notices or consents given or made prior to the Assumption Date;
(v) clause 15 will apply to the Subcontractor and the Additional Obligor as if the address and email address of the Additional Obligor were set out in addition to those of Project Co; and

(vi) the Subcontractor will owe its obligations under the Subcontract to Project Co and the Additional Obligor jointly but the performance by the Subcontractor in favour of either Project Co or the Additional Obligor will be a good discharge of the relevant obligations under the Subcontract.

(c) **(No Liability):** Without prejudice to the Subcontractor’s rights under clauses 6.2 and 6.3, the Additional Obligor will have no obligation to, and no Liability in respect of, remediying any default or breach of Project Co under the Subcontract arising prior to the Assumption Date.

(d) **(Additional Obligor Step-Out Date):** The Additional Obligor may at any time give the Subcontractor not less than 30 days’ notice terminating the Additional Obligor’s rights or obligations under Subcontract (without affecting the continuation of Project Co’s obligations or liabilities towards the Subcontractor under the Subcontract). Such notice must specify the date on which it takes effect, which must be:

(i) at least 30 days after the date of the notice; or

(ii) if a Novation Notice has been given, the Novation Notice Date, **(Additional Obligor Step-Out Date).**

(e) **(Release):** On and from the Additional Obligor Step-Out Date, between the Subcontractor and the Additional Obligor, each of the Subcontractor and the Additional Obligor will be released from all obligations under the Subcontract (except for those obligations which have arisen during the relevant Step-In Period), whether or not a Claim has been made in respect of those obligations or they have not fallen due to be performed or have not been performed.

7.4 **Indemnity**

Project Co must indemnify the State, each State Associate and any Additional Obligor against any Claim or Liability (including any Claim made by, or Liability to, a third party) the State, any State Associate or any Additional Obligor suffers or incurs arising in connection with taking any action under clause 7.2 or clause 7.3, except to the extent that such Claim or Liability is caused or contributed to by any of the events set out in clause 43.6 of the Project Deed or (subject to clause 43.11(d) of the Project Deed) is Indirect or Consequential Loss.

8. **State’s option to novate to the State or third party**

8.1 **Option**

(a) **(Novation Notice):** The State may require a novation of the Subcontract upon the termination of the Project Deed, by giving a notice (Novation Notice) to the Subcontractor. The Novation Notice must specify the person to whom the State intends to novate the Subcontract whether this be the State or another person (Substitute Party).

(b) **(Effect of Novation Notice):** If the State issues a Novation Notice then, until the Novation Notice Date, the Subcontractor must continue to perform their respective obligations under the Subcontract.

(c) **(Acknowledgement):** The Subcontractor acknowledges that the giving of a Novation Notice by the State will not of itself contravene, or constitute a Default
Event under, the Subcontract or entitle the Subcontractor to exercise any Power (including termination) under it.

8.2 Novation to Substitute Party

(a) (Novation to State): Subject to clause 8.3, with effect from the Novation Notice Date:

(i) the Substitute Party will (and if the Substitute Party is not the State, the State will procure that the Substitute Party does) assume:

A. any obligation of Project Co under the Subcontract arising before the Novation Notice Date insofar as it relates to the payment of an amount of money that:

1) is due and payable under the terms of the Subcontract;

2) is not the subject of a dispute under the Subcontract (or is the subject of a dispute under the Subcontract in which case the Substitute Party will, on the determination of such dispute, assume such obligations in accordance with that determination); and

3) does not relate to the performance of [Transition Activities / Development Phase Activities / Services] [State Note: Delete whichever is not applicable] for which the State has paid Project Co under the Project Deed; and

B. the obligations of Project Co under the Subcontract arising on and from the Novation Notice Date (including in relation to payment of amounts for any part of the [Transition Activities / Development Phase Activities / Services] [State Note: Delete whichever is not applicable] performed before the Novation Notice Date that become due and payable on or after the Novation Date notwithstanding that such amounts relate to work performed before the Novation Notice Date) subject to any amendments agreed to the Subcontract in accordance with clause 8.2(a)(vi);

(ii) without prejudice to any then accrued rights against Project Co (other than termination), any Subcontractor's right that has been suspended by virtue of clause 6 will be of no further effect;

(iii) the Substitute Party will have all the rights of Project Co under the Subcontract (including any accrued rights of Project Co in respect of any damage, loss, cost, charge, expense, outgoing or payment to the extent that those rights arose prior to the Novation Notice Date and are the subject of any dispute referred to in clause 8.2(a)(i)A.2));

(iv) subject to clause 8.2(a)(iii) and any amendments agreed to the Subcontract in accordance with clause 8.2(a)(vi), the Subcontractor will be:

A. bound by and must comply with the provisions of the Subcontract binding on it for the benefit of the Substitute Party as if the Substitute Party were Project Co; and
B. entitled to any extensions of time which accrued to the Subcontractor prior to the Novation Notice Date; 

(v) Project Co is released from all of its obligations and Liabilities under the Subcontract, excluding any accrued obligations or Liabilities of Project Co to the extent that those accrued obligations or Liabilities: 

A. arose in connection with events occurring prior to the Novation Notice Date; and 

B. are not obligations and liabilities assumed by the Substitute Party under clause 8.2(a)(i); and 

(vi) the Subcontractor and the Substitute Party will promptly negotiate in good faith, any amendments to the Subcontract that are necessary to reflect the termination of the Project Deed.

For the avoidance of doubt, any caps on Liability in the Subcontract will continue to apply, but so that any Liability of the Subcontractor incurred to Project Co prior to the Novation Notice Date is taken into account in respect of any ongoing Liability of the Subcontractor to the Substitute Party.

(b) (No set off): The Subcontractor is not entitled to exercise any right of set off, deduction, abatement or counterclaim against the Substitute Party if, and to the extent that, such right arose prior to the Novation Notice Date.

(c) (Novation Deed): Subject to clause 8.3(c), Project Co, the Subcontractor and the Substitute Party must enter into an agreement in form and substance reasonably requested by the Substitute Party reflecting the novation of the Subcontract as contemplated in clause 8.2(a) and take such other action as is required to vest in the Substitute Party full legal and equitable title to any retention account, bank guarantee, performance bond, letter of credit or other security held by Project Co to secure the obligations of the Subcontractor under the Subcontract.

(d) (Attorney): For valuable consideration, Project Co and the Subcontractor each irrevocably appoint the State, on its behalf and in its name or otherwise, as its attorney to do anything which Project Co or the Subcontractor is obliged to do (but has not done within 5 Business Days after request) under clause 8.2(c). Each of Project Co and the Subcontractor ratifies and confirms and agrees to ratify and confirm whatever any such attorney lawfully does in the exercise of the power of attorney in this clause 8.2(d).

8.3 Novation to a Substitute Party other than the State

(a) (Information to be provided by the State): If the Novation Notice specifies that the Substitute Party is a person other than the State, the State must, at the time it gives a Novation Notice, provide to the Subcontractor the following particulars of the Substitute Party:

(i) its name, place of incorporation and identity of shareholder(s); 

(ii) if available, its most recent published audited accounts; and 

(iii) sufficient particulars of the finance available to the Substitute Party to enable the Subcontractor to decide whether to grant its consent to the Substitute Party.

(b) (Consent by the Subcontractor): A novation to a Substitute Party other than the State under this clause 8 will only be effective, and the Subcontractor will only be required to enter into a novation agreement under clause 8.2(c), if the
Subcontractor consents to that novation (such consent not to be unreasonably withheld or delayed) or is deemed to have consented in accordance with clause 8.3(d).

(c) (Additional information): The State must as soon as practicable supply the Subcontractor with such additional information to that provided under clause 8.3(a) as the Subcontractor reasonably requires to enable it to decide whether to grant consent under clause 8.3(b), and the Subcontractor must consider such information expeditiously and inform the State promptly if it requires further information.

(d) (Deemed consent): Unless the Subcontractor notifies the State of its earlier consent or refusal to a novation, the Subcontractor will be deemed to have consented to a novation to a Substitute Party other than the State if it has not notified the State under clause 8.3(e)(ii) within 10 Business Days after the later of the receipt of the Novation Notice and the information required under clause 8.3(a) and clause 8.3(c).

(e) (Unreasonably withholding consent): The Subcontractor will be deemed to unreasonably withhold consent unless:

(i) the grounds for refusal are reasonable and are based on:

A. the proposed novation deed referred to in clause 8.2(c) for the Substitute Party to assume the rights and obligations of Project Co under the Subcontract not being effective to substitute the Substitute Party for Project Co;

B. the Substitute Party not having the legal capacity, power and authorisation to become a party to and perform the obligations of Project Co under the Subcontract including any necessary authorisations and consents;

C. the financial standing of the Substitute Party being insufficient for it to meet the obligations of Project Co under the Subcontract; or

D. the Subcontractor being placed in breach of any Laws by the proposed novation and assignment; and

(ii) it has notified the State of such reason.

(f) (If the Subcontractor withholds consent): If the Subcontractor withholds its consent to a Novation Notice under this clause 8.3, this will not prejudice the ability of the State to give one or more subsequent Novation Notices, and information under clause 8.3(a), containing changed particulars relating to the same Substitute Party or particulars relating to another Substitute Party.

8.4 Accrued obligations and liabilities

Clause 8.2 does not operate to:

(a) (State to assume obligations or Liabilities): require the State to assume any obligations or Liabilities arising from, or which are required to be performed in connection with, the Subcontract prior to the Novation Notice Date unless expressly required to do so in clause 8.2; or

(b) (release Project Co): release Project Co from such obligations or Liabilities unless expressly required to do so in clause 8.2.
9. Dispute Resolution procedure

9.1 Procedure

Unless a State Project Document provides otherwise or the parties otherwise agree, the parties acknowledge and agree that any dispute between the parties to that dispute (Disputing Parties) arising in connection with:

(a) the Project (including questions concerning a State Project Document's existence, meaning or validity); or

(b) [Not used],

(Dispute) must only be resolved in accordance with the following procedure:

(c) first, the Dispute must be the subject of negotiation as required by clause 9.3;

(d) second, if the Dispute remains unresolved (in whole or in part) after the expiration of the period for resolution referred to in clause 9.3 and either Disputing Party wishes to pursue the Dispute:

   (i) if the Dispute is expressly referred to in a State Project Document to be a Dispute which may be referred to expert determination, the Dispute must be referred to expert determination and then only in accordance with clause 10; or

   (ii) if clause 9.1(d)(i) does not apply:

       A. the Disputing Parties may either agree that the Dispute will be referred to expert determination in accordance with clause 10; or

       B. if the Disputing Parties do not agree in accordance with clause 9.1(d)(ii)A to refer the Dispute to expert determination, either party may refer the Dispute to arbitration in accordance with clause 11; and

(e) third, if the Dispute has been referred to expert determination in accordance with clause 9.1(d)(i) or clause 9.1(d)(ii)A, any Disputing Party may subsequently refer the Dispute to arbitration in the circumstances stated in clause 11.

9.2 [Not used]

9.3 Senior negotiations

(a) (Notification): If a Dispute arises then a Disputing Party must, if it wants to pursue the Dispute, give notice to each other party requesting that the Dispute be referred for resolution by negotiation between the Chief Executive Officers (or equivalent) of the Disputing Parties (Representatives).

(b) (Contents of Notice): A notice under clause 9.3(a) must:

   (i) state that it is a notice under this clause 9.3; and

   (ii) include or be accompanied by particulars of the matters the subject of the Dispute.

(c) (Attempt to resolve Dispute): If a Dispute is referred for resolution by negotiation under clause 9.3(a), then:
(i) the Representatives must meet and attempt in good faith to resolve the Dispute (in whole or in part) within 10 Business Days after the date on which the notice under clause 9.3(a) is received or such later date as the Disputing Parties may agree; and

(ii) any agreement reached between the Representatives will be reduced to writing, signed by or on behalf of each Disputing Party and will be contractually binding on the Disputing Parties.

11.4 General Principles for conduct of arbitration

(a) (Conduct of arbitration): The Disputing Parties agree that:

(i) they have chosen arbitration for the purposes of achieving a just, quick and cost-effective resolution of any Dispute;
any arbitration conducted in accordance with this clause 11 will not necessarily mimic court proceedings of the seat of the arbitration or the place where hearings take place (if different), and the practices of those courts will not regulate the conduct of the proceedings before the arbitrator; and

in conducting the arbitration, the arbitrator must take into account the parties' intention as set out in clauses 11.4(a)(i) and 11.4(a)(ii).

(b) (Evidence in writing): All evidence in chief must be in writing unless otherwise ordered by the arbitrator.

(c) (Evidence and discovery): The rules for evidence and discovery will be the IBA Rules on the Taking of Evidence in International Arbitration current at the date of arbitration.

(d) (Oral hearing): The oral hearing must be conducted as follows:

(i) any oral hearing must take place in Melbourne, Victoria and all outstanding issues must be addressed at the oral hearing;

(ii) the date and duration of the oral hearing must be fixed by the arbitrator at the first preliminary conference. The arbitrator must have regard to the principles set out in clause 11.4(a) when determining the duration of the oral hearing;

(iii) oral evidence in chief at the hearing will be permitted only with the permission of the arbitrator for good cause;

(iv) the oral hearing must be conducted on a stop clock basis with the effect that the time available to the Disputing Parties must be split equally between the Disputing Parties so that each Disputing Party has the same time to conduct its case unless, in the opinion of the arbitrator, such a split would breach the rules of natural justice or is otherwise unfair to one of the Disputing Parties;

(v) not less than 28 days prior to the date fixed for oral hearing, each of the Disputing Parties must give notice of those witnesses (both factual and expert) of each other Disputing Party that it wishes to attend the hearing for cross examination;

(vi) in exceptional circumstances the arbitrator may amend the date of hearing and extend the time for the oral hearing set in accordance with clause 11.4(d)(ii);

(vii) a Disputing Party will not be bound to accept the written evidence of a witness submitted on behalf of the opposing party which is not challenged in cross examination; and

(viii) each Disputing Party is expected to put its case on significant issues in cross examination of a relevant witness called by the other Disputing Party or, if it seeks to challenge the evidence of a witness not called for cross-examination by reference to other evidence, to identify that evidence in its written opening submissions so that the other Disputing Party may know the nature of and basis for the challenge to the written evidence of a witness.

(e) (Experts): Unless otherwise ordered each Disputing Party may only rely upon one expert witness in connection with any recognised area of specialisation.
11.5  **Proportional liability**

The arbitrator will have no power to apply or to have regard to the provisions of any proportional liability legislation which might, in the absence of this clause 11.5, have applied to any Dispute referred to arbitration in accordance with this clause 11.

(b)  **(Arbitrator’s order):** An arbitrator may make an order in accordance with clause 11.6(a) on such terms and conditions (if any) as the arbitrator thinks fit.

11.7  **Award final and binding**

(a)  **(Final and binding):** Subject to clause 1.12 and clause 11.7(b), any award will be final and binding on the Disputing Parties.

(b)  **(Appeal):** Each Disputing Party consents to any appeal to a court where that appeal is made under the *Commercial Arbitration Act 2011 (Vic)* on a question of law arising in connection with an arbitral award made in accordance with this clause 11.

11.8  **Continue to perform**

Notwithstanding the existence of a Dispute, each Disputing Party must continue to carry out its obligations in accordance with this Deed.

11.9  **Governing law of arbitration agreement**

The Law governing this arbitration agreement is the law of Victoria, Australia.

11.10  **Interlocutory relief**

11.11  **Consolidation**

The parties agree that section 27C of the *Commercial Arbitration Act 2011 (Vic)* will apply.

(i) take out all insurances as are required to be taken out by it under the Subcontract; and

(ii) otherwise comply with all of its obligations in relation to insurance in the Subcontract.

(b) (Not to prejudice): Project Co and the Subcontractor must each ensure that it does not do or omit to do anything or does not permit anything to be done or omitted to be done whereby any Insurance policy required under the Subcontract may be prejudiced.

(c) (Void or Voidable): If any default is made by the Subcontractor in effecting or maintaining such Insurance policy or if any such Insurance policy becomes void or voidable, the State may (but is not obliged to) effect or maintain that Insurance policy at the cost of the Subcontractor or, failing it, Project Co.

(d) (State to be covered): If required by the Project Deed, on any Insurance contract entered into by the Subcontractor in accordance with clause 13(a), the Subcontractor must ensure that the State and the State Associates are specified as a person to whom the insurance cover provided by that contract extends.

(e) (All documents, evidence and information): Project Co and the Subcontractor must do all things necessary and provide all documents, evidence and information necessary to enable the State to collect or recover any moneys due or to become due to the State in respect of any Insurance policy required under the Subcontract at the cost of the Subcontractor or, failing it, Project Co.

(f) (Cancellation, lapse or material change): Without prejudice to the above requirements, neither Project Co nor the Subcontractor will cause or take any steps to bring about the cancellation, lapse, material change, reduction or any rescinding of any such Insurance policy unless it has first obtained the consent of the State.

(g) (Notify the State): Project Co and the Subcontractor will immediately notify the State of any cancellation, lapse, material change, reduction, or any rescission of any such Insurance policy, and of the occurrence of any event giving rise to any claim under any such Insurance policy in respect of the Project unless Project Co or the Subcontractor's right of indemnity under the relevant Insurance policy would be prejudiced by the giving of such notices.

(h) (Several obligations): Notwithstanding clause 1.3(s), but subject to the obligations of Project Co under the terms of the Project Deed, the obligations of Project Co and the Subcontractor in this clause 13 are several.

14. Goods and Services Tax (GST)

(ii) an additional amount will be payable by the party which is the recipient of the Taxable Supply (**Recipient**), equal to the amount of GST payable on that Taxable Supply as calculated by the Supplier in accordance with the GST Law, which will be payable at the same time and in the same manner as for the Agreed Amount; and

(iii) the Supplier will provide a Tax Invoice to the Recipient in connection with that supply, either at the time expressly set out in any other provision of this Deed or no later than the time at which the Agreed Amount for that Taxable Supply is to be provided under this Deed. The Recipient is not obliged to pay any amount in accordance with this clause 14(c) unless and until a Tax Invoice is received by the Recipient.

(d) **(Variation in GST payable):** If for any reason, the GST payable by the Supplier in connection with a supply it makes under or in connection with this Deed (incorporating any increasing adjustments or decreasing adjustments relating to that supply) varies from the additional amount it received from the Recipient under clause 14(c) in connection with that supply, the Supplier will provide a refund or credit to, or will be entitled to receive from, the Recipient (as applicable) the amount of this variation. If an adjustment event occurs in relation to a supply and unless the Recipient is required to issue the Adjustment Note:

(i) the Supplier will issue an Adjustment Note to the Recipient in connection with that supply within 14 days after becoming aware of that adjustment event occurring; and

(f) **(Expert Determination):** If the Recipient is dissatisfied with any calculation to be made by the Supplier in accordance with this clause 14 the Recipient may, at its own expense and after notifying the Supplier accordingly, refer the matter to an independent expert nominated by the President of the Institute of Chartered Accountants for expert determination, which will be final and binding. The expert will act as an expert and not as an arbitrator and must take into account the terms of this Deed, the matters required to be taken into account by the Supplier in accordance with this clause 14 and any other matter considered by the expert to be relevant to the determination. The parties release the expert from any liability in acting as an expert, except in the case of fraud on the part of the expert.

(g) **(Revenue net of GST):** Any reference in this Deed to price, value, sales, revenue, profit or a similar amount (**Revenue**), is a reference to the GST exclusive component of that Revenue, unless the contrary intention is expressed.

(k) (GST Groups): For the purposes of this Deed, a reference to GST payable on a Taxable Supply made by a party includes any corresponding GST payable by the representative member of any GST group of which that party is a member and a reference to an input tax credit entitlement of a party includes any corresponding input tax credit entitlement of the representative member of any GST group of which that party is a member, and if a party to this Deed makes a Taxable Supply by virtue of entering into or performing this Deed and the 'recipient' of that Taxable Supply (within the meaning of the GST Act) is an Associate of another party to this Deed that other party to this Deed will be obliged either to pay the amount referred to in clause 14(c)(ii) or procure that the actual recipient pays the relevant amount, and the payer of that amount shall be the 'Recipient' for the purposes of this clause 14 in relation to the relevant Taxable Supply.

(l) (Project Deed to prevail): If clause 61 of the Project Deed would apply in respect of a Taxable Supply to which this clause 14 also applies then clause 61 of the Project Deed will apply in respect of that supply and the provisions of this clause 14 (but for this paragraph) will not apply.

Except as otherwise provided in this Deed or (as between the State and Project Co) the Project Deed, each party must pay its own costs and expenses in connection with negotiating, preparing, executing and performing this Deed.
18.9 Severance

If, at any time, a provision of this Deed is or becomes illegal, invalid or unenforceable in any respect under the Law of any jurisdiction, that will not affect or impair the legality, validity or enforceability of:

(a) any other provision of this Deed; or
(b) that provision under the Law of any other jurisdiction.

18.10 Counterparts

This deed may be executed in any number of counterparts and by the parties in separate counterparts. Each counterpart constitutes the deed of each party who has executed and delivered that counterpart. All such counterparts taken together will be deemed to constitute one and the same Deed.

18.11 Moratorium legislation

Each of Project Co and the Subcontractor waives any right or remedy it may have under any Law which comes into effect after the date of this Deed if the exercise of such right or remedy would:

(a) lessen any obligation or Liability of Project Co or the Subcontractor (as applicable); or
(b) prejudicially affect the rights, powers or remedies of the State,

under a State Project Document to which it is a party.

18.12 [Not used]

18.13 Indemnity held on trust

(a) (Benefit of indemnities): The State holds on trust for each State Associate the benefit of:

(i) each indemnity, release, limitation of Liability and exclusion of Liability given by Project Co or the Subcontractor under this Deed in favour of the relevant State Associate; and
(ii) each right in this Deed to the extent that such right is expressly provided to be for the benefit of any State Associate.

(b) (Project Co and Subcontractor acknowledgement): Project Co and the Subcontractor acknowledge the existence of such trusts and consents to the State exercising rights in relation to, or otherwise enforcing such indemnities, releases, limitations and rights on behalf of the State Associates.

(c) (Consent not required): The parties agree that the State does not require the consent of any State Associate to amend or waive any provision of any Project Document.

18.14 Assignment

Except as expressly contemplated by this Deed, neither Project Co nor the Subcontractor may assign or transfer any of its rights or obligations under this Deed or the Subcontract.
18.15  Set off

Without limiting the State's rights under the Project Deed, all moneys which the State may pay or incur and for which Project Co is liable under the terms of the Project Deed or in respect of which it is under this Deed liable to make reimbursement to or indemnify the State, may be deducted by the State from all moneys due, becoming due or to become due from it to Project Co under the Project Deed or may be recovered from Project Co by action at Law or otherwise.

19.  Aggregate Liability

(a) Despite any other provision of any Project Document the Subcontractor's aggregate liability to the State and Project Co whether in contract (including under an indemnity), tort (including negligence) or equity, under statute or otherwise, arising out or in connection with the subject matter of the Project Documents, and irrespective of how it arises, will be no greater than the Subcontractor aggregate liability to Project Co under the Subcontract, subject to the same exceptions, exclusions and limitations as are specified in the Project Documents, less the liability incurred (from time to time) by the Subcontractor under the Subcontract.

(b) The Subcontractor must, within 10 Business Days of a request by the State, notify the value of any Claim against the Subcontractor by Project Co or any Project Co Associate, together with any further detail regarding the calculation of such amount as reasonably requested by the State.

(c) For the avoidance of doubt, nothing in this clause 19 limits the liability of Project Co under any Project Document.

(b) Any provision of this Initial Licence which seeks, either expressly or by implication, to limit or exclude any Liability of a party is to be construed as doing so only to the extent permitted by Law.

1.6 Prior approval or consent

If Project Co is required by this Initial Licence to obtain the State's or the State Representative's consent or approval to an action, document or thing, unless otherwise expressly stated, that consent or approval must be obtained as a condition precedent to the action, document or thing occurring or coming into effect.

(i) a breach by the State of any State Project Document; or

(ii) an express entitlement of Project Co under any State Project Document, but for these clauses.
1.10 Reasonable endeavours of State

Any statement in this Initial Licence providing that the State or any officer, employee or agent of the State will or must use or exercise “reasonable endeavours”, “act reasonably” or “act in good faith” in relation to an outcome, means that the State must take steps to bring about the relevant outcome so far as it is reasonably able to do so, having regard to its resources and other responsibilities but does not mean that the State or any officer, employee or agent of the State:

(a) (no guarantee): guarantees the relevant outcome will be brought about; or

2.3 **Revocation or amendment of delegation**

Any such delegation may be revoked, changed, delegated, limited or made subject to such conditions as the State determines from time to time.

2.4 **No limitation of obligations**

The appointment of a delegate to perform some or all of the rights of the State under this Initial Licence does not limit the rights or obligations of the State under this Initial Licence.

### 3. Negation of representations and warranties

The State makes no representations (express or implied) and gives no warranties (express or implied):

(a) *(suitability of purposes)*: that the Initial Licence Areas or any other land is now or will remain suitable or adequate for all or any of the purposes contemplated by this Initial Licence or in the Project Deed; and

#### 4.2 Nature of interest

(a) *(Contractual Licence)*: The rights conferred on Project Co by this Initial Licence rest in contract only and do not confer a proprietary interest on Project Co.

(b) *(Restrictions on Initial Licence)*: Without limiting the generality of clause 4.2(a):

(i) ownership and control of the Initial Licence Areas remains vested in the relevant owner of the land at all times;

(ii) the Initial Licence does not grant Project Co ownership, control or legal entitlement to exclusive possession of the Initial Licence Areas nor does it extend to Project Co an entitlement to rents or profits in respect of the Initial Licence Areas; and

(iii) Project Co and any Project Co Associate may only access the Initial Licence Areas for the Permitted Use.
5. Payments

5.1 Initial Licence

(a) (Licence Fee): In consideration of the rights to enter on, occupy and access (as applicable) the Initial Licence Areas pursuant to this Initial Licence, Project Co agrees to pay to the State each Licence Fee (and that Licence Fee will become due and payable) immediately prior to the date on which the relevant Service Payment (for the Quarter ending on the Licence Fee Date related to that Licence Fee) becomes due and payable and such payments will be made by Project Co until the date that this Initial Licence is terminated under clause 6 without any abatement, deduction or right of set off.

(b) (Adjustments): The parties will adjust the Licence Fees to reflect any adjustment to the Receivables Purchase Price under clause 41.1(c) of the Project Deed.

5.3 Payment by the State

If Project Co defaults in the payment of any of the costs or charges referred to in clause 5.2, the State may (without limiting any other rights and remedies of the State) pay the costs or charges, and any amount paid by the State will be a debt due and payable from Project Co to the State.

(iii) any other date as is agreed by the parties.

(b) To the extent that this Initial Licence applies to the area required for each Returned Asset, the Initial Licence expires in respect of such area on the handback of the relevant Returned Asset except to the extent any Defect rectification work is required to be carried out to or on a Returned Asset, in which case the Initial License will continue to apply in respect of those parts of the Initial Licence Area Project Co requires access to carry out that Defect rectification work until the expiry of the Defects Liability Period for the relevant Returned Asset under clause 27.2(a) of the Project Deed.

7. Approval to demolish structures, etc.

Except where specified or required under the PSDR, Project Co must submit to the State for approval (with such approval not to be unreasonably withheld by the State), prior to submitting

The State may deduct from any amount due and payable by the State to a Proponent under the Augmentation Process Deed:

(a) any amount due and payable by the Proponent or any Proponent Associate to the State; and

(b) the amount of any Claim that the State may have against the Proponent or any Proponent Associate.

10. State Brief

The parties must agree and set out in the Augmentation Process Deed:

(a) the Milestone upon which the State Brief may be issued by the State; and

(b) the form and content of any such State Brief which, unless otherwise agreed by the parties (acting reasonably having regard to the nature and the extent of the Augmentation), should be consistent with the then current Partnerships Victoria Request for Proposal template as published on the Partnerships Victoria website.

11. Contractual model

(a) The form of contract for the delivery of an Augmentation will be:

(i) as specified in the State Brief; or

(ii) otherwise agreed between the parties.

(b) Any contract proposed for the delivery of the Augmentation must have terms that are consistent with the risk allocation in this Deed or the Standard Form Project Deed save that as between the State on the one hand and the Proponents and Project Co on the other hand, the Proponents and Project Co will bear all interface risk between the Project and the Augmentation.
12. Existing Financiers

(a) Project Co must use reasonable endeavours to procure any consents required from the Financiers in connection with the relevant Augmentation (including in relation to entry into the Augmentation Documents).

(b) The Proponents must develop a strategy for engaging with the Financiers, or to refinance debt if applicable, which must be approved by the State and included in the Augmentation Process Deed.

13. Augmentation Price and Funding

13.1 Funding for the Augmentation

(a) Project Co acknowledges and agrees that value for money is a key consideration for the State in evaluating and agreeing to an appropriate funding and financing solution for an Augmentation.

(b) The commercial principles that will apply to the funding and financing solution for an Augmentation, which are to be reflected in the Augmentation Documents, must be agreed by the parties and must be consistent with those required by the PV Requirements.

(c) Any funding or financing required for a proposed Augmentation must be procured in accordance with section 14 and included in the Final Augmentation Proposal.

13.2 Augmentation Equity IRR

(a) If the Augmentation will include the contribution of equity and, in accordance with the principles set out in section 14.1, the parties determine not to undertake a Tender Process to procure the equity for the Augmentation, the pre-tax equity IRR for the Augmentation must be included in the Augmentation Process Deed and must not exceed the maximum Augmentation Equity IRR (Augmentation Equity IRR Cap).

(b) Unless the State materially changes the scope or risk allocation of the Augmentation from that identified in this Deed or the Standard Form Project Deed or the State otherwise agrees, any Augmentation Equity IRR included in the Augmentation Process Deed must be included in the Final Augmentation Proposal, unadjusted, and must not exceed the Augmentation Equity IRR Cap.

13.3 Augmentation Management Fee

(a) The Augmentation Process Deed must set out any agreed Augmentation Management Fee which will be determined on an open book basis using methods that will be able to demonstrate value for money to the State in respect of the proposed Augmentation Management Fee, including benchmarking in respect of comparable reference projects.

(b) Unless the State materially changes the scope of the Augmentation or otherwise agrees, any Augmentation Management Fee included in the Augmentation Process Deed must be included in the Final Augmentation Proposal, unadjusted.

(c) The Augmentation Management Fee must not include any Third Party Cost or any part of the Augmentation Process Fee.

(d) Neither Project Co nor the Proponents will be entitled to be paid any amount in respect of the Augmentation Management Fee if the Augmentation Process Deed is terminated prior to Contract Close.

(e) The Augmentation Management Fee must be calculated on an open book basis.
13.4 Margin

(a) Subject to section 13.3:

(i) if, in accordance with the principles set out in section 14.1, the parties determine to procure a Key Subcontractor to undertake any part of the Augmentation without a Tender Process, the Margin of that Key Subcontractor for the work it will undertake as part of the Augmentation must be included in the Augmentation Process Deed and must not exceed the Construction Margin and the Maintenance Margin (as applicable); and

(ii) the Margin of Project Co for the work it will undertake as part of the Augmentation must be included in the Augmentation Process Deed and must not exceed the Project Co Margin.

(b) Unless the State materially changes the scope of the Augmentation Process Deed, or otherwise agrees, any Key Subcontractor Margin or Project Co Margin for the Augmentation included in the Augmentation Process Deed must be included in the Final Augmentation Proposal, unadjusted and must not exceed the Construction Margin, Maintenance Margin or Project Co Margin (as applicable).

14. Key principles for Tender Processes

14.1 General principles

(a) Subject to section 14.1(b), the Proponents must undertake a competitive tender process for all parts of the relevant Augmentation other than the management of the delivery of the Augmentation in respect of which the Augmentation Management Fee is payable (Tender Process).

(b) In only exceptional circumstances and if the Proponents are able to demonstrate to the satisfaction of the State that it is not possible or will not deliver the State value for money to run a competitive Tender Process for any part of an Augmentation, the Proponents must propose another process, and demonstrate that the outcome of this alternative process will deliver at least the same value for money to the State as a competitive Tender Process.

(c) If the State agrees to an alternative process to a Tender Process for the procurement of any part of the Augmentation (Alternative Process):

(i) any such Alternative Process must be set out in the Augmentation Process Deed and must be undertaken on a transparent and open book basis;

(ii) subject to clause 14.1(c)(iii), the price outcome of the Alternative Process will not be subject to further adjustment, other than to the extent of a change in scope of the Augmentation agreed to by the State; and

(iii) if the State notifies the Proponents that it is dissatisfied with the Alternative Process (including the progress of the Alternative Process) or the outcome of the Alternative Process, the Proponents must cease the Alternative Process (if not already concluded) and instead undertake a Tender Process for the relevant part of the Augmentation.

(d) Without limiting sections 9.2 and 9.3, none of Project Co, the Proponents, the Project Co Associates or the Proponent Associates are entitled to make any Claim against the State or any State Associate in connection with a Tender Process or any Alternative Process for an Augmentation.
14.2 Tender Process principles

A clear structure and process must be set out in the Augmentation Process Deed for each Tender Process in accordance with the following principles:

(a) the Proponents will be responsible for conducting the Tender Process, including preparing the tender strategy, timetable, evaluation plan and assessment criteria;

(b) the Tender Process must be completed on a competitive, arm's length, transparent and open book basis;

(c) tender submissions must meet the State Brief requirements for the relevant Augmentation;

(d) Tenderers must demonstrate value for money;

(e) selection of a preferred Tenderer must be based on competent and fully detailed analysis of the respective tender submissions;

(f) there must be no bias and no perception of bias;

(g) the Tender Process must be fair and be seen to be fair to all participants;

(h) the State may appoint a probity auditor (which may be the State Probity Auditor as defined in the Probity and Process Deed) or require the Proponents to appoint a probity advisor to oversee the Tender Process;

(i) confidentiality must be upheld at all stages of the Tender Process and effective security measures must be maintained to safeguard the Tenderer Information from unauthorised access or use;

(j) key decisions must be well documented such that the results are transparent and auditable in accordance with any applicable Laws and Standards;

(k) the State must approve each Tender Process before it is commenced by the Proponents;

(l) the State must have full visibility of each Tender Process, including:
   (i) any Tenderer Information and any material or communications produced by Project Co, any Proponent, any Project Co Associate or any Proponent Associate in relation to the Tender Process; and
   (ii) a right to attend and actively participate in all negotiations and meetings with Tenderers;

(m) all tender documentation must be approved by the State prior to release and incorporate any State requirements, including with respect to probity requirements and maintaining the integrity of the Tender Process;

(n) the Proponents must ensure that there are no conflicts of interest or perceived conflicts of interest associated with the Tender Process, or if there is a potential or perceived conflict of interest, that appropriate and customary safeguards acceptable to the State (acting reasonably) are in place to manage that potential or perceived conflict of interest;

(o) Related Bodies Corporate or shareholders of Project Co, any Proponent, Proponent Associate, any Key Subcontractor or any Significant Subcontractor can only tender for packages the subject of a Tender Process if approved by the State;

(p) following receipt of tenders, the Proponents must provide the State with a detailed explanation of the reasons for its recommendation or proposal (including a comparative analysis of the tender received from a preferred Tenderer and each other tender received);

(q) the Proponents must not select a preferred Tenderer without State approval;
(r) the State may reject the Proponents' preferred Tenderer;

(s) at the request of the State from time to time, the Proponents must provide any
documents, records and other information that the State reasonably requires to
evidence compliance by the Proponents with the requirements of the Augmentation
Process Deed, including providing any tender submitted by a Tenderer,
communications with the Tenderers and final contracts (including downstream
tenders and contracts);

(t) the Proponents must notify the State immediately if they become aware of any
suspected or actual breach of any Tender Process arrangements and take all
reasonable steps to prevent or stop any such suspected or actual breach of the
Tender Process arrangements; and

(u) Project Co must maintain, or must procure that the Proponents maintain, records of
the Tender Process and all decisions made by Project Co, the Proponents, any
Project Co Associates or any Proponent Associates during the Tender Process to
allow for independent auditing of the Tender Process and review and consideration
by the State, including:

(i) minutes of meetings;

(ii) the Tenderer Information;

(iii) correspondence sent by or to Project Co, any Proponent, any Project Co
Associate or any Proponent Associate in relation to the Tender Process
or the Augmentation;

(iv) papers presented to any working group referred to in this Schedule; and

(v) assessment reports,

(Tender Process Principles).

the Augmentation Process Deed, however a Final Augmentation Proposal must be
submitted by the Proponents in accordance with the Augmentation Process Deed
and the State Brief (or any other process agreed by the parties) which will be
evaluated by the State for the purposes of determining whether to implement the
relevant Augmentation.

(b) The parties must agree on the phases for the procurement of the Augmentation,
which may include the preparation and submission by Project Co or the Proponents
(as the case may be) of Augmentation Proposal(s) and evaluation of Augmentation
Proposals by the State, negotiation of the Augmentation Documents and the
achievement of Contract Close, (each a Phase and together the Phases).

15.2 Key inclusions in the Augmentation Proposal

(a) The Proponents must submit a Final Augmentation Proposal in a form and with
sufficient information to enable the State to determine whether or not to proceed
with the Augmentation, including:

(i) being in the form, and containing the information and documents,
required by the Augmentation Process Deed and the State Brief (or any
other process as agreed by the parties);

(ii) being of a quality and level of detail similar to that which would be
submitted as part of a proposal in response to a request for proposal for
a Partnerships Victoria PPP project as set out in the Partnerships
Victoria Request for Proposal template as published on the Partnerships Victoria website at the relevant time;

(iii) any offers received from a Tender Process for the relevant Augmentation;

(iv) a financial model for the Augmentation in a form and containing a level of detail similar to that required by the Partnerships Victoria Request for Proposal template as published on the Partnerships Victoria website at the relevant time;

(v) drafts of all Augmentation Documents proposed to be entered into in connection with the relevant Augmentation;

(b) The State may ask clarification questions in respect of any Augmentation Proposal and the Proponents must, and must procure that the relevant Proponent Associates, promptly consider and respond to any such clarification question.

15.3 Commercial Development

(a) The Proponents must, in their Augmentation Proposal, include full details of any commercial development they propose to deliver under, or in conjunction with, the relevant Augmentation (Commercial Development).

(b) The State will take no risk on delivery of the Commercial Development or on any interface risk between such Commercial Development and the relevant Augmentation or the Project.

16. Evaluation and negotiation of Final Augmentation Proposals

(a) Provided all Milestones which are required to have been achieved prior to the State evaluating the Final Augmentation Proposal have been achieved (or waived by the State in accordance with the Augmentation Process Deed), the State will undertake its evaluation and value for money assessment of the Final Augmentation Proposal.

(b) The State will determine how, or the principles for how, the Final Augmentation Proposal will be evaluated by the State subject to any express provisions in relation to such evaluation set out in the relevant Augmentation Process Deed or State Brief.

(c) Evaluation criteria for the Final Augmentation Proposal will be of a quality and level of detail similar to the evaluation criteria contained in the request for proposal for a Partnerships Victoria PPP Project as set out the Partnerships Victoria Request for Proposal template as published on the Partnerships Victoria website at the relevant time.

(d) Subject to section 17, if the State evaluates the Final Augmentation Proposal as acceptable, the Proponents must negotiate in good faith to finalise the Augmentation Documents, in order to achieve Contract Close by the Date for Contract Close.
17. Privileges and discretions of the State

(a) In addition to its rights set out elsewhere in the Augmentation Process Deed, including its right to terminate the Augmentation Process Deed at any time, the State will have the right to:

(i) accept or reject all or part of an Augmentation Proposal (whether or not an Augmentation Proposal meets the evaluation criteria);

(ii) change the Augmentation (substantially or otherwise);

(iii) suspend the Augmentation Process at any time or the further participation of Project Co, any Proponent, any Project Co Associate or any Proponent Associate in the Augmentation Process;

(iv) request additional information from the Proponents in connection with the Augmentation, whether it has been submitted to the State or not and the Proponents must provide and must procure that Project Co, any relevant Proponent Associate or any relevant Project Co Associate provides, that information requested within 10 Business Days after receipt of request from the State;

(v) adopt different procedures for, or methods of, evaluation, negotiation, discussion or engagement with the Proponents and may alter these procedures and methods at any time;

(vi) impose additional obligations on Project Co, any Proponent, any Proponent Associate or any Project Co Associate if the State reasonably determines that those additional obligations are necessary or desirable to ensure (or to ensure the perception of) confidentiality, competitiveness or probity with respect to the Augmentation Process or the Augmentation and Project Co, the Proponents, the Project Co Associates and Proponent Associates (as applicable) must comply with those obligations; and

(vii) take such other action as it deems fit in relation to the Augmentation Process.

(b) Notwithstanding the terms of any Augmentation Process Deed and this Deed, the State Augmentation Documents are not binding on the State until they are executed by all parties to them and then only to the extent stated in the State Augmentation Documents.

18. Termination of the Augmentation Process Deed

18.1 Termination of the Augmentation Process Deed

Unless otherwise expressly provided, an Augmentation Process Deed must terminate on the earlier of:

(a) Contract Close; or

(b) the termination of the Augmentation Process Deed in accordance with section 18.2, section 18.3 or section 18.4.

18.2 Termination by State for failure to pass Milestone or for Proponent default

Unless otherwise expressly provided in an Augmentation Process Deed, the State may terminate any Augmentation Process Deed if:
(a) a Milestone is not achieved by the date such Milestone is required to be achieved as set out in the relevant Augmentation Process Deed (where the Proponents have a hard obligation to achieve that Milestone) subject to any cure period or extension of time regime agreed by the parties and set out in the relevant Augmentation Process Deed;

(b) any Proponent does not otherwise comply with the terms of the Augmentation Process Deed and the Proponents do not Cure such non-compliance (or, where the non-compliance is not capable of Cure, comply with any reasonable requirements of the State (if any) to overcome the consequences of, or compensate the State for, the non-compliance) within the time period set out in the Augmentation Process Deed, or where no time period is set out in the Augmentation Process Deed such reasonable period determined by the State and notified to the Proponents in a notice from the State alleging the non-compliance; or

(c) an Augmentation Proposal submitted by the Proponents to the State is not substantially in accordance with the terms of the Augmentation Process Deed or State Brief.

18.3 Termination for convenience

The State may terminate the Augmentation Process Deed:

(a) if the Final Augmentation Proposal is not accepted by the State in accordance with the terms of the Augmentation Process Deed or State Brief; or

(b) at any time for its convenience.

18.4 Termination for unforeseeable neutral event

Either party may terminate the Augmentation Process Deed on notice to the other where the activities of the parties under the Augmentation Process Deed are suspended for an extended period of time which will be specified in the Augmentation Process Deed but must not be less than 180 continuous days due to an unforeseeable event that was beyond the reasonable control of the Proponents, the Proponent Associates, Project Co, the Project Co Associates, the State and the State Associates.

18.5 Payment on termination for failure to pass Milestone or for Proponent default

If an Augmentation Process Deed is terminated under section 18.2:

(a) the State will pay the Proponents, subject to its rights of set-off set out in the Augmentation Process Deed:

(i) to the extent not already paid, any Third Party Costs that are due and payable in accordance with the Augmentation Process Deed in respect of any Milestones that were achieved prior to the termination under the Augmentation Process Deed which, together with all other Third Party Costs that have been paid by the State to the date of termination, must not exceed the relevant Third Party Cost Cap; and

(ii) to the extent not already paid, all other Design Fees properly and reasonably incurred in accordance with the Augmentation Process Deed up to the date of termination which, together with the amount payable under section 18.5(a)(i) in respect of Design Fees and all other Design Fees that have been paid by the State to the date of termination, must not exceed the Design Fees Cap; and

(b) the State will not pay the Proponents any other amount, including any amount in respect of the Augmentation Process Fee.
18.6 Payment on termination for convenience

If an Augmentation Process Deed is terminated under section 18.3, the State will pay the Proponents, subject to its rights of set-off set out in the Augmentation Process Deed:

(a) to the extent not already paid, all Third Party Costs properly and reasonably incurred in accordance with the Augmentation Process Deed up to the date of termination which, together with all other Third Party Costs that have been paid by the State to the date of termination, must not exceed the Third Party Cost Cap;

(b) the amount of the Augmentation Process Fee properly and reasonably incurred in accordance with the Augmentation Process Deed up to the date of termination which must not exceed the Augmentation Process Fee Cap; and

18.8 State's rights after termination

If an Augmentation Process Deed is terminated (other than due to Contract Close occurring):

(a) the Proponents and Project Co will have no Claim against the State in respect of that proposed Augmentation, and will procure that no Project Co Associate or Proponent Associate makes a Claim against the State in respect of that proposed Augmentation, other than to the extent expressly provided in the Augmentation Process Deed, any Probity and Process Deed or this Deed;

(b) the State may elect, other than to the extent expressly provided in the Augmentation Process Deed:

(d) the Proponents and Project Co must procure the novation of any agreements entered into by Project Co, the Proponents, any Project Co Associate or any Proponent Associate in relation to the relevant Augmentation as the State may nominate, to the State or any nominee of the State and the terms of the Augmentation Process Deed and any such agreement must be drafted to facilitate those novations;

(e) any indemnity provided in accordance with section 20 will not apply in respect of a Tender Process or part of a Tender Process that is taken over by the State, for the period of time after which it is taken over by the State, but without limiting any right or entitlement arising in respect of a Tender Process prior to the State taking over such Tender Process;

(f) this Deed will continue to apply (whether or not the State takes over all or any part of a Tender Process); and

(g) the Proponents will be entitled to be paid their reasonable internal and external costs in complying with their obligations under section 18.8(c) to be determined on an open book basis.

19. Intellectual Property

19.1 State Augmentation Information licence

Under the Augmentation Process Deed, the State will grant to the Proponents and Project Co an irrevocable, royalty free, non-exclusive licence to exercise the Intellectual Property Rights in the State Augmentation Information solely for the Permitted Purpose which:

19.2 Proponent Augmentation Material

(a) Subject to section 19.3(b), under the Augmentation Process Deed the Proponents and Project Co must, and must procure that the Proponent Associates and Project Co Associates, grant to the State a perpetual, irrevocable, non-exclusive, worldwide, royalty free licence (with a right to sublicense) to exercise all Intellectual Property Rights in the Proponent Augmentation Material for any purposes of or in connection with:

(i) reviewing, assessing and deciding whether to proceed with the Augmentation (or any modified version of it which is being pursued by a Proponent);

(ii) to the extent those Intellectual Property Rights are Background IP (other than Excluded IP) subsisting in subject matter forming part of the Augmentation, using, dealing with, maintaining, remedying defects or omissions in, modifying and developing the subject matter in which that Background IP subsists; and
(iii) in respect of all other such Intellectual Property Rights (other than Excluded IP):

A. the procurement, funding, financing, design, supply, construction, installation, production, commissioning, completion, operation, maintenance, repair and alteration of the Augmentation (or any part of the Augmentation), or any other augmentation in Victoria or reviewing, assessing and deciding whether to proceed with the Augmentation (or any modified version of it which is being pursued by the Proponent);

B. the procurement, funding, financing, design, supply, construction, installation, production, commissioning, completion, operation, maintenance, repair and alteration of any thing (including infrastructure, equipment, computer hardware, computer software and computer or telecommunications systems) which interfaces or interoperates with, or which is (in whole or in part) located under, on, above or adjacent to any infrastructure implemented in connection with the Augmentation (or any modified version of it which is being pursued by the Proponent); or

C. any other project, infrastructure, augmentation, initiative or thing undertaken by or on behalf of the State within Victoria.

(b) Under the Augmentation Process Deed, the Proponents and Project Co will warrant to the State that:

A. the exercise of those rights by the State, its Associates or any person nominated or authorised by the State; nor

B. the possession or use of any materials in which those rights subsist in connection with the Augmentation Process Deed, in accordance with the Augmentation Process Deed will give rise to any Liability on the part of the State, its Associates or any person nominated or authorised by the State, including to pay any compensation (including any royalty) to any person, or will give rise to a right entitling any person to make a Claim against the State, its Associates or any person nominated or authorised by the State for any attribution or acknowledgment or rectification in relation to the Intellectual Property Rights or any materials in which they subsist.

19.3 State's further Intellectual Property Rights

(a) Nothing in this Deed, any Augmentation Process Deed or any Augmentation Document prevents the State or any State Associate from:
(i) exercising the Intellectual Property Rights in the State Augmentation Information;

(ii) exercising the Intellectual Property Rights created by the State or any State Associate as part of the Augmentation Process (without limiting section 19.3(b), other than to the extent they are Intellectual Property Rights in the Proponent Augmentation Material); and

(b) Subject to section 19.3(c), if an Augmentation Process Deed is terminated other than due to Contract Close occurring, the Proponents and Project Co must, and must procure that the Proponent Associates and Project Co Associates, grant a worldwide, permanent, perpetual, irrevocable, transferable, royalty-free, sublicensable licence to the State to exercise:

(i) the Intellectual Property Rights in all of the Proponent Augmentation Material, other than Excluded IP, for any lawful purpose required by the State; and

(ii) to the extent that the Intellectual Property Rights referred to in section 19.3(b)(i) cannot reasonably be exercised without Material in which Background IP subsists, the Intellectual Property Rights in that Background IP.

(c) The licence granted under section 19.3(b) in respect of an Augmentation will arise on the date of termination of the Augmentation Process Deed.

(d) In order to ensure the State has the full benefit of the licence granted under section 19.3(b), the Proponents and Project Co must, and must procure that the relevant Project Co Associates and Proponent Associates for a period of 6 months after the termination of the Augmentation Process Deed:

(i) provide all reasonable access required by the State to the Proponents', Project Co's, Project Co Associates' and the Proponent Associates' databases, programmes and other software pursuant to which the Intellectual Property Rights in the Proponent Augmentation Material (other than Excluded IP) were created, including in native application, well ordered and in a manner that is able to be readily used; and

(ii) make available, and continue to make available, to the State an appropriate number of resources, having sufficient skills, qualifications and experience for the purposes of the State being able to understand and fully utilise the Intellectual Property Rights in the Proponent Augmentation Material (other than Excluded IP).

(e) Project Co, the Proponents, the Project Co Associates and the Proponent Associates (as applicable) will be entitled to be paid their reasonable internal and external costs properly and reasonably in complying with their obligations under section 19.3(d) to be determined on an open book basis.

(ii) any Wilful Misconduct by Project Co, any Project Co Associate, any Proponent or any Proponent Associate in relation to an Augmentation or an Augmentation Process;

(iv) any Commercial Development proposed to be undertaken in connection with an Augmentation.

(b) Unless otherwise agreed by the State, the Proponents' liability to the State under section 20(a) should not be limited by any exclusion of the Proponents' liability for Indirect or Consequential Loss.

(iv) setting out the adjustment to the Service Payment calculated in accordance with section 3 having regard to the acceptance or determination made under section 2(m)(i) and the nominations made under sections 2(m)(ii) and 2(m)(iii) (which for the avoidance of doubt will not include the amount payable in respect of an Approved Modification for Category C Assets) (Payment Adjustment).

(n) With effect from the date of the State's notice issued under section 2(m):

(i) the Nominated Additional Assets that are Category A Assets or Category B Assets will be Maintained Assets;

(q) Except in relation to Category C Assets, a change or variation to the Maintained Assets as a result of any Third Party Works is not a Modification.
(r) The State must use reasonable endeavours to procure that VicRoads transfers or assigns to Project Co the benefit of any warranty or guarantee received by VicRoads in respect of any Additional Assets that become Maintained Assets under this section if requested to do so by Project Co provided that VicRoads will not be required to transfer or assign any warranty or guarantee where it is not permitted to assign or transfer the warranty or guarantee pursuant to its terms and conditions or where assignment or transfer would require VicRoads to incur material expenditure. A. to provide Project Co with comparable remedies and entitlements in respect of Common Disputes, and to limit Project Co's rights against the State in respect of Common Disputes by reference to the State's and the relevant Third Party's rights and entitlements under or in connection with the V/Line Project Agreement or a VIVA Recoverable Works Agreement; and

B. not to reduce, disentitle or otherwise affect the validity of any Claim by the State or a relevant Third Party Authority against a Counterparty under, arising out of, or in any way in connection with, the V/Line Project Agreement or a VIVA Recoverable Works Agreement (as applicable);

(ii) to which sections 2.2(g) to 2.2(n) apply, Project Co's entitlement to receive compensation from the State, and the State's liability to pay compensation to Project Co, will only arise at the time the relevant Common Dispute is resolved or determined;

(iii) if any compensation is payable by the State to Project Co under this Deed in respect of a Common Dispute, Project Co will have the same entitlement to recover compensation under this Deed as the State or the relevant Third Party Authority has to recover that compensation from a Counterparty under the V/Line Project Agreement or a VIVA Recoverable Works Agreement (as applicable) in respect of the subject matter of the Common Dispute;

(iv) any rights Project Co has against the State will not exceed the equivalent rights to which the State or the relevant Third Party Authority is entitled under the V/Line Project Agreement or a VIVA Recoverable Works Agreement (as applicable); and

(v) the State will pass through to Project Co the proportion of any compensation (including damages or other form of relief) to which the State or relevant Third Party Authority is entitled under the V/Line...
Project Agreement or a VIVA Recoverable Works Agreement (as applicable) in respect of the subject matter of the Common Dispute:

A. to the extent that this is referrable to Project Co, including any liability, Claim or loss of Project Co; and

B. determined by reference to what is actually compensated or allowed by a Counterparty under the V/Line Project Agreement or a VIVA Recoverable Works Agreement (as applicable).

(i) The State agrees to, and will procure the relevant Third Party Authority to:

(i) request that the relevant Counterparty permit Project Co to directly make representations in respect of the Common Dispute;

(ii) if it is unable to obtain the Counterparty’s consent as contemplated under section 2.2(i)(i) of this Schedule, make on behalf of Project Co whatever representations in respect of the Common Dispute that Project Co reasonably requests; and

(iii) provide:

A. regular updates to Project Co; and

B. whatever information and documents Project Co reasonably requests,

as to the progress of the Common Dispute.

(j) The State’s liability to Project Co in respect of the subject matter of a Common Dispute to which sections 2.2(g) to 2.2(n) apply:

(i) is satisfied by payment to Project Co in accordance with section 2.2 of this Schedule; or

(ii) if the Counterparty is not liable to the State or relevant Third Party Authority, is deemed to be satisfied on the determination of that matter (whether by dispute resolution under the V/Line Project Agreement or a VIVA Recoverable Works Agreement (as applicable) or otherwise), provided that:

A. the State has complied with its obligations under section 2.2 of this Schedule with respect to the recovery of the State’s and the relevant Third Party Authority’s and Project Co’s entitlements from the Counterparty; and

B. all appeals from such determination have been exhausted.

(k) Project Co agrees:

(i) to provide all documents, assistance, and cooperation reasonably requested by the State and the relevant Third Party Authority (and in the time requested by the State) in connection with the Common Dispute;

(ii) that where the V/Line Project Agreement or a VIVA Recoverable Works Agreement contemplate:

A. alternative dispute resolution (including arbitration and expert determination):

1) a like process will apply to the Common Dispute between the parties; and
2) Project Co consents to the Common Dispute being heard together with (or consolidated with) that alternative dispute resolution process; and

B. litigation, Project Co consents to the Common Dispute being consolidated with (or heard together with) that litigation; and

(iii) to be bound by the outcome of the Common Dispute resolution process to the extent it affects Project Co's rights and obligations under this Deed.

(l) Project Co's entitlement to a remedy in respect of a Common Dispute will not be reduced to the extent to which the State's or the relevant Third Party Authority's entitlements under the V/Line Project Agreement or a VIVA Recoverable Works Agreement are reduced or extinguished due to the State's or the relevant Third Party's breach or failure to comply with the V/Line Project Agreement or a VIVA Recoverable Works Agreement (as applicable) or other act or omission (in each case to the extent not caused by Project Co).

(m) To the extent Project Co has recovered compensation in respect of the Common Dispute under another provision of this Deed, Project Co is not entitled to the same compensation under section 2.2 of this Schedule.

(n) If the State, in its absolute discretion, elects that a Common Dispute will not be pursued against the relevant Counterparty, then to the extent that the remedies, benefits or entitlements to which Project Co is entitled in respect of the V/Line Project Agreement or a VIVA Recoverable Works Agreement are less than the remedies, benefits or entitlements to which Project Co would otherwise have been entitled under this Schedule if the State had agreed that the Common Dispute be resolved in accordance with section 2.2(g) to 2.2(n), Project Co will be entitled to pursue the State and the State will be liable for providing such remedy, benefit or entitlement to the same extent that the Counterparty would have been liable pursuant to the V/Line Project Agreement or a VIVA Recoverable Works Agreement (as applicable).

(o) Any payment to which Project Co is entitled under section 2.2 of this Schedule in respect of a Common Dispute shall be paid by the State to Project Co within [not disclosed] from the date of the settlement or final determination (with all rights of appeal having been exhausted) of the Common Dispute under or in connection with the V/Line Project Agreement or a VIVA Recoverable Works Agreement.

(p) The parties agree that Project Co's sole remedy in respect of Claims in connection with the V/Line Project Agreement and the VIVA Recoverable Works Agreements is as set out in section 2.2 of this Schedule.
